

The energy storage facility is due to be one of the largest battery storage facilities in the world. The risk of fire, flood and chemical leak is enormous. The health and safety aspect is deeply concerning.

What measures will be undertaken to ensure there is no risk regarding fire, flood and chemical leak to neighbouring properties ?

The size of the Cottam, West Burton, Gate Burton and Tillbridge solar projects cover 13,000 acres all within a 6 mile radius. The cumulative impact of these projects threatens our national food security.

The access roads for the Cottam 1 project are narrow country lanes and not at all suitable for the heavy traffic required for the construction process.
