

Having seen an aerial picture showing the extent of the solar Panels covering Cottam and the surrounding other proposals for solar panels. which should be taken as a whole NOT SEPARATE PARCELS this could cover an area of 13000 acres. This is appalling. on an area of outstanding Natural scenery. This will blight our countryside for 40 years. The glare and the destruction of our countryside should not be considered. It should be for the production of Food to feed our population. it will also stop our wildlife. Hares. Deer. Badgers and Foxes, from roaming our countryside. PLEASE do not let this happen. Why should the people the people who live here, have to suffer this.
