Good morning I just want to say how I will miss running down the quiet lanes of Stow, Sturton by Stow and Thorpe le Fallows. Listening to the birds, looking at the flowers in the hedgerows and enjoying the wildlife. I'm concerned about the traffic of heavy vehicles on these lanes, the glare from the solar, please don't take our fields away. Put solar on every house, dwelling, farm buildings, factories, carparks not our fields for food. Thank you for reading this.
