Dear Sir/Madam,

Application by Evolution Power Limited (the Applicant) for an Order granting Development Consent for the Stonestreet Green Solar (the Proposed Development)

Protection of Southern Water Assets

SWS is the statutory sewerage undertaker for the area of the proposed development. SWS has apparatus and interests in land which is the subject of the proposed application.

I enclose a spreadsheet listing the SWS's assets/easements in proximity to the proposed works, including approximate grid references. You will need to obtain copies of SWS's records to ascertain the full extent of plant affected.

Please note: This is sensitive data and should not be placed on the public record. The information and data contained on these drawings are copyright to SWS and are provided as a guide to the approximate position and details of the assets listed in the documents accompanying this letter. SWS accepts no responsibility in the event of inaccuracy. The actual positions and details will need to be determined on site in all cases.

Appropriate protective provisions will be required to ensure the protection of SWS's assets and ensure that necessary provisions are in place to ensure that the apparatus can be maintained in perpetuity. Without such provisions the proposed application will have an unacceptable impact on SWS's assets.

We look forward to hearing from you in due course, ideally to agree protective provisions in advance of the submission of your application for a Compulsory Purchase Order. Correspondence relating to this response should be sent to the address shown in the footer of this document.

The information and data contained on these drawings or supplied by any other means are copyright to Southern Water Services Ltd. and are provided as a guide to the approximated position and details of Southern Water Assets as listed above, but Southern Water Services Ltd. accepts no responsibility in the event of inaccuracy. This information must be treated with caution and the actual positions and details should be determined on site, in all cases.

Southern Water Services Ltd. records will not necessarily record the location or show information associated with private sewers which may have become public sewers under the transfer of private sewers.

It is possible that a sewer now deemed to be public could be crossing the site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
