## 1. Introduction

"At Item 3 of Annex F to the Rule 6 Letter [PD-005], the Examining Authority has requested the submission of a Land Rights Tracker to capture and manipulate the data currently within the 'Schedule of Negotiations', which form Appendix 1 to the Statement of Reasons [APP-029] in a simple, useable table. The Examining Authority provided Mona Offshore Wind Limited (the Applicant) with an example of a Land Rights Tracker and the content required to form a comprehensive account of the status of negotiations with landowners, Crown bodies and statutory undertakers.

The Applicant has adopted the example provided by the Examining Authority and made minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 of the introduction to this Land Rights Tracker explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains changes made from the example provided by the Examining Authority."

## 2. Description of Rights Requested

The Land Plans [AS-005] show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the Book of Reference [AS-015].

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours have been used to signify the rights requested within this tracker:

**Pink** Compulsory acquisition of all interests and rights in land (including as required subsoil, surface land)

**Blue** Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)

**Yellow** Temporary possession and use of land primarily during construction and for up to 12 months from completion of the relevant works

**Green** Creation and compulsory acquisition of new rights (including where necessary a right to impose restrictive covenants) for hedgerow enhancement and maintenance

This tracker identifies the powers sought over plots of land by reference to the colours shown on the Land Plans.

| 7310     | Network Rail Infrastructure Limited        | David Bradshaw / Hannah Abu-Harb and Juliet Clark of Eversheds Sutherland | Draft in discussion   | Draft in discussion                      | Draft in discussion   | No       |                     | <p>The Applicant's land agents (Dalcour Maclaren (DM)) have engaged with the Statutory Undertaker. Heads of Terms were issued on 17 January 2024. Further HoTs have been drafted to align with the land interests template HoTs and are due to be issued shortly.</p> <p>The Applicant has included bespoke protective provisions for the protection of Network Rail Infrastructure Limited within Schedule 10, Part 8 of the draft DCO (Document reference C1). The Applicant's solicitors, Burges Salmon LLP, are engaged in discussions with Network Rail Infrastructure Limited on these protective provisions. The draft set of protective provisions was provided to Network Rail Infrastructure Limited on 12 March 2024. The Applicant expects to reach agreement with Network Rail Infrastructure Limited on protective provisions before the close of examination.</p> <p><b>Deadline 1 update</b><br/>The Applicant has included draft bespoke protective provisions for the protection of Network Rail within Schedule 10 of the draft DCO and the parties are actively engaged in discussions in relation to these. Network Rail has provided the Applicant with a draft of the required Framework Agreement to manage the direct interface that the DCO has with the operational railway and to regulate certain aspects of the relationship between Network Rail and the Applicant in relation to the delivery of the Proposed DCO Development. The Framework Agreement will set out various obligations on the parties should the DCO be made. The Framework Agreement must append the following documents: Network Rail's Protective Provisions, the Asset Protection Agreement (once completed) and the Property Agreement (once completed). Network Rail is also negotiating with the Applicant the Property Agreement, which will take the form of a Lease. The parties are currently agreeing rental figures and plans are being prepared, good progress is being made to agree the final form of the Property Agreement. It is Network Rail's position that it will not withdraw its objection until the Framework Agreement has been completed. Updates on the position of negotiations with Statutory Undertakers is set out in the Land Rights Tracker. The Applicant therefore considers that a Statement of Common Ground between itself and Network Rail is not necessary at this stage as there is no further information to provide the Examining Authority. The Applicant will keep this position under review as the Examination progresses.</p> <p>See also the Planning Obligations and Commercial Side Agreements tracker (S_D1_24).</p> | 02/08/2024   | 02-024, 02-025   | 2            | 02-024 being 2517 square metres of grassland (north of the A55, Abergelle) (excluding all interests of the crown)<br>02-025 being 19299 square metres of grassland and railway (north of the A55, Abergelle)   | Land subject to Acquisition of Rights | 8   | Article 22 and Schedule 8 of the draft DCO (Document reference C1) | Open Space       |                        | SU and known operational   | RR-060               |                     |   |                                   |  |
