**Glossary**

<b>Term</b>	<b>Meaning</b>
Applicant	Mona Offshore Wind Limited.
Development Consent Order (DCO)	An order made under the Planning Act 2008 granting development consent for one or more Nationally Significant Infrastructure Project (NSIP).
Mona Offshore Wind Project	The Mona Offshore Wind Project is comprised of both the generation assets, offshore and onshore transmission assets, and associated activities.
The Planning Inspectorate	The agency responsible for operating the planning process for Nationally Significant Infrastructure Projects.

**Acronyms**

<b>Acronym</b>	<b>Description</b>
DCO	Development Consent Order
ExA	Examining Authority

# 1 APPENDIX TO RESPONSE TO HEARING ACTION POINTS: ONSHORE FIGURE UPDATE CLARIFICATION

## 1.1 Introduction

1.1.1.1 This document has been prepared in response to Action Point 1 arising from the Preliminary Meeting which was held on 16 July 2024 in respect of the Mona Offshore Wind Project.

1.1.1.2 Action Point 1 is set out in the Preliminary Meeting Note (document reference EV1-003) and requires:

*Applicant to provide an update/explanation of ES figures and application documents submitted at Procedural Deadline.*

## 1.2 Response

1.2.1.1 At the Procedural Deadline A, the Applicant submitted a set of updated Environmental Statement and other relevant application document figures as appropriate. As explained in the Application Letter (APP-001) paragraph 12.1, the Applicant anticipated that updates to some Environmental Statement and other relevant application document figures would be required to show the proposed operational access to the existing National Grid Substation from the proposed Mona Substation access road which was shown on the Works Plans – Onshore (AS-002) and assessed in the Environmental Impact Assessment but not shown on all figures. Section 51 advice from the Examining Authority made the request for these updates to be made to the Environmental Statement and other relevant application document figures as applicable.

1.2.1.2 In response to Section 51 advice, the updated figures were submitted within a series of documents as set out in Table 1.1 below.

**Table 1.1: Documents submitted at Procedural Deadline A containing updated figures**

Examination Library Reference	Document title
PDA-023	S_PD_7.1 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures – Outline Plans
PDA-024	S_PD_7.2 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures - Reports
PDA-025	S_PD_7.3 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 1, 2, 3, 4, 5 and 6)
PDA-026	S_PD_7.4 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 1)
PDA-027	S_PD_7.5 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 2)
PDA-028	S_PD_7.6 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 3)
PDA-029	S_PD_7.7 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 4)
PDA-030	S_PD_7.8 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 5)

**MONA OFFSHORE WIND PROJECT**

<b>Examination Library Reference</b>	<b>Document title</b>
PDA-031	S_PD_7.9 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 6)
PDA-032	S_PD_7.10 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures (Volume 7 – Part 7)
PDA-033	S_PD_7.11 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures – (Volume 7 – Part 8)
PDA-034	S_PD_7.12 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures – Volume 7 – Part 9)
PDA-035	S_PD_7.12 Figure updates to address inconsistency between Onshore Works Plan and Environmental Statement figures – Volume 7 – Part 10)

- 1.2.1.3 Table 1.2 below sets out the original figure references (as submitted with the Application for Development Consent), the updated figure references (as submitted at Procedural Deadline A) and a description of the changes made to each figure.
- 1.2.1.4 Some figures comprise more than one sheet. Where this is the case, entire figures were resubmitted, including sheets where no changes were made, to maintain legibility of figures. Similarly, in some instances, sequential figures show sections of the Order limit in succession. Where this is the case, entire sequences of figures were resubmitted to ensure legibility, including figures where no changes were made. Where this is the case, an explanation is included to confirm.
- 1.2.1.5 For figures where the entire Order limits are indicated, the inclusion of the proposed operational access to the existing National Grid Substation from the proposed Mona Substation access road is not discernible at the scale of the figure. Notwithstanding, these figures were resubmitted for completeness and to ensure there is no discrepancy with the Order limits even where the change is not discernible on the figure.
- 1.2.1.6 Since the submission of the updated figures at Procedural Deadline A, the Applicant has committed to re-submitting several updated documents to the Examination. Once submitted to the Examination, these documents will include the latest revision of the figure and will therefore replace the figures submitted at Procedural Deadline A. Where this is applicable, the Applicant has indicated in the 'figure status' column of Table 1.2 below the commitment to submit updated documents to the Examination.
