You don't often get email from [REDACTED]@islandgp.com. [Learn why this is important](#)

Dear PINS,

Further to the below confirmation of registration as an Interested Party, I attach a copy of the option plan which supports the IGP Solar 21 Limited representation in respect of Mona Offshore Wind Farm land parcels 11.200, 11-201, 11-202 and 11-203 which, for ease of reference is:

IGP Solar 21 Limited (Company Number 13307064) (IGP) has recently secured an option agreement over land at Pentre Mawr Marli Abergele LL22 9DR within Land Registry parcel number CYM130979 (the Site). The option is in the process of being registered with the Land Registry. IGP intends to develop a Battery Storage Facility on the Site and is in the process of progressing a planning application in respect of it. IGP has not engaged with the Mona Offshore Wind Farm Project DCO to date because the option agreement post-dates the submission of the DCO application. As such, this is the first opportunity that IGP has had to participate in the Mona DCO process. Given the potential interactions between our proposal and the Mona DCO, IGP wishes to register as an Interested Party as part of the Mona DCO Examination as it may wish to make further representations on the proposal as the Examination progresses. This is particularly so given the direct interrelation between the two projects at the Site. On a review of the DCO and Works Plans, the relevant Work Nos relating to the Site are Work Nos 25 and 26. These are shown on B3 Works Plan Onshore Sheet 11 (Drawing number BP-GBR-MONA-PRJ-0091). IGP is willing to engage proactively with the Applicant to ensure that both schemes can be accommodated on the Site (should the DCO be consented) and, where there are potential interfaces, that they can be properly addressed.

I would be grateful if you could please confirm receipt.

Kind regards

Nick Bowen | Senior Project Development Manager
