## 1. Introduction

"At Item 3 of Annex F to the Rule 6 Letter [PD-005], the Examining Authority has requested the submission of a Land Rights Tracker to capture and manipulate the data currently within the 'Schedule of Negotiations', which form Appendix 1 to the Statement of Reasons [APP-029] in a simple, useable table. The Examining Authority provided Mona Offshore Wind Limited (the Applicant) with an example of a Land Rights Tracker and the content required to form a comprehensive account of the status of negotiations with landowners, Crown bodies and statutory undertakers.

The Applicant has adopted the example provided by the Examining Authority and made minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 of the introduction to this Land Rights Tracker explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains changes made from the example provided by the Examining Authority."

## 2. Description of Rights Requested

The Land Plans [AS-005] show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the Book of Reference [AS-015].

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours have been used to signify the rights requested within this tracker:

**Pink** Compulsory acquisition of all interests and rights in land (including as required subsoil, surface land)

**Blue** Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)

**Yellow** Temporary possession and use of land primarily during construction and for up to 12 months from completion of the relevant works

**Green** Creation and compulsory acquisition of new rights (including where necessary a right to impose restrictive covenants) for hedgerow enhancement and maintenance

This tracker identifies the powers sought over plots of land by reference to the colours shown on the Land Plans.

Notes to the ExA	The Applicant has moved this column to be the first column to allow the data to be structured by AP. This prevents the BoR being duplicated in this spreadsheet.	The Applicant is unable to provide this information on behalf of the APs. However if an AP should wish to provide the information to the ExA as a comment on this tracker, the Applicant can insert the information.		The Applicant has moved the columns under the 'Agreements' and 'Status Update' headings (E-K) left to be next to the 'Tracking' columns to allow improved readability of the pertinent information.  See data list below -	See data list below - "not required/ no request for bespoke PPs" has been added to reflect that not all statutory undertakers have requested bespoke protective provisions.		See data list below - "n/a" has been added for where HoTs/ PPs/ Side agreements are not necessary.	This column has been split into two to allow a filter provision as well as a narrative column.			This column will include a list of the plots that the AP has an interest in.		This will refer to the detail in the BoR which includes the land descriptions and detail about restrictive covenants.	See data input list below and an explanation of the colours as shown on the land plans will be included in the introduction and glossary to this tracker.		See data input list below - "None" has been added.		See data input list below.				Heading amended to clarify that this is specifically for other submissions that have been submitted by that IP/AP.

Network Rail has provided the Applicant with a draft of the required Framework Agreement to manage the direct interface that the DCO has with the operational railway and to regulate certain aspects of the relationship between Network Rail and the Applicant in relation to the delivery of the Proposed DCO Development. The Framework Agreement will set out various obligations on the parties should the DCO be made. The Framework Agreement must append the following documents: Network Rail's Protective Provisions, the Asset Protection Agreement (once completed) and the Property Agreement (once completed). Network Rail is also negotiating with the Applicant the Property Agreement, which will take the form of a Lease. The parties are currently agreeing rental figures and plans are being prepared, good progress is being made to agree the final form of the Property Agreement. It is Network Rail's position that it will not withdraw its objection until the Framework Agreement has been completed. Updates on the position of negotiations with Statutory Undertakers is set out in the Land Rights Tracker. The Applicant therefore considers that a Statement of Common Ground between itself and Network Rail is not necessary at this stage as there is no further information to provide the Examining Authority. The Applicant will keep this position under review as the Examination progresses.</p> <p>See also the Planning Obligations and Commercial Side Agreements tracker (S_D1_24).</p>	27/09/2024	02-024, 02-025	2	02-024 being 2517 square metres of grassland (north of the A55, Abergele) (excluding all interests of the crown) 02-025 being 19299 square metres of grassland and railway (north of the A55, Abergele)	Land subject to Acquisition of Rights	8	Article 22 and Schedule 8 of the draft DCO (Document reference C1)	Open Space		SU and known operational	RR-060	REP1-057		REP2-078

141241	Gwynt Y Mor OFTO PLC	Ian Naylor	None drafted	Not required/ no request for bespoke PPs		No		The Applicant's land agents (Dalcour Maclaren (DM)) have engaged with the Statutory Undertaker. The Applicant met with the representatives on 9 April 2024 and 20 May 2024 to discuss the occupiers consent to be sought. The Applicant provided a draft of the default protective provisions which are included within Schedule 10, Part 1 of the draft DCO (Document reference C1) on 11 March 2024. No further comments have been received so it is presumed that Gwynt Y Mor OFTO PLC will rely on the default protective provisions.  <b>Deadline 1 update</b> The Applicant's land agents issued an Occupiers Consents document to the land interest on 15th July 2024, however it is understood it is still the case that an agreement is to be reached with the Freeholder before this can be completed.  <b>Deadline 2 update</b> DM has prompted the occupiers land agent, most recently on 22 August 2024, for a response on the occupiers consent terms.  <b>Deadline 3 update</b> Comments have been received on the Occupiers Consent	27/09/2024	11-190, 11-197, 11-199, 11-211, 11-212, 11-213, 11-216, 11-219, 11-220	11	11-190 being 3730 square metres of agricultural land (south of the National Grid Bodelwyddan substation) 11-197 being 187139 square metres of agricultural land, hedgerow, pond, access track and electricity pylon (south of the National Grid Bodelwyddan substation) 11-199 being 5408 square metres of agricultural land and treeline (south of the National Grid Bodelwyddan substation) 11-211 being 2013 square metres of agricultural land (south of the National Grid Bodelwyddan substation) 11-212 being 2656 square metres of agricultural land (south of the National Grid Bodelwyddan substation) 11-213 being 15147 square metres of agricultural land and pond (south of the National Grid Bodelwyddan substation) 11-216 being 9552 square metres of agricultural land and hedgerow (south of the National Grid Bodelwyddan substation) and public bridleway (BR 208/3) 11-219 being 5663 square metres of agricultural land and hedgerow (south of the Gwynt y Mor Offshore Wind Farm Substation) 11-220 being 3075 square metres of agricultural land (east of the Gwynt y Mor Offshore Wind Farm Substation)	Land subject to Freehold Acquisition	36, 20, 25, 24, 32, 21, 27, 29, 33, 23, 22a, 22	Article 20 of the draft DCO (Document reference C1)					SU and known operational	N/A
