Re my deadline 2 request for an ExA Accompanied site inspections in vicinity of Penrefail crossroads.

I provide a image of the area in question indicating in blue the approximate location of the watercourse that runs all year round, not rain water runoff that i wanted to indicate to the ExA in person.

The orange lines indicate the areas of issues referenced in my RR at deadline 2.

The yellow lines indicate 2 parking points for the purposes of the visit.

I have only recently had access to the itinerary for site inspections and noted the area TCC2 was not included, despite the applicant acknowledging that i had asked for an inspection.

Stuart Neil.
