1. Introduction

"At Item 3 of Annex F to the Rule 6 Letter [PD-005], the Examining Authority has requested the submission of a Land Rights Tracker to capture and manipulate the data currently within the 'Schedule of Negotiations', which form Appendix 1 to the Statement of Reasons (Document reference D3) in a simple, useable table. The Examining Authority provided Mona Offshore Wind Limited (the Applicant) with an example of a Land Rights Tracker and the content required to form a comprehensive account of the status of negotiations with landowners, Crown bodies and statutory undertakers.

The Applicant has adopted the example provided by the Examining Authority and made minor amendments to the layout, headings and restricted inputs in certain columns to provide further clarity and functionality making the data more accessible.

Section 3 of the introduction to this Land Rights Tracker explains the purpose and content of each of the columns of this tracker. The row that is titled "Notes to the ExA" explains changes made from the example provided by the Examining Authority."

2. Description of Rights Requested

The Land Plans (document reference B5) show land and rights over which compulsory acquisition and temporary possession powers are sought and the powers being sought are also listed in the Book of Reference [REP3-006].

On the Land Plans the plots are coloured to show the type of power that is required over each plot of land to deliver the Project. These same colours have been used to signify the rights requested within this tracker:

Pink Compulsory acquisition of all interests and rights in land (including as required subsoil, surface land)

Blue Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)

Yellow Temporary possession and use of land primarily during construction and for up to 12 months from completion of the relevant works

Green Creation and compulsory acquisition of new rights (including where necessary a right to impose restrictive covenants) for hedgerow enhancement and maintenance

This tracker identifies the powers sought over plots of land by reference to the colours shown on the Land Plans.

Heads of Terms were issued on 17 January 2024. Further HoTs have been drafted to align with the land interests template HoTs and are due to be issued shortly.</p> <p>The Applicant has included bespoke protective provisions for the protection of Network Rail Infrastructure Limited within Schedule 10, Part 8 of the draft DCO (Document reference C1). The Applicant's solicitors, Burges Salmon LLP, are engaged in discussions with Network Rail Infrastructure Limited on these protective provisions. The draft set of protective provisions was provided to Network Rail Infrastructure Limited on 12 March 2024. The Applicant expects to reach agreement with Network Rail Infrastructure Limited on protective provisions before the close of examination.</p> <p>Deadline 1 update The Applicant has included draft bespoke protective provisions for the protection of Network Rail within Schedule 10 of the draft DCO and the parties are actively engaged in discussions in relation to these. Network Rail has provided the Applicant with a draft of the required Framework Agreement to manage the direct interface that the DCO has with the operational railway and to regulate certain aspects of the relationship between Network Rail and the Applicant in relation to the delivery of the Proposed DCO Development. The Framework Agreement will set out various obligations on the parties should the DCO be made. The Framework Agreement must append the following documents: Network Rail's Protective Provisions, the Asset Protection Agreement (once completed) and the Property Agreement (once completed). Network Rail is also negotiating with the Applicant the Property Agreement, which will take the form of a Lease. The parties are currently agreeing rental figures and plans are being prepared, good progress is being made to agree the final form of the Property Agreement. It is Network Rail's position that it will not withdraw its objection until the Framework Agreement has been completed. Updates on the position of negotiations with Statutory Undertakers is set out in the Land Rights Tracker. The Applicant therefore considers that a Statement of Common Ground between itself and Network Rail is not necessary at this stage as there is no further information to provide the Examining Authority. The Applicant will keep this position under review as the Examination progresses. See also the Planning Obligations and Commercial Side Agreements tracker (S_D1_24).</p> <p>Deadline 2 update The Applicant is continuing to discuss the protective provisions and Framework Agreement with Network Rail. The Applicant expects that it will reach agreement with Network Rail on these documents before the close of examination.</p> <p>Deadline 3 update The Applicant is continuing to discuss the protective provisions and Framework Agreement with Network Rail. 								<p>reach agreement with Network Rail on these documents before the close of examination.</p> <p>The Applicant is also discussing the property agreement with the land interest, and is confident that most terms are now agreed upon.</p> <p>Deadline 4 update</p> <p>The Applicant remains in ongoing negotiation with Network Rails agent on the commercial element of the property agreement and to resolve the outstanding points of difference. The Applicant is hopeful an agreement on the heads of terms will be reached in the coming weeks.</p> <p>The Applicant is continuing to discuss the protective provisions and Framework Agreement with Network Rail. The Applicant and Network Rail had arranged to meet on 31 October to further progress discussions, but this had to be rearranged by the Applicant due to a diary clash. This meeting will be rearranged for the week commencing 4 November 2024. The Applicant expects that it will reach agreement with Network Rail on these documents before the close of examination.</p> <p>Deadline 5 update</p> <p>The Applicant last reverted to Network Rails agent on 25th November on the commercial element of the land agreement, which is understood to be the only outstanding element. The Applicant is continuing to engage on the protective provisions and Framework Agreement with Network Rail. The Applicant expects to reach agreement with Network Rail before the close of Examination. Please see Response to Examining Authority's Written Question 2.6.9 regarding Statutory Undertakers (Document Reference S_D5_32.1).</p> <p>Deadline 6 update</p> <p>There has been no substantive progress since deadline 5. The outstanding point for the voluntary agreement for the land rights relate to compensation matters. With regards to the protective provisions, the Applicant is resolving some minor drafting matters with Network Rail on the protective provisions and side agreement and it is expected that agreement will be reached for Deadline 7.</p> <p>Deadline 7 update</p> <p>The Applicant has continued dialogue with Network Rail. The key outstanding point is the commercial element on the voluntary agreement, with all other matters being agreed. Agreed protective provisions have been added to the Draft DCO at Deadline 7. 130416	Gwynt Y Mor Offshore Wind Farm Limited	Ian Naylor	N/A	Not required/ no request for bespoke PPs				The Applicant's land agents (Dalcour Maclaren (DM)) have engaged with the Statutory Undertaker. It is understood that negotiation between the Applicant and the Freeholder are required to progress before a voluntary agreement can be reached with this land interest. The Applicant provided a draft of the default protective provisions which are included within Schedule 10, Part 1 of the draft DCO (Document reference C1) on 11 March 2024. No further comments have been received so it is presumed that Gwynt Y Mor Offshore Wind Farm Limited will rely on the default protective provisions. Deadline 1 update The Applicant's land agents issued an Occupiers Consents document to the land interest on 15th July 2024, however it is understood it is still the case that an agreement is to be reached with the Freeholder before this can be completed. Deadline 2 update DM has prompted the occupiers land agent, most recently on 22 August 2024, for a response on the occupiers consent terms. Deadline 3 update Comments have been received on the Occupiers Consent document, and the Applicant is confident that the contents of the agreement will be finalised shortly. Deadline 4 update The Applicants land agent met with the land interest on 23rd October to discuss the outstanding points on the Occupiers Consent agreement, conversations have been ongoing through email to resolve the points of difference are resolved. The Applicant is hopeful the agreement can be finalised in the coming weeks. Deadline 5 update The Applicants land agent has had further correspondence with the land interest. The Applicant remains hopeful that agreement can be reached prior to the close of examination. Change request update The Applicant will engage with the interested party regarding the change to the order limits through the statutory Change Request formal consultation process. Deadline 6 update There has been little substantive progress since deadline 5, however, the Applicant remains hopeful that agreement will be reached prior to the close of examination. Deadline 7 update The Applicant has had further dialogue with the land interest on the voluntary land rights sought. The Applicant is not aware of any issues which would prevent a voluntary agreement being reached with the land interest.	10/01/2025	11-190, 11-197, 11-199, 11-211, 11-219, 11-220	11	11-190 being 3730 square metres of agricultural land (south of the National Grid Bodelwyddan substation) 11-197 being 187139 square metres of agricultural land, hedgerow, pond, access track and electricity pylon (south of the National Grid Bodelwyddan substation) 11-199 being 5408 square metres of agricultural land and treeline (south of the National Grid Bodelwyddan substation) 11-211 being 2013 square metres of agricultural land (south of the National Grid Bodelwyddan substation) 11-219 being 5663 square metres of agricultural land and hedgerow (south of the Gwynt y Mor Offshore Wind Farm Substation) 11-220 being 3075 square metres of agricultural land (east of the Gwynt y Mor Offshore Wind Farm Substation)	Land subject to Freehold Acquisition	36, 20, 25, 24, 32, 21, 27, 29, 33, 23, 22a, 22	Article 20 of the draft DCO (Document reference C1)					SU and known operational	N/A
