Glossary

Term	Meaning
Applicant	Mona Offshore Wind Limited.
Development Consent Order (DCO)	An order made under the Planning Act 2008 granting development consent for one or more Nationally Significant Infrastructure Project (NSIP).
Marine licence	The Marine and Coastal Access Act 2009 requires a marine licence to be obtained for licensable marine activities. Section 149A of the Planning Act 2008 allows an applicant for a DCO to apply for a 'deemed' marine licence as part of the DCO process. In addition, licensable activities within 12nm of the Welsh coast require a separate marine licence from Natural Resource Wales (NRW).
Mona Offshore Wind Project	The Mona Offshore Wind Project is comprised of both the generation assets, offshore and onshore transmission assets, and associated activities.
The Planning Inspectorate	The agency responsible for operating the planning process for Nationally Significant Infrastructure Projects.

1 Statement of Commonality

1.1 Overview

1.1.1 Purpose of this document

1.1.1.1 Statements of Common Ground (SoCGs) have been prepared between Mona Offshore Wind Limited (hereafter referred to as ‘the Applicant’) and other parties. These have been prepared to set out the areas of agreement and disagreement with these parties in relation to the Development Consent Order (DCO) application for the Mona Offshore Wind Project.

1.1.1.2 In the Rule 6 Letter dated 07 June 2024, the Examining Authority (ExA) requested that the Applicant prepare a Statement of Commonality. This document provides an overview of the approach taken to capture commonality with the parties specified in the Rule 6 Letter (Table 1.1), the status of each SoCG (Table 1.2) and the agreement status with the parties for each topic (Table 1.4) in a tabular, colour-coded format as requested by the ExA.

1.1.1.3 This Statement of Commonality is intended to act only as a summary of the progress of the SoCGs. For full details of the items under discussion with each stakeholder, please refer to the relevant SoCG. For details of principal and other notable issues please refer to the Examination Progress Tracker (S_PD_4 F04).

1.1.1.4 The Statement of Commonality, SoCGs and Pre-Examination/Examination Progress Tracker will be updated at the relevant Deadlines during the Examination according to the Examination Timetable published in the Rule 8 Letter dated 23 July 2024.

1.1.2 Overview of the Mona Offshore Wind Project

1.1.2.1 The Mona Offshore Wind Project is a proposed offshore wind farm located in the east Irish Sea. The Mona Offshore Wind Project will include both offshore and onshore infrastructure and consist of:

- **Mona Array Area:** This is where the wind turbines, Offshore Substation Platforms (OSPs), foundations (for both wind turbines and OSPs), inter-array cables, interconnector cables and offshore export cables will be located
- **Mona Offshore Cable Corridor and Access Areas:** The corridor located between the Mona Array Area and the landfall up to Mean High Water Springs (MHWS), in which the offshore export cables will be located and in which the intertidal access areas are located
- **Intertidal access areas:** The area from MHWS to Mean Low Water Springs (MLWS) which will be used for access to the beach and construction related activities
- **Landfall:** This is where the offshore export cables make contact with land and the transitional area where the offshore cabling connects to the onshore cabling
- **Mona Onshore Development Area:** The area in which the landfall, Mona Onshore Cable Corridor, Mona Onshore Substation, mitigation areas, temporary construction infrastructure (such as access roads and construction compounds), operational access to the Mona Onshore Substation and the 400 kV connection to National Grid infrastructure will be located

MONA OFFSHORE WIND PROJECT

- **Mona Onshore Substation:** This is where the new substation will be located, containing the components for transforming the power supplied from the offshore wind farm up to 400 kV
- **Mona 400 kV Grid Connection Cable Corridor:** The corridor from the Mona Onshore Substation to the National Grid substation.

1.2 List of Statements of Common Ground

1.2.1.1 The approach for capturing commonality between the Applicant and each party for whom the ExA has requested the submission of an SoCG in the Rule 6 Letter and additional parties for whom a SoCG has been proposed is provided in Table 1.1.

Table 1.1: Approach to commonality for all parties with whom the ExA have requested the Applicant submit an SoCG.

-	National Grid Electricity Transmission Plc	National Grid Electricity Transmission Plc and the Applicant are in agreement that a Statement of Common Ground (SoCG) between the two parties is not necessary as updates on progress between the parties will be provided in the Land Rights Tracker (S_PD_5). As such, National Grid Electricity Transmission Plc and the Applicant will not prepare an SoCG to be submitted during the Examination but will continue to engage on Protective Provisions and provide updates in the Land Rights Tracker.
-	Network Rail Limited	The Applicant has included Network Rail's preferred protective provisions within Schedule 10 of the Draft DCO (C1 F08). The Applicant has now agreed the required Framework Agreement with Network Rail to manage the direct interface that the DCO has with the operational railway and to regulate certain aspects of the relationship between Network Rail and the Applicant in relation to the delivery of the Proposed DCO Development. It is Network Rail's position that it will not withdraw its objection until the Framework Agreement has been completed but the parties are in the process of signing the Framework Agreement and that confirmation is expected to be shortly forthcoming. Updates on the position of negotiations with Statutory Undertakers is set out in the Final Position Statement on Statutory Undertakers and Crown Land (S_D7_31) and the Commercial Side Agreements tracker (S_D1_24 F02).
-	Dwr Cymru Welsh Water	The Applicant has addressed all of Dwr Cymru Cyfyngedig's comments on the draft protective provisions and the protective provisions were included in the draft development consent order (C1 F08) in an agreed form.
-	SP Manweb PLC	The Applicant has addressed all of SP Manweb PLC's comments on the draft protective provisions and a set of protective provisions have been included in the draft development consent order (C1 F08) in an agreed form.
-	Wales and West Utilities	The Applicant has included draft bespoke protective provisions for the protection of Wales and West Utilities within Schedule 10 of the Draft DCO (C1 F08) and is seeking confirmation from Wales and West Utilities that these are agreed. Please see Final Position Statement on Statutory Undertakers and Crown Land (S_D7_31).
-	North and Mid Wales Trunk Road Agency on behalf of Welsh Ministers as Strategic Highway Authority (Welsh Ministers)	The Applicant has addressed all of Welsh Minister's comments on the draft protective provisions and a set of protective provisions have been included in the draft development consent order (C1 F08) in an agreed form.
