Dear Consultee

**Rivenhall Integrated Waste Management Facility Development Consent Order
Statutory pre-application consultation: 09:00am on 28th June to 11:59:59pm on
23rd August 2023
Section 42(1)(a), (b), and (d) of the Planning Act 2008 ('the Act')**

Indaver Rivenhall Limited ('the Applicant') is carrying out statutory consultation on its proposals to extend the generating capacity of the Rivenhall Integrated Waste Management Facility ('the Proposed Development') pursuant to section 42 of the Act. This letter explains how to take part in the consultation and invites you to share your views on the proposals.

The Proposed Development

The Rivenhall Integrated Waste Management Facility ('IWMF') is currently being constructed in accordance with planning permission granted through the Town and Country Planning Act 1990 (as amended) by Essex County Council (ECC ref: ESS/34/15/BTE, dated 26 February 2016). The planning permission allows the IWMF to generate up to 49.9 megawatts of electrical energy ('MW').

A Development Consent Order ('DCO') application ('the Application') is being prepared to apply for consent to allow the IWMF to generate over 50MW of electricity. The Proposed Development then falls under the definition of a Nationally Significant Infrastructure Project ('NSIP') within Sections 14(1)(a) and 15(1)(2)(a) and (c) of the Planning Act 2008 ('PA 2008'), being the extension of an onshore electricity generating station in England with an extended capacity of more than 50MW. The Application will be submitted to the Secretary of State for Energy Security and Net Zero under section 37 of the Act for the Proposed Development.

The Proposed Development is located on the site of the former Rivenhall Airfield near Silver End, Kelvedon, Essex (National Grid Reference TL 82336 20457) ('the Site').

The IWMF includes an energy from waste ('EfW') plant that uses heat from the incineration of residual waste to generate steam in a boiler. The steam is passed through a turbine generator to produce electricity before being cooled and condensed back to water, and fed back into the boiler. The IWMF currently would limit the amount of steam that accesses the turbine to limit its generating capacity to 49.9MW. The Proposed Development would involve the carrying out of an engineering operation to either mechanically modify the actuated steam turbine inlet control valve or by installing and

commissioning an actuated steam turbine inlet control valve. This would allow a greater volume of steam to reach the turbine, thus generating a greater output of electrical energy (above 50MW). To be clear, there would be no change in the overall amount of steam produced by the EfW plant as there is no change in the residual waste throughput. The Proposed Development would only affect the internal plant and would not alter the external appearance of the IWMF.

The Proposed Development is an Environmental Impact Assessment development (EIA development), as defined by the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017, and an Environmental Statement will be submitted as part of the Application. The Environmental Statement will provide a detailed description of the Proposed Development and its likely significant environmental effects. Information compiled so far about the Project's likely significant environmental effects is set out for consultation in a Preliminary Environmental Information Report ("the PEIR") and summarised in a non-technical summary.

Why we are writing to you

The Applicant is carrying out statutory consultation on the Proposed Development from **09:00am on 28th June to 23:59:59pm on 23rd August 2023**.

You are being consulted partly as you have been identified as a prescribed consultee under section 42(1)(a) or (b). In addition, under sections 42(1)(d) and 44 of the Act, the Applicant is required to consult with any person who is: (i) an owner, lessee, tenant (whatever the tenancy period) or occupier of the land; (ii) holds an interest in the land or has power to sell and convey or to release the land; or (iii) might be entitled to make a relevant claim (as defined in section 44(6) of the Act) if the Development Consent Order were made and implemented. The Applicant is writing to you as, after diligent inquiry, it considers that you fall within one of those categories.

The consultation documents

The following documents are available to download free of charge from 09:00am on 28th June until at least 23:59:59pm on 23rd August 2023 on the Applicant's website at <https://www.rivenhall-iwmf.co.uk/dco-process/>:

- Notice of the proposed application which has been publicised in accordance with section 48 of the Act;
- PEIR (including a location plan) and non-technical summary;
- Statement of Community Consultation;
- Information boards that will be used at the local information events listed below;
- Consultation newsletter; and
- Feedback form.

Enclosed with this letter are the following documents in hard copy:

- Notice of the proposed application which has been publicised in accordance with section 48 of the Act; and
- A feedback form.

The above documents are also available to view free of charge at the libraries and council offices and at the local information events that are listed in the abovementioned section 48 notice.

The above documents can be provided on a USB memory stick upon request free of charge. Hard copies of these documents can be obtained upon request, the cost for which will be considered on a case-by-case basis and appropriate charges may apply. Requests for documents should be made to the Applicant by telephone on 01279 311 440 or by email at info@rivenhall-iwmf.co.uk. Reasonable postage charges may apply.

Responding to the consultation

Responses must be received by the Applicant by no later than **11:59:59pm n Wednesday 23rd August 2023**. When providing comments please include your name and address, or if you would prefer your comments to be anonymous your postcode only, and confirm the nature of your interest in the Proposed Development. Responses must be submitted by:

- By emailing the Applicant at info@rivenhall-iwmf.co.uk
- By writing to the Applicant at Woodhouse Farm, Woodhouse Lane, Kelvedon, Essex, CO5 9DF
- By submitting your comments via the Applicant's online feedback form found here: <https://www.rivenhall-iwmf.co.uk/feedback/>
- By attending one of the public events listed in the section 48 notice referred to above and filling in the written feedback form provided.

The Applicant will have regard to all responses received through the means set out above by the deadline when developing the Application. A Consultation Report will be submitted as part of the Application that will provide the details of the pre-application consultation undertaken by the Applicant, any relevant responses received by the Applicant and the account taken by the Applicant of those relevant responses. The Applicant may be required to submit copies of the consultation responses to the Planning Inspectorate and if so the Applicant will comply with all applicable data protection legislation.

Further information

Further details in relation to the Proposed Development and the IWMF can be found on the Applicant's website at www.rivenhall-iwmf.co.uk.

For further information or queries about this letter, the consultation, the consultation documents or the Proposed Development, please contact the project team by:

SECTION 48 – PLANNING ACT 2008

INDAVER RIVENHALL LTD NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER

Regulation 4 Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

Notice is hereby given that Indaver Rivenhall Limited of Harlow Enterprise Hub, Kao Hockham Building, Edinburgh Way, Harlow, Essex, England, CM20 2NQ proposes to make an application ('the Application') to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 for a Development Consent Order. The Application is for proposed works to extend the megawatt capacity of the energy from waste generating station within the Rivenhall Integrated Waste Management Facility ('IWMF') at land within the former Rivenhall Airfield near Kelvedon, Essex, (National Grid Reference TL 82336 20457) ('the Site') and to operate the generating station at the increased capacity.

The Application seeks consent to increase the electrical generating output of the energy from waste plant at Rivenhall IWMF to more than 50 megawatts ('MW'), either through mechanical modifications to remove capacity restrictions in the steam turbine inlet control valve installed pursuant to the existing planning permission for the IWMF granted by Essex County Council on 26 February 2016 (ref. ESS/34/15/BTE) or by installing an unrestricted steam turbine inlet control valve with a capacity of over 50MW ('the Proposed Development').

The Proposed Development constitutes an Environmental Impact Assessment development ('EIA development'), as defined by the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will be submitted as part of the Application.

Consultation on the Proposed Development will take place from Wednesday 28th June to 23:59:59 on Wednesday 23rd August 2023. The consultation materials provide information on the Proposed Development and its potential environmental effects. The consultation materials include: information boards, a Preliminary Environmental Information Report ('PEIR') and associated non-technical summary, a feedback form and a Statement of Community Consultation ('SoCC'). The consultation materials include plan(s) showing the nature and location of the Proposed Development.

The Applicant is making the consultation material available free of charge as follows:

- All the information is available on the IWMF website (<https://www.rivenhall-iwmf.co.uk/> under the 'DCO' tab) from Wednesday 28th June until Wednesday 23rd August.
