Hi

I would like to lodge my objection to this project on the grounds of the following:-

Fire risk from batteries to local residents

House price impact of solar farm on local properties (fall in value)

Use of prime arable land for solar farm when food production is critical to sustaining food production internationally due to over population issues

The impact visually this solar farm will have on the area making the area less desirable as a place to live

Other areas eg Lincolnshire have banned the use of solar farms we need to preserve our countryside here too

This farm is very very close to my property

Anne Coe
