David Wilkinson Registration 20050592

26/01/2025

Dear [REDACTED]

In my latest submission dated 09 January 2025. I was very disappointed to see, that whilst it says the Battery Energy Storage System (BESS) is approximately 1425 meters /1.425km from the Village of Camblesforth. **The distance of approximately 525 meters from my property and the immediate other human inhabited properties, including the Black Dog Pub has been redacted.**

On my first submission dated 24 September 2024, which included an attachment showing the local maps of the immediate area. If it isn't obvious how close the BESS is (approximately 525 meters **not redacted**) from the immediate cluster of human inhabitations, I am sure looking at maps 2, and 3, will show just how close it is **i.e. just a field away (not redacted)**

I believe by **redacting the 525meters**. It doesn't show just how **absurd and threateningly close the BESS will be**, with guaranteed noise 24 hours 365 days of the year, for up to 40 years. Plus, the potential of extremely harmful chemical fires which can be extremely hard to extinguish.

**What I can't overemphasise is, the prevailing winds which are westerly.** This puts us and the village of Camblesforth directly in line with the BESS.

Kind regards

David Wilkinson

Please may I register to attend the open floor meeting in March 2025
