Section 48 Planning Act 2008 - Tillbridge Solar  
REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS  
AND PROCEDURE) REGULATIONS 2009  
REGULATION 13 THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT  
ASSESSMENT) REGULATIONS 2017  
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER  
(DCO) FOR Tillbridge Solar Limited

- 1) Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Mayfair, London, United Kingdom, W1K 7JF (the "Applicant") proposes to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

## Description of the Scheme and its location

- 2) Tillbridge Solar (the "Scheme") will consist of:
  - a. the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln.
  - b. A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network.
  - c. Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilovolt (KV) underground cable circuit interconnecting the two).
  - d. A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cottam substation in Bassetlaw, Nottinghamshire.
  - e. Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.
- 3) The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Bassetlaw District Council and Nottinghamshire County Council.
- 4) The proposed DCO will, amongst other things, authorise:
  - construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 50MW on the Principal Site;
  - associated and/or ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid Cottam substation, up to two new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
  - the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;
  - the overriding of easements and other rights over or affecting land as well as the creation of restrictions where necessary;
  - the application and/or disapplication of legislation relating to the Tillbridge Solar Farm; and
  - such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.

- 5) The proposed Scheme is an Environmental Impact Assessment (“EIA”) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. The Applicant is, therefore, required to carry out an EIA and submit an Environmental Statement with the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information (“PEI”) Report and summarised in a non-technical summary (“NTS”) that form part of the consultation documents.

#### Statutory consultation

- 6) Consultation on the Scheme will take place between 30 May 2023 and 11 July 2023.
- 7) Copies of the consultation documents, plans and maps showing the nature and location of the proposed Scheme – including the PEI Report and NTS, statutory consultation leaflet, project information booklet, feedback questionnaire, exhibition banners, maps and plans showing the overall location of the Scheme, the Statement of Community Consultation (“SoCC”) and Frequently Asked Questions (FAQ) document – will be available for inspection, free of charge, from 30 May 2023 until 11 July 2023 on the downloads section of our website ([tillbridgesolar.com/documents-library](http://tillbridgesolar.com/documents-library))
- 8) Printed copies of the consultation leaflet and feedback questionnaire can be collected free of charge from the below locations. Copies of the full PEI Report and NTS, SoCC and project information booklet are available for inspection only (and to not take away). We recommend contacting the venues to check the opening times prior to visiting. All documents are available on a USB device, which can be requested by getting in touch using the details in this notice. USBs are limited to one per household.

Requests for translated summary documents will be considered on a case-by-case basis.

**Have your say**

15) Any person may comment on the proposals or otherwise respond to this publicity. Any response or representation in respect of the proposed Application must (i) be received by Tillbridge Solar Ltd on or before 23:59 hours on 11 July 2023, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. If you would prefer your comments to be anonymous please provide your postcode only.

16) A response can also be made by: completing a feedback questionnaire which can be requested from the project team in electronic or hard copy format free of charge, collected from a consultation event or aforementioned local information point; completing an online feedback questionnaire through the Applicant's website at [tillbridgesolar.com](http://tillbridgesolar.com) or by submitting a response in writing and sending it to us by post at FREEPOST TILLBRIDGE SOLAR (please write this in capitals, you do not need a stamp) or by email at [info@tillbridgesolar.com](mailto:info@tillbridgesolar.com).

17) Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for

examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

- 18) However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Scheme and, except as noted above, will not be disclosed to any third parties. A copy of the Scheme's Privacy Policy can be found at: <https://tillbridgesolar.com/wp-content/uploads/2022/07/Tillbridge-Solar-Privacy-Policy.pdf>

Requests for translated summary documents will be considered on a case-by-case basis.

**How you say**

12) Any person may comment on the proposals or otherwise respond to this publicity. Any response or representation in respect of the proposed Application must (i) be received by Tillbridge Solar Ltd on or before 23:59 hours on 11 July 2023, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) include who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. If you would prefer your comments to be anonymous please provide your postcode only.

13) A response can also be made by completing a feedback questionnaire which can be requested from the project team in electronic or hard copy form free of charge, collected from a consultation event or at a designated local information point, completed an online feedback questionnaire through the Applicant's website at [www.tillbridgegpc.com](http://www.tillbridgegpc.com) or by submitting a response (if writing and sending it to us by post at FREEPOST TILLBRIDGE SOLAR (please write this in capitals, you do not need a stamp) or by email at [info@tillbridgegpc.com](mailto:info@tillbridgegpc.com)).

14) Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it will be communicated to others as part of that consultation report.

15) However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Scheme and, except as noted above, will not be disclosed to any third parties. A copy of the Scheme's Privacy Policy can be found at: <https://www.tillbridgegpc.com/consultation/2023/07/Tillbridge-Solar-Privacy-Policy.pdf>.

### Notice of Consultation

#### Tillbridge Solar

**Section 47 Planning Act 2008**  
**Notice Publicising a Statement of Community Consultation**

Tillbridge Solar Limited ("we") intends to provide a new solar energy and storage scheme (the "Scheme") within the administrative boundary of West Lindsey District Council and Lincolnshire County Council, with the grid connection infrastructure also located within the administrative boundary of Baselaw District Council and Nottinghamshire County Council.

The proposed generating capacity exceeds 50 megawatts (MW), the Scheme, known as Tillbridge Solar, is classified as a Nationally Significant Infrastructure Project (NSIP) under the Planning Act 2008 (the "Act").

The Scheme will consist of:

- the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln;
- A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network;
- Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilovolt (KV) underground cable interconnecting the two);
- A Cable Route Corridor, comprising underground 400 KV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cotnam substation in Basselaw, Nottinghamshire;
- Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.

**Statement of Community Consultation (SoCC)**

We will apply to the Secretary of State, via the Planning Inspectorate, for a Development Consent Order (DCO), which would authorise the construction of the scheme under Section 57 of the Planning Act 2008 (the Act).

In accordance with Section 47 of the Act, before making our application, we have produced a SoCC, setting out how we will consult with the local community about our proposals. The statement is available to the public at the local information points (listed below) between Tuesday 30 May and Tuesday 11 July 2023. Following our provision of the SoCC, we will carry out the consultation in accordance with the SoCC.

This notice contains information on when and where the SoCC can be inspected and provides a summary of the consultation details. Full details of the consultation can be found in the SoCC. The SoCC can be viewed online, alongside our consultation materials, at [www.tillbridgegpc.com/documents-library](http://www.tillbridgegpc.com/documents-library) or at the following local information points during our consultation period (from Tuesday 30 May until Tuesday 11 July 2023). Hard copy documents (including the SoCC) can also be requested by contacting the project team using the details in this notice.

In addition to the above in-person events, we are holding two webinar events on:

- Wednesday 7 June 2023 between 6:30pm and 8pm
- Monday 10 July 2023 between 6:30pm and 8pm

Members of the public can join the webinars via telephone or online. To register for a webinar please visit [www.tillbridgegpc.com](http://www.tillbridgegpc.com) or get in touch using the contact details below. These events will have a question-and-answer facility with members of the project team available to respond during the webinars.

**Preliminary Environmental Information**

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017, which means a Preliminary Environmental Information (PEI) Report has been produced to describe the environmental effects of the Scheme and is being consulted on, alongside the other consultation documents, as well as a Non-Technical Summary (NTS) of the PEI Report. It also means that an Environmental Statement (ES) will be produced and submitted with the application in due course.

**Feedback**

You can provide your feedback on the Scheme and the information included in the consultation materials to us either online or in writing, by:

- going to our website and completing an online feedback questionnaire - [www.tillbridgegpc.com](http://www.tillbridgegpc.com) (you can access the form directly by visiting [www.tillbridgegpc.com/documents-library](http://www.tillbridgegpc.com/documents-library));
- collecting a questionnaire from one of our consultation events, information points (listed above), or on request (by contacting us by email, phone or post);
- returning your completed questionnaire to us at one of our events, by email ([info@tillbridgegpc.com](mailto:info@tillbridgegpc.com)) or by post (by writing FREEPOST TILLBRIDGE SOLAR on a blank envelope - please note you do not need a stamp);
- providing your true form comments by email or post. Please note that we will not accept comments over the phone, however we can assist you wherever possible.

**The deadline for comments is 23:59 on 11 July 2023.**

If you require materials in an alternative format (e.g. large print or braille) please let us know.

# Public Notices

## Statutory

**Section 48 Planning Act 2008 - Tillbridge Solar**  
**REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009**  
**REGULATION 13 THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017**  
**NOTICE PUBLISHING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO) FOR Tillbridge Solar Limited**  
Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Mayfair, London, United Kingdom, W1K 7JF (the "Applicant") propose to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

### Description of the Scheme and its location

- 1) The proposed Scheme will consist of:
  - a. the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln;
  - b. A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network;
  - c. Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilowatt (kW) underground cable circuit interconnecting the two);
  - d. A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cotnam substation in Basestow, Nottinghamshire;
  - e. Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites;
  - f. The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Basestow District Council and Nottinghamshire County Council.
- 2) The proposed DCO will, amongst other things, authorise:
  - construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 50MW on the Principal Site;
  - associated ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid's Cotnam substation, up to the new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
  - the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;
  - the overwriting of easements and other rights over or affecting land as well as the creation of restrictions where necessary;
  - the application and/or discontinuance of legislation relating to the Tillbridge Solar Farm; and
  - such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.
- 3) The proposed Scheme is an Environmental Impact Assessment ("EIA") development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. The Applicant is, therefore, required to carry out an EIA and submit an Environmental Statement with the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information ("PEI") Report and summarised in a non-technical summary ("NTS") that form part of the consultation documents.

- Statutory consultation**
- 7) Consultation on the Scheme will take place between 30 May 2023 and 11 July 2023.
    - a) Copies of the consultation documents, plans and maps showing the nature and location of the proposed Scheme - including the PEI Report and NTS, statutory consultation leaflet, project information booklet, feedback questionnaire, exhibition banners, maps and plans showing the overall location of the Scheme, the Statement of Community Consultation ("SoCC") and Frequently Asked Questions ("FAQ") document - will be available for inspection, free of charge, from 30 May 2023 until 11 July 2023 on the documents section of our website [www.tillbridgesolar.com/documents-library](http://www.tillbridgesolar.com/documents-library).
    - b) Printed copies of the consultation leaflet and feedback questionnaire can be collected free of charge from the below locations. Copies of the full PEI Report and NTS, SoCC and project information booklet are available for inspection only (and not take away). We recommend contacting the venues to check the opening times prior to visiting. All documents are available on a USB device, which can be requested by getting in touch using the details in this notice. USBs are limited to one per household.

SECTION 48 PLANNING ACT 2008 - TILLBRIDGE SOLAR  
 REGULATION 4 THE INFRASTRUCTURE PLANNING  
 (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE)  
 REGULATIONS 2009  
 REGULATION 13 THE INFRASTRUCTURE PLANNING  
 (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017  
 NOTICE PUBLICISING A PROPOSED APPLICATION FOR A  
 DEVELOPMENT CONSENT ORDER (DCO) FOR TILLBRIDGE  
 SOLAR LIMITED

1) Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Mayfair, London, United Kingdom, W1K 7JF (the "Applicant") proposes to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

Description of the Scheme and its location

- 2) Tillbridge Solar (the "Scheme") will consist of:
- the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln.
  - A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network.
  - Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilovolt (KV) underground cable circuit interconnecting the two).
  - A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cottam substation in Bassetlaw, Nottinghamshire.
  - Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.
- 3) The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Bassetlaw District Council and Nottinghamshire County Council.
- 4) The proposed DCO will, amongst other things, authorise:

- construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 50MW on the Principal Site;
- associated and/or ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid Cottam substation, up to two new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
- the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;
- the overriding of easements and other rights over or affecting land as well as the creation of restrictions where necessary;
- the application and/or disapplication of legislation relating to the Tillbridge Solar Farm; and
- such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.

5) The proposed Scheme is an Environmental Impact Assessment ("EIA") development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. The Applicant is, therefore, required to carry out an EIA and submit an Environmental Statement with the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information ("PEI") Report and summarised in a non-technical summary ("NTS") that form part of the consultation documents.

Statutory consultation

6) Consultation on the Scheme will take place between 30 May 2023 and 11 July 2023.

7) Copies of the consultation documents, plans and maps showing the nature and location of the proposed Scheme – including the PEI Report and NTS, statutory consultation leaflet, project information booklet, feedback questionnaire, exhibition banners, maps and plans showing the overall location of the Scheme, the Statement of Community Consultation ("SoCC") and Frequently Asked Questions ("FAQ") document – will be available for inspection, free of charge, from 30 May 2023 until 11 July 2023 on the downloads section of our website ([tillbridgesolar.com/documents-library](http://tillbridgesolar.com/documents-library))

8) Printed copies of the consultation leaflet and feedback questionnaire can be collected free of charge from the below locations. Copies of the full PEI Report and NTS, SoCC and project information booklet are available for inspection only (and to not take away). We recommend contacting the venues to check the opening times prior to visiting. All documents are available on a USB device, which can be requested by getting in touch using the details in this notice. USBs are limited to one per household.

(4362615)</p> <p><b>NATIONAL HIGHWAYS</b>  <b>A12 CHELMSFORD TO A120 WIDENING SCHEME</b>  <b>SECTIONS 91, 92 AND 94 OF THE PLANNING ACT 2008</b>  <b>RULE 13 OF THE INFRASTRUCTURE PLANNING (EXAMINATION PROCEDURE) RULES 2010</b>  <b>NOTICE OF HEARINGS RELATING TO THE A12 CHELMSFORD TO A120 WIDENING SCHEME</b>  <b>PLANNING INSPECTORATE REFERENCE: TR010060</b>                      NOTICE IS HEREBY GIVEN that, at the dates, times and locations set out below, compulsory acquisition hearings and issue specific hearings will be held by the Examining Authority (appointed by the Secretary of State) for the examination of the application made by National Highways for a Development Consent Order ("the DCO") for the A12 Chelmsford to A120 widening scheme ("the Application"). The Application was made to the Secretary of State (via the Planning Inspectorate) under sections 14 (1)(f) and (h), 20, 22 (1)(b) of the Planning Act 2008 on 15 August 2022 and was accepted by the Planning Inspectorate for examination on 12 September 2022. The Application has been given the Planning Inspectorate reference number TR010060.  <b>SUMMARY OF THE SCHEME</b>                      The DCO would authorise a nationally significant infrastructure project ("NSIP") for the alteration of an existing highway. The Application proposes the widening of the existing A12 in Essex to three lanes throughout in each direction between junctions 19 (Boreham Interchange) and 25 (Marks Toy), where it is not already three lanes. This would mainly involve online widening of the existing carriageway, together with new offline highway created between junctions 22 and 23 (Rivenhall End Bypass) and between junctions 24 and 25 (Kalvedon to Marks Toy). It would be accompanied by junction improvements (junctions 19 and 25), construction of new junctions catering for traffic movements both north and southbound (new junctions 21, 22 and 24 at Hatfield Peverel, Witham East and Kalvedon respectively), and removal of existing junctions 20a, 20b and 23.                      The proposals include the diversion and alteration of a high pressure gas main, east of Witham, that is an NSIP in its own right.                      The DCO would permit the compulsory acquisition of land, interests in land and rights over land, and the powers to use land permanently and temporarily for the construction, operation and maintenance of the scheme.                      The DCO would make provision for several associated and ancillary matters, including the following:</p>

The image shows the front page of the Lincolnshire Echo newspaper. At the top left is a Doritos advertisement for 'TANGY CHEESE' (180g). The newspaper's website is www.lincolnshirelive.co.uk and it is 'Trusted news since 1893'. The masthead reads 'Lincolnshire Echo'. Below the masthead, it says 'InYourArea.co.uk', 'Thursday, June 1 - Wednesday, June 7, 2023', and '£2.30'. A large red banner advertises '£5 OFF WHEN YOU SPEND £30 IN STORE AT Iceland the food WAREHOUSE'. The banner includes images of various food items like 'MIXED VEGETABLES', '66 CHICKEN BREAST NUGGETS', 'JOHN WEST', 'RICHMOND 16 THICK TOM SAUSAGES', 'DONELISS CHICKEN WINGS', 'STARBUCKS CAFFE LATTE', and 'pepsi MAX'. A circular badge says 'GET YOUR VOUCHER PAGE 22'. The main headline is 'GIRL'S FREAK ACCIDENT AT THEME PARK' in large white letters on a black background. Below the headline is a red banner with white text: 'FAMILY TRIP ENDS IN HORROR FOR NINE-YEAR-OLD - PAGE 4'. At the bottom, there is a section for 'HELP for HEROES' with the text 'FOUGHT FOR PEACE, BUT STILL CAN'T FIND IT. The Veterans War. Forgotten by many, but not by us.' and the website helpforheroes.org.uk/theveteranswar.

### Statutory

**Section 48 Planning Act 2008 - Tillbridge Solar**

**REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURES) REGULATIONS 2008**  
**REGULATION 13 THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017**

**NOTICE PUBLISHING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO) FOR Tillbridge Solar Limited**

1) Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Mayfair, London, United Kingdom, W1K 7JF (the "Applicant") proposes to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

**Description of the Scheme and its location**

2) Tillbridge Solar (the "Scheme") will consist of:

- the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln.
- A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network.
- Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilovolt (kV) underground cable circuit interconnecting the two).
- A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cottam substation in Basetlaw, Nottinghamshire.
- Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.

3) The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Basetlaw District Council and Nottinghamshire County Council.

4) The proposed DCO will, amongst other things, authorise:

- construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 50MW on the Principal Site;
- associated and/or ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid Cottam substation, up to two new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
- the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;

Section 48 Planning Act 2008 - Tillbridge Solar  
 REGULATION 4 THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURES) REGULATIONS 2009  
 REGULATION 13 THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017  
 NOTICE PUBLISHING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO) FOR Tillbridge Solar Limited

1) Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Maysfield, London, United Kingdom, W1K 7JF (the "Applicant") proposes to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

**Description of the Scheme and its location**

2) Tillbridge Solar (the "Scheme") will consist of:

- the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln.
- A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network.
- Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kilowatt (kW) underground cable circuit interconnecting the two).
- A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cottam substation in Basestlaw, Nottinghamshire.
- Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highways works, temporary works compounds and work sites.

3) The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Basestlaw District Council and Nottinghamshire County Council.

4) The proposed DCO will, amongst other things, authorise:

- construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 50MW on the Principal Site;
- associated and/or ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid Cottam substation, up to two new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
- the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;
- the overruling of easements and other rights over or affecting land as well as the creation of restrictions where necessary;
- the application and/or discharge of legislation relating to the Tillbridge Solar Farm; and
- such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.

5) The proposed Scheme is an Environmental Impact Assessment ("EIA") development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. The Applicant is, therefore, required to carry out an EIA and submit an Environmental Statement with the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information ("PEI") Report and summarised in a non-technical summary ("NTS") that form part of the consultation documents.

**Statutory consultation**

6) Consultation on the Scheme will take place between 30 May 2023 and 11 July 2023.

7) Copies of the consultation documents, plans and maps showing the nature and location of the proposed Scheme - including the PEI Report and NTS, statutory consultation leaflet, project information booklet, feedback questionnaire, exhibition banners, maps and plans showing the overall location of the Scheme, the Statement of Community Consultation ("SOCC") and Frequently Asked Questions ("FAQ") document - will be available for inspection, free of charge, from 30 May 2023 until 11 July 2023 on the downloads section of our website [tillbridge.solar.com/consultation](http://tillbridge.solar.com/consultation).

8) Printed copies of the consultation leaflet and feedback questionnaire can be collected free of charge from the below locations. Copies of the full PEI Report and NTS, SOCC and project information booklet are available for inspection only (and not take away). We recommend contacting the venues to check the opening times prior to visiting. All documents are available on a USB device, which can be requested by getting in touch using the details in this notice. USBs are limited to one per household.

**REGULATION 13 THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017**  
**NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER (DCO) FOR Tillbridge Solar Limited**

1) Notice is hereby given that Tillbridge Solar Limited of 111 Park Street, Mayfair, London, United Kingdom, W1K 7JF (the "Applicant") propose to make an application (the "Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (as amended) (the "Act") for the DCO defined above. The Applicant anticipates making the Application towards the end of 2023.

**Description of the Scheme and its location**

2) Tillbridge Solar (the "Scheme") will consist of:

- the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity located on a "Principal Site" approximately five kilometres (km) to the east of Gainsborough and approximately 13 km to the north of Lincoln;
- A Battery Energy Storage System (BESS) located on the Principal Site, allowing for the generation, storage, import and export of electricity to the national electricity transmission network;
- Supporting electrical infrastructure on the Principal Site, including up to two substations (with a 400 kVolt (KV) underground cable circuit interconnecting the two);
- A Cable Route Corridor, comprising underground 400 kV cables connecting the Principal Site in West Lindsey, Lincolnshire, to National Grid's Cottam substation in Bassetlaw, Nottinghamshire;
- Associated infrastructure, mitigation and enhancement measures/green infrastructure, and other ancillary works, for example, fencing, security, local grid connections, temporary access roads, permanent means of access, highway works, temporary works compounds and work sites.

3) The majority of the Scheme is located within the administrative boundary of West Lindsey District Council and Lincolnshire County Council with the grid connection infrastructure also located within the administrative boundary of Bassetlaw District Council and Nottinghamshire County Council.

4) The proposed DCO will, amongst other things, authorise:

- construction, operation, maintenance and decommissioning of a ground mounted solar PV and BESS with an export capacity of over 100MW on the Principal Site;
- associated and/or ancillary works to facilitate the export/import of electricity from/to the Principal Site to/from the National Grid, including underground electrical cables connecting the Principal Site to the National Grid Cottam substation, up to two new substations located on the Principal Site, landscaping, biodiversity areas, access tracks, construction compounds and offices;
- the permanent compulsory acquisition and temporary possession (if required) of land and/or rights;
- the overriding of easements and other rights over or affecting land as well as the creation of restrictions where necessary;
- the application and/or discontinuation of legislation relating to the Tillbridge Solar Farm; and
- such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient.

5) The proposed Scheme is an Environmental Impact Assessment ("EIA") development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. The Applicant is, therefore, required to carry out an EIA and submit an Environmental Statement with the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information ("PEI") Report and summarised in a non-technical summary ("NTS") that form part of the consultation documents.

**Statutory consultation**

6) Consultation on the Scheme will take place between **30 May 2023 and 11 July 2023**.

7) Copies of the consultation documents, plans and maps showing the nature and location of the proposed Scheme – including the PEI Report and NTS, statutory consultation leaflet, project information booklet, feedback questionnaire, exhibition banners, maps and plans showing the overall location of the Scheme, the Statement of Community Consultation ("SoCC") and Frequently Asked Questions (FAQ) document – will be available for inspection, free of charge, from **30 May 2023 until 11 July 2023** on the downloads section of our website ([tillbridgesolar.com/documents-library](http://tillbridgesolar.com/documents-library))

8) Printed copies of the consultation leaflet and feedback questionnaire can be collected free of charge from the below locations. Copies of the full PEI Report and NTS, SoCC and project information booklet are available for inspection only (and to not take away). We recommend contacting the venues to check the opening times prior to visiting. All documents are available on a USB device, which can be requested by getting in touch using the details in this notice. USBs are limited to one per household.

**Have your say**

15) **Any person may comment on the proposals or otherwise respond to this publicity.** Any response or representation in respect of the proposed Application must (i) be received by Tillbridge Solar Ltd on or before **23:59 hours on 11 July 2023**, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. If you would prefer your comments to be anonymous please provide your postcode only.

16) A response can also be made by: completing a feedback questionnaire which can be requested from the project team in electronic or hard copy format free of charge, collected from a consultation event or aforementioned local information point; completing an online feedback questionnaire through the Applicant's website at [tillbridgesolar.com](http://tillbridgesolar.com) or by submitting a response in writing and sending it to us by post at **FREEPOST TILLBRIDGE SOLAR** (please write this in capitals, you do not need a stamp) or by email at [info@tillbridgesolar.com](mailto:info@tillbridgesolar.com).

17) Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

18) However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of this Scheme and, except as noted above, will not be disclosed to any third parties. A copy of the Scheme's Privacy Policy can be found at: <https://tillbridgesolar.com/wp-content/uploads/2022/07/Tillbridge-Solar-Privacy-Policy.pdf>
