Appendix E-2: Prescribed consultees notified during statutory consultation (May to July 2023)

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body
s.42 (1) (a) organisations set out in schedule 1 of the APFP Regulations 2009 (as amended) - Prescribed consultees			
The Health and Safety Executive	All cases.	Yes.	Health and Safety Executive
The National Health Service Commissioning Board	All proposed applications likely to affect land in England and Wales	Yes.	NHS England
The relevant Integrated Care Board		Yes.	NHS Nottingham and Nottinghamshire Integrated Care Board
			NHS Lincolnshire Integrated Care Board
Natural England	All proposed applications likely to affect land in England	Yes.	Natural England
The Historic Buildings and Monuments Commission for England	All proposed applications likely to affect land in England.	Yes.	Historic England - Midlands Regional Office
			Case officer (Historic England)
			Historic England - London National Office
The relevant fire and rescue authority	All cases.	Yes.	Lincolnshire Fire and Rescue Service
			Nottinghamshire Fire and Rescue Service

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body
s.42 (1) (a) organisations set out in schedule 1 of the APFP Regulations 2009 (as amended) - Prescribed consultees			
The relevant police and crime commissioner	All cases.	Yes.	Lincolnshire Police and Crime Commissioner Nottinghamshire Police and Crime Commissioner
The Environment Agency	All proposed applications likely to affect land in England.	Yes.	The Environment Agency
The Civil Aviation Authority	All proposed applications relating to airports or which are likely to affect an airport or its current or future operation	Yes.	Civil Aviation Authority
Integrated Transport Authorities (ITAs) and Passenger Transport Executives (PTEs)	All proposed applications likely to affect transport within, to or from the relevant integrated transport area of the ITA or PTE	No - No PTE in area	

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body
s.42 (1) (a) organisations set out in schedule 1 of the APFP Regulations 2009 (as amended) - Prescribed consultees			
The relevant Highways Authority	All proposed applications likely to have an impact on the road network or the volume of traffic in the vicinity of the proposal	Yes as the development may have an impact on the road network or volume of traffic.	Lincolnshire County Council Nottinghamshire County Council
The relevant strategic highways company	All proposed applications likely to affect road or transport operation and/or planning on roads for which the strategic highways company is the highway authority.	Yes as the development may have an impact on transport operation.	National Highways – Midlands
The relevant internal drainage board	All proposed applications likely to increase the risk of	Yes	Upper Witham Internal Drainage Board Witham Third Internal Drainage Board

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body
s.42 (1) (a) organisations set out in schedule 1 of the APFP Regulations 2009 (as amended) - Prescribed consultees			
	flooding in that area or where the proposals relate to an area known to be an area of flood risk		Ancholme Internal Drainage Board Scunthorpe and Gainsborough Water Management Board Isle of Axholme and North Nottinghamshire Water Level Management Board Trent Valley Internal Drainage Board
The British Waterways Board - Canal and River Trust	All proposed applications likely to have an impact on inland waterways or land adjacent to inland waterways	Yes	Canal and River Trust
Trinity House	All proposed applications likely to affect navigation in tidal waters	No as the development would not affect navigation in Tidal waters.	Trinity House
United Kingdom Health Security Agency, an executive agency of the Department of Health and Social Care (replaced Public Health England in 2021)	All proposed applications likely to involve chemicals,	Yes	United Kingdom Health Security Agency

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body
s.42 (1) (a) organisations set out in schedule 1 of the APFP Regulations 2009 (as amended) - Prescribed consultees			
	poisons or radiation which could potentially cause harm to people [and likely to affect significantly public health].		
The Forestry Commission		Yes	Forestry Commission Forestry Commission East & East Midlands
The Crown Estate Commissioners	All proposed applications likely to impact on the Crown Estate	Yes	The Crown Estate Commissioners
The Secretary of State for Defence	All proposed applications likely to affect current or future operation of a site identified in a safeguarding map and all	Yes	The Secretary of State for Defence

Schedule 1 Description	Circumstances when that person must be consulted about a proposed application	Consulted as part of statutory consultation?	Name of body

Appendix E-3: Letter sent to consultees under S42

E-3.1: Letters sent to S42(1)(a) consultees

[Insert address block]

Friday 26 May 2023

[insert title],

Tillbridge Solar Project Development Consent Order (the "Order")
Statutory pre-application consultation: 30 May 2023 to 11 July 2023
Section 42 (Duty to consult on a proposed application) of the Planning Act 2008 (the "Act") (as amended)
The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("APFP Regulations") (as amended)
The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations")
Planning Inspectorate reference: EN010124

We are writing to you regarding the proposed Tillbridge Solar Farm Project (the "Scheme"), which is a proposed solar farm that will deliver electricity to the national electricity transmission system. This letter is being sent to you as part of a statutory consultation exercise carried out pursuant to Section 42 of the Act. Tillbridge Solar Ltd is consulting you in your capacity as a prescribed consultee under section 42(1)(a) of the Act and Schedule 1 to the APFP Regulations.

The Scheme

The Scheme is a new solar farm and energy storage proposal being brought forward by Tillbridge Solar Ltd (company number 12887594) (the "Applicant"), a joint venture partnership between Tribus Clean Energy and Canadian Solar. The Scheme comprises two distinct sections, which are "the Principal Site" and "the Cable Route Corridor" (these are explained in more detail below).

The Scheme is proposed to be located approximately five kilometres to the east of Gainsborough and approximately 13 kilometres to the north of Lincoln. The new solar farm and energy storage is to be located the south of Harpswell Lane (A631), to the west of Middle Street (B1398) and largely to the north of Kexby Road and to the east of Springthorpe. This would cover an area of approximately 1,400ha and is located entirely within the administrative area of West Lindsey District Council. The solar farm would connect to the national grid via underground cables (the Cable Route Corridor) connecting to National's Grid Cottam substation located approximately 16 kilometres to the south-west of the Principal Site.

The Scheme comprises a generating station of above 50 megawatts and therefore qualifies as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) and 15(2) the Act. The development consent order (DCO) application for the Scheme (the Application) will be made by the Applicant to the Secretary of State for Energy Security and Net Zero (the Secretary of State) via the Planning Inspectorate (PINS), who will appoint an Examining Authority to examine the application on behalf of the Secretary of State. After examination, the Examining Authority will make its recommendation on the Application to the Secretary of State, who will make the final decision on

whether or not to make the Order. The Applicant intends to submit the Application towards the end of 2023.

The Scheme comprises the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity, a Battery Energy Storage System (BESS) and infrastructure to export and import electricity to the national electricity transmission network.

The BESS is associated development to ensure that energy can be stored when it is generated and not demanded. The BESS would have a direct relationship with the solar PV panels and it would support the operation of this by storing electricity produced during times of peak capacity until it needs to be released. Details of design of the BESS elements, including their power and energy ratings, and their dimensions and appearance, are currently in development.

Supporting electrical infrastructure on the Principal Site would include up to two substations, operating at a 400 kilovolt (kV)/33kV voltage. Substations would consist of infrastructure such as transformers and switchgear and equipment to help facilitate the export/import of electricity from/to the Principal Site to/from the national grid. A 400 kV underground cable circuit would be required within the Principal Site to interconnect the two substations. A security fence would enclose the PV panel areas of the Principal Site and pole mounted CCTV systems are also likely to be deployed around the perimeter of the operational areas of the Scheme.

The Principal Site would have four points of access, three located along the A631 Harpswell Lane and one located on the B1398 Middle Street. A series of internal access tracks are also proposed within the Principal Site to facilitate construction and the operation of the Scheme, including the use of existing farm tracks and upgrading of surfaces as required.

An indicative site layout plan has been produced to provide an initial indication of the location of areas for solar PV panels and green infrastructure, including proposed areas for woodland planting, ecological enhancement and the provision of new and enhanced hedgerows. There are also areas within the Principal Site where existing woodland and hedgerows would be retained. This plan can be found as part of the Preliminary Environmental Information (PEI) Report, which can be accessed through the Scheme's website (tillbridgesolar.com/documents-library).

The Cable Route Corridor would comprise the underground electrical infrastructure (400 kV cables) to export and import electricity to and from the national electricity transmission network at National Grid's Cottam substation in Nottinghamshire. The length of the cables to connect the Principal Site to the National Grid Cottam substation is approximately 16 km, and crosses the administrative areas of West Lindsey District Council and Bassetlaw District Council, falling within Lincolnshire and Nottinghamshire respectively. The Cable Route Corridor is currently being developed in terms of construction methods and requirements. This includes details of whether the cable would be placed in an open trench (which would be refilled and reinstated following completion of cable placement) or laid using horizontal directional drilling (HDD) to cross existing infrastructure such as roads, rivers and railways, the location of jointing bays, temporary storage compounds and access points.

Why we are writing to you

The Act and Regulation 3 of the APFP Regulations sets out specific requirements with respect to a duty to consult on applications for DCOs at the pre-application stage. **You have been identified as a prescribed consultee under Section 42(1)(a) of the 2008 Act and Regulation 3 of the APFP Regulations or you are a consultee identified under Regulation 11(1)(c) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations") or a person where it has been decided it would be appropriate to consult in any event.**

This letter is to give you notice of the Applicant's statutory consultation on the Scheme, which is running from **30 May 2023** until **23:59 on 11 July 2023** (hereafter referred to as "the consultation period.") and we invite responses on or before the closing date. Details of how this consultation is being carried out can be found in the Statement of Community Consultation (the "SoCC"), which is available at tillbridgesolar.com/documents-library and in hard copy (for reference only) at the local information points and consultation events listed below.

This statutory consultation is an opportunity for you to share your views on our proposals for the Scheme as a whole. By responding you will enable us to take your views into account as we develop and refine our proposals before submitting the Application to PINS.

We have prepared a PEI Report and a PEI Report Non-Technical Summary (NTS) as the Scheme is an Environmental Impact Assessment (EIA) development as defined by the EIA Regulations. These documents will help you to understand the likely significant environmental effects of the Scheme. An Environmental Statement will also be submitted with the Application.

Consultation materials

Consultation materials available on the website (tillbridgesolar.com/documents-library) as part of the consultation comprise:

- Statutory consultation leaflet, which is being posted to all addresses within a defined Primary Consultation Zone (as described in the SoCC). This document provides introductory information about the Scheme, the consultation, and where more detailed information can be found.
- Project information booklet, which provides a more detailed overview of the Scheme, including a summary of some of the potential effects, as explained in the PEI Report.
- Statutory consultation feedback questionnaire, which may be used to provide a response on the Scheme.
- Exhibition banners, which are being displayed in person at the consultation events (as listed below).
- Maps and plans showing the overall location of the Scheme.
- Frequently Asked Questions (FAQ) document.
- Copy of a notice of the Application, which has been publicised in accordance with section 48 of the Act and the requirements set out in Regulation 4 of the APFP Regulations.
- PEI Report and NTS.
- SoCC, which has been publicised in accordance with section 47 of the Act.

As required by Regulation 13 of the EIA Regulations, we also enclose a copy of the formal notice of the Application in accordance with Section 48 of the Act and Regulation 4 of the APFP Regulations. We have also enclosed a copy of the statutory consultation leaflet.

These documents are also available from the start of the consultation period via our website (tillbridgesolar.com/documents-library) or on a USB device. If you would like a USB, please get in touch using the details below and this can be provided free of charge, limited to one device per household. If you have any problems accessing the consultation documents on the Scheme's website from 30 May 2023, please let the Applicant know at your earliest convenience, using the contact details contained within this letter. The consultation materials are provided to help you understand the proposals and inform any comments you have on the Scheme.

If you would like a hard copy of the PEI Report, a reasonable charge to cover printing and postage costs of £0.35 per page will apply. However, a printed version of the NTS can be provided free of charge and sent you in the post. If you require this information in an alternative format, such as Braille, large print or alternative languages, please do not hesitate to contact us using the details in this letter.

Copies of feedback questionnaires and consultation leaflets can also be collected free of charge from a series of local information points located in the vicinity of the scheme. The consultation materials listed above are also available in printed format for inspection at these locations. The locations and opening times are as follows:

List of local information points

Location	Opening times ¹
West Lindsey District Council, Guildhall Marshall's Yard, Marshalls Yard, 13b Beaumont St, Gainsborough DN21 2NA	Monday to Friday (9am to 5pm)
Lincoln Central Library, Free School Lane, Lincolnshire LN2 1EZ*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 4pm)
Gainsborough Library, Cobden St, Gainsborough DN21 2NG*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 1pm)
Saxilby Library, St Andrews Centre, William St, Saxilby LN1 2LP*	Tuesday (10:30am to 3:30pm), Wednesday (10:30am to 4pm) and Friday (10:30am to 1pm)
Retford Library, Churchgate, Retford, Nottinghamshire DN22 6PE*	Monday to Friday (9am to 6pm) and Saturday (9am to 3:30pm)

*Computer access is also available in these locations.

¹ Opening times are correct at the time of sending out this letter. We recommend that you check with the venue ahead of visiting to check that they are open.

Consultation events and webinars

During the consultation period a series of public information events will be held where you can view the proposals and speak with the Project team, as listed in the enclosed section 48 notice. Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the statutory consultation booklet and feedback questionnaire.

We will also be holding two webinar sessions, where members of the Project team will provide a short presentation, followed by a live question and answer session. You can sign up for a webinar by visiting our website (tillbridgesolar.com) or by emailing (info@tillbridgesolar.com) or calling (0800 046 9643). We kindly ask that you register for the session by 5pm on the day to ensure the relevant joining instructions can be provided on time. You can also request a call back from a member of the Project team (subject to availability) by using these contact details.

In the event of changing Government guidelines due to COVID-19, or other unforeseen circumstances meaning the consultation events must be cancelled, or the display of materials prevented, the Applicant will inform people as early as possible of the cancellation or expected change via the Scheme website and electronic communication with key stakeholders.

The events and webinars being held are as follows:

List of consultation events and webinars

Venue	Date	Times
Online webinar (please visit our website or get in touch to register)	Wednesday 7 June	6:30pm to 8pm
Glentworth Village Hall, Stoney Lane, Glentworth, Lincolnshire, DN21 5DF	Wednesday 14 June	2:30pm to 7pm
Willingham Village Hall, High St, Willingham by Stow, Gainsborough, DN21 5JZ	Saturday 17 June	10am to 2pm
Sturton by Stow Village Hall, High St, Sturton by Stow, Lincoln, LN1 2AE	Thursday 22 June	1:30pm to 5:30pm
Corringham Village Hall, 10 Middle St, Corringham, Gainsborough, DN21 5QR	Friday 30 June	12pm to 4pm
Rampton Village Hall, Manor Grounds, Rampton, Retford, Nottinghamshire DN22 0JU	Saturday 1 July	10am to 2pm
Hemswell and Harpswell Village Hall, Maypole Street, Hemswell, Lincolnshire, DN21 5UL	Thursday 6 July	2:30pm to 6:30pm
Online webinar (please visit our website or get in touch to register)	Monday 10 July 2023	6:30pm to 8pm

Responding to the consultation

Any response or representation in respect of the Application must (i) be received by the Applicant on or before **23:59 on 11 July 2023**, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. Should you wish your comments to remain anonymous, please provide your postcode only.

You can provide your response to this consultation by:

- Completing a hard copy feedback questionnaire, which can be requested from the Project team in electronic or hard copy format free of charge, collected from a consultation event or local information point, or printed at home.
- Completing an online version of the feedback questionnaire, which can be accessed via the Scheme website: tillbridgesolar.com/consultation
- Submitting your own form of response (provided it is in writing).

Any responses to this consultation or other representations in respect of the Scheme should be sent to the following:

- By post: **FREEPOST TILLBRIDGE SOLAR** (please write this in capitals, you do not need a stamp)
- Online: tillbridgesolar.com
- By email: info@tillbridgesolar.com

Enquiries in relation to the consultation documents and/or general queries during the consultation period should also be directed to the Applicant using these details.

Consultation commences on **30 May 2023**. All responses must be received by **23:59 on 11 July 2023**.

Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of the Scheme and, except as noted above, will not be disclosed to any third parties².

² A copy of the Scheme's Privacy Policy can be found at: tillbridgesolar.com

The Development Consent Order process

Information about the Act and DCOs can be found on PINS' National Infrastructure Planning website: <https://infrastructure.planninginspectorate.gov.uk/>

If you have any questions about this letter, the Scheme or consultation, please do not hesitate to contact me on info@tillbridgesolar.com or 0800 046 9643.

Yours sincerely,

Luke Murray
Project Director, Tillbridge Solar Ltd

E-3.2: Letters sent to S42(1)(aa) consultees – MMO

[Insert address block]

Friday 26 May 2023

Dear [insert title],

Tillbridge Solar Project Development Consent Order (the "Order")
Statutory pre-application consultation: 30 May 2023 to 11 July 2023
Section 42 (Duty to consult on a proposed application) of the Planning Act 2008 (the "Act") (as amended)
The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("APFP Regulations") (as amended)
The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations")
Planning Inspectorate reference: EN010124

We are writing to you regarding the proposed Tillbridge Solar Farm Project (the "Scheme"), which is a proposed solar farm that will deliver electricity to the national electricity transmission system. This letter is being sent to you as part of a statutory consultation exercise carried out pursuant to Section 42 of the Act. Tillbridge Solar Ltd is consulting you in your capacity as a prescribed consultee under section 42(1)(aa) of the Act and Schedule 1 to the APFP Regulations.

The Scheme

The Scheme is a new solar farm and energy storage proposal being brought forward by Tillbridge Solar Ltd (company number 12887594) (the "Applicant"), a joint venture partnership between Tribus Clean Energy and Canadian Solar. The Scheme comprises two distinct sections, which are "the Principal Site" and "the Cable Route Corridor" (these are explained in more detail below).

The Scheme is proposed to be located approximately five kilometres to the east of Gainsborough and approximately 13 kilometres to the north of Lincoln. The new solar farm and energy storage is to be located the south of Harpswell Lane (A631), to the west of Middle Street (B1398) and largely to the north of Kexby Road and to the east of Springthorpe. This would cover an area of approximately 1,400ha and is located entirely within the administrative area of West Lindsey District Council. The solar farm would connect to the national grid via underground cables (the Cable Route Corridor) connecting to National's Grid Cottam substation located approximately 16 kilometres to the south-west of the Principal Site.

The Scheme comprises a generating station of above 50 megawatts and therefore qualifies as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) and 15(2) the Act. The development consent order (DCO) application for the Scheme (the Application) will be made by the Applicant to the Secretary of State for Energy Security and Net Zero (the Secretary of State) via the Planning Inspectorate (PINS), who will appoint an Examining Authority to examine the application on behalf of the Secretary of State. After examination, the Examining Authority will make its recommendation on the Application to the Secretary of State, who will make the final decision on

whether or not to make the Order. The Applicant intends to submit the Application towards the end of 2023.

The Scheme comprises the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity, a Battery Energy Storage System (BESS) and infrastructure to export and import electricity to the national electricity transmission network.

The BESS is associated development to ensure that energy can be stored when it is generated and not demanded. The BESS would have a direct relationship with the solar PV panels and it would support the operation of this by storing electricity produced during times of peak capacity until it needs to be released. Details of design of the BESS elements, including their power and energy ratings, and their dimensions and appearance, are currently in development.

Supporting electrical infrastructure on the Principal Site would include up to two substations, operating at a 400 kilovolt (kV)/33kV voltage. Substations would consist of infrastructure such as transformers and switchgear and equipment to help facilitate the export/import of electricity from/to the Principal Site to/from the national grid. A 400 kV underground cable circuit would be required within the Principal Site to interconnect the two substations. A security fence would enclose the PV panel areas of the Principal Site and pole mounted CCTV systems are also likely to be deployed around the perimeter of the operational areas of the Scheme.

The Principal Site would have four points of access, three located along the A631 Harpswell Lane and one located on the B1398 Middle Street. A series of internal access tracks are also proposed within the Principal Site to facilitate construction and the operation of the Scheme, including the use of existing farm tracks and upgrading of surfaces as required.

An indicative site layout plan has been produced to provide an initial indication of the location of areas for solar PV panels and green infrastructure, including proposed areas for woodland planting, ecological enhancement and the provision of new and enhanced hedgerows. There are also areas within the Principal Site where existing woodland and hedgerows would be retained. This plan can be found as part of the Preliminary Environmental Information (PEI) Report, which can be accessed through the Scheme's website (tillbridgesolar.com/documents-library).

The Cable Route Corridor would comprise the underground electrical infrastructure (400 kV cables) to export and import electricity to and from the national electricity transmission network at National Grid's Cottam substation in Nottinghamshire. The length of the cables to connect the Principal Site to the National Grid Cottam substation is approximately 16 km, and crosses the administrative areas of West Lindsey District Council and Bassetlaw District Council, falling within Lincolnshire and Nottinghamshire respectfully. The Cable Route Corridor is currently being developed in terms of construction methods and requirements. This includes details of whether the cable would be placed in an open trench (which would be refilled and reinstated following completion of cable placement) or laid using horizontal directional drilling (HDD) to cross existing infrastructure such as roads, rivers and railways, the location of jointing bays, temporary storage compounds and access points.

Why we are writing to you

The Act and Regulation 3 of the APFP Regulations sets out specific requirements with respect to a duty to consult on applications for DCOs at the pre-application stage. **You have been identified as a prescribed consultee under Section 42(1)(aa) of the 2008 Act and Regulation 3 of the APFP Regulations or you are a consultee identified under Regulation 11(1)(c) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations") or a person where it has been decided it would be appropriate to consult in any event.**

This letter is to give you notice of the Applicant's statutory consultation on the Scheme, which is running from **30 May 2023** until **23:59 on 11 July 2023** (hereafter referred to as "the consultation period.") and we invite responses on or before the closing date. Details of how this consultation is being carried out can be found in the Statement of Community Consultation (the "SoCC"), which is available at tillbridgesolar.com/documents-library and in hard copy (for reference only) at the local information points and consultation events listed below.

This statutory consultation is an opportunity for you to share your views on our proposals for the Scheme as a whole. By responding you will enable us to take your views into account as we develop and refine our proposals before submitting the Application to PINS.

We have prepared a PEI Report and a PEI Report Non-Technical Summary (NTS) as the Scheme is an Environmental Impact Assessment (EIA) development as defined by the EIA Regulations. These documents will help you to understand the likely significant environmental effects of the Scheme. An Environmental Statement will also be submitted with the Application.

Consultation materials

Consultation materials available on the website (tillbridgesolar.com/documents-library) as part of the consultation comprise:

- Statutory consultation leaflet, which is being posted to all addresses within a defined Primary Consultation Zone (as described in the SoCC). This document provides introductory information about the Scheme, the consultation, and where more detailed information can be found.
- Project information booklet, which provides a more detailed overview of the Scheme, including a summary of some of the potential effects, as explained in the PEI Report.
- Statutory consultation feedback questionnaire, which may be used to provide a response on the Scheme.
- Exhibition banners, which are being displayed in person at the consultation events (as listed below).
- Maps and plans showing the overall location of the Scheme.
- Frequently Asked Questions (FAQ) document.
- Copy of a notice of the Application, which has been publicised in accordance with section 48 of the Act and the requirements set out in Regulation 4 of the APFP Regulations.
- PEI Report and NTS.
- SoCC, which has been publicised in accordance with section 47 of the Act.

As required by Regulation 13 of the EIA Regulations, we also enclose a copy of the formal notice of the Application in accordance with Section 48 of the Act and Regulation 4 of the APFP Regulations. We have also enclosed a copy of the statutory consultation leaflet.

These documents are also available from the start of the consultation period via our website (tillbridgesolar.com/documents-library) or on a USB device. If you would like a USB, please get in touch using the details below and this can be provided free of charge, limited to one device per household. If you have any problems accessing the consultation documents on the Scheme's website from 30 May 2023, please let the Applicant know at your earliest convenience, using the contact details contained within this letter. The consultation materials are provided to help you understand the proposals and inform any comments you have on the Scheme.

If you would like a hard copy of the PEI Report or other consultation documents, a reasonable charge to cover printing and postage costs of £0.35 per page will apply. However, a printed version of the NTS can be provided free of charge and sent you in the post. If you require this information in an alternative format, such as Braille, large print or alternative languages, please do not hesitate to contact us using the details in this letter.

Copies of feedback questionnaires and consultation leaflets can also be collected free of charge from a series of local information points located in the vicinity of the scheme. The consultation materials listed above are also available in printed format for inspection at these locations. The locations and opening times are as follows:

List of local information points

Location	Opening times ¹
West Lindsey District Council, Guildhall Marshall's Yard, Marshalls Yard, 13b Beaumont St, Gainsborough DN21 2NA	Monday to Friday (9am to 5pm)
Lincoln Central Library, Free School Lane, Lincolnshire LN2 1EZ*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 4pm)
Gainsborough Library, Cobden St, Gainsborough DN21 2NG*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 1pm)
Saxilby Library, St Andrews Centre, William St, Saxilby LN1 2LP*	Tuesday (10:30am to 3:30pm), Wednesday (10:30am to 4pm) and Friday (10:30am to 1pm)
Retford Library, Churchgate, Retford, Nottinghamshire DN22 6PE*	Monday to Friday (9am to 6pm) and Saturday (9am to 3:30pm)

*Computer access is also available in these locations.

¹ Opening times are correct at the time of sending out this letter. We recommend that you check with the venue ahead of visiting to check that they are open.

Consultation events and webinars

During the consultation period a series of public information events will be held where you can view the proposals and speak with the Project team, as listed in the enclosed section 48 notice. Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the statutory consultation booklet and feedback questionnaire.

We will also be holding two webinar sessions, where members of the Project team will provide a short presentation, followed by a live question and answer session. You can sign up for a webinar by visiting our website (tillbridgesolar.com) or by emailing (info@tillbridgesolar.com) or calling (0800 046 9643). We kindly ask that you register for the session by 5pm on the day to ensure the relevant joining instructions can be provided on time. You can also request a call back from a member of the Project team (subject to availability) by using these contact details.

In the event of changing Government guidelines due to COVID-19, or other unforeseen circumstances meaning the consultation events must be cancelled, or the display of materials prevented, the Applicant will inform people as early as possible of the cancellation or expected change via the Scheme website and electronic communication with key stakeholders.

The events and webinars being held are as follows:

List of consultation events and webinars

Venue	Date	Times
Online webinar (please visit our website or get in touch to register)	Wednesday 7 June	6:30pm to 8pm
Glentworth Village Hall, Stoney Lane, Glentworth, Lincolnshire, DN21 5DF	Wednesday 14 June	2:30pm to 7pm
Willingham Village Hall, High St, Willingham by Stow, Gainsborough, DN21 5JZ	Saturday 17 June	10am to 2pm
Sturton by Stow Village Hall, High St, Sturton by Stow, Lincoln, LN1 2AE	Thursday 22 June	1:30pm to 5:30pm
Corringham Village Hall, 10 Middle St, Corringham, Gainsborough, DN21 5QR	Friday 30 June	12pm to 4pm
Rampton Village Hall, Manor Grounds, Rampton, Retford, Nottinghamshire DN22 0JU	Saturday 1 July	10am to 2pm
Hemswell and Harpswell Village Hall, Maypole Street, Hemswell, Lincolnshire, DN21 5UL	Thursday 6 July	2:30pm to 6:30pm
Online webinar (please visit our website or get in touch to register)	Monday 10 July 2023	6:30pm to 8pm

Responding to the consultation

Any response or representation in respect of the Application must (i) be received by the Applicant on or before **23:59 on 11 July 2023**, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. Should you wish your comments to remain anonymous, please provide your postcode only.

You can provide your response to this consultation by:

- Completing a hard copy feedback questionnaire, which can be requested from the Project team in electronic or hard copy format free of charge, collected from a consultation event or local information point, or printed at home.
- Completing an online version of the feedback questionnaire, which can be accessed via the Scheme website: tillbridgesolar.com/consultation
- Submitting your own form of response (provided it is in writing).

Any responses to this consultation or other representations in respect of the Scheme should be sent to the following:

- By post: **FREEPOST TILLBRIDGE SOLAR** (please write this in capitals, you do not need a stamp)
- Online: tillbridgesolar.com
- By email: info@tillbridgesolar.com

Enquiries in relation to the consultation documents and/or general queries during the consultation period should also be directed to the Applicant using these details.

Consultation commences on **30 May 2023**. All responses must be received by **23:59 on 11 July 2023**.

Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of the Scheme and, except as noted above, will not be disclosed to any third parties².

² A copy of the Scheme's Privacy Policy can be found at: tillbridgesolar.com

The Development Consent Order process

Information about the Act and DCOs can be found on PINS' National Infrastructure Planning website: <https://infrastructure.planninginspectorate.gov.uk/>

If you have any questions about this letter, the Scheme or consultation, please do not hesitate to contact me on info@tillbridgesolar.com or 0800 046 9643.

Yours sincerely,

Luke Murray

E-3.3: Letters sent to S42(1)(b) consultees

[Insert address block]

Friday 26 May 2023

Dear [insert title],

Tillbridge Solar Project Development Consent Order (the "Order")
Statutory pre-application consultation: 30 May 2023 to 11 July 2023
Section 42 (Duty to consult on a proposed application) of the Planning Act 2008 (the "Act") (as amended)
The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("APFP Regulations") (as amended)
The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations")
Planning Inspectorate reference: EN010124

We are writing to you regarding the proposed Tillbridge Solar Farm Project (the "Scheme"), which is a proposed solar farm that will deliver electricity to the national electricity transmission system. This letter is being sent to you as part of a statutory consultation exercise carried out pursuant to Section 42 of the Act. Tillbridge Solar Ltd is consulting you in your capacity as a prescribed consultee under section 42(1)(b) of the Act and Schedule 1 to the APFP Regulations.

The Scheme

The Scheme is a new solar farm and energy storage proposal being brought forward by Tillbridge Solar Ltd (company number 12887594) (the "Applicant"), a joint venture partnership between Tribus Clean Energy and Canadian Solar. The Scheme comprises two distinct sections, which are "the Principal Site" and "the Cable Route Corridor" (these are explained in more detail below).

The Scheme is proposed to be located approximately five kilometres to the east of Gainsborough and approximately 13 kilometres to the north of Lincoln. The new solar farm and energy storage is to be located the south of Harpswell Lane (A631), to the west of Middle Street (B1398) and largely to the north of Kexby Road and to the east of Springthorpe. This would cover an area of approximately 1,400ha and is located entirely within the administrative area of West Lindsey District Council. The solar farm would connect to the national grid via underground cables (the Cable Route Corridor) connecting to National's Grid Cottam substation located approximately 16 kilometres to the south-west of the Principal Site.

The Scheme comprises a generating station of above 50 megawatts and therefore qualifies as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) and 15(2) the Act. The development consent order (DCO) application for the Scheme (the Application) will be made by the Applicant to the Secretary of State for Energy Security and Net Zero (the Secretary of State) via the Planning Inspectorate (PINS), who will appoint an Examining Authority to examine the application on behalf of the Secretary of State. After examination, the Examining Authority will make its recommendation on the Application to the Secretary of State, who will make the final decision on

whether or not to make the Order. The Applicant intends to submit the Application towards the end of 2023.

The Scheme comprises the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity, a Battery Energy Storage System (BESS) and infrastructure to export and import electricity to the national electricity transmission network.

The BESS is associated development to ensure that energy can be stored when it is generated and not demanded. The BESS would have a direct relationship with the solar PV panels and it would support the operation of this by storing electricity produced during times of peak capacity until it needs to be released. Details of design of the BESS elements, including their power and energy ratings, and their dimensions and appearance, are currently in development.

Supporting electrical infrastructure on the Principal Site would include up to two substations, operating at a 400 kilovolt (kV)/33kV voltage. Substations would consist of infrastructure such as transformers and switchgear and equipment to help facilitate the export/import of electricity from/to the Principal Site to/from the national grid. A 400 kV underground cable circuit would be required within the Principal Site to interconnect the two substations. A security fence would enclose the PV panel areas of the Principal Site and pole mounted CCTV systems are also likely to be deployed around the perimeter of the operational areas of the Scheme.

The Principal Site would have four points of access, three located along the A631 Harpswell Lane and one located on the B1398 Middle Street. A series of internal access tracks are also proposed within the Principal Site to facilitate construction and the operation of the Scheme, including the use of existing farm tracks and upgrading of surfaces as required.

An indicative site layout plan has been produced to provide an initial indication of the location of areas for solar PV panels and green infrastructure, including proposed areas for woodland planting, ecological enhancement and the provision of new and enhanced hedgerows. There are also areas within the Principal Site where existing woodland and hedgerows would be retained. This plan can be found as part of the Preliminary Environmental Information (PEI) Report, which can be accessed through the Scheme's website (tillbridgesolar.com/documents-library).

The Cable Route Corridor would comprise the underground electrical infrastructure (400 kV cables) to export and import electricity to and from the national electricity transmission network at National Grid's Cottam substation in Nottinghamshire. The length of the cables to connect the Principal Site to the National Grid Cottam substation is approximately 16 km, and crosses the administrative areas of West Lindsey District Council and Bassetlaw District Council, falling within Lincolnshire and Nottinghamshire respectively. The Cable Route Corridor is currently being developed in terms of construction methods and requirements. This includes details of whether the cable would be placed in an open trench (which would be refilled and reinstated following completion of cable placement) or laid using horizontal directional drilling (HDD) to cross existing infrastructure such as roads, rivers and railways, the location of jointing bays, temporary storage compounds and access points.

Why we are writing to you

The Act and Regulation 3 of the APFP Regulations sets out specific requirements with respect to a duty to consult on applications for DCOs at the pre-application stage. **You have been identified as a prescribed consultee under Section 42(1)(b) of the 2008 Act and Regulation 3 of the APFP Regulations or you are a consultee identified under Regulation 11(1)(c) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA Regulations") or a person where it has been decided it would be appropriate to consult in any event.**

This letter is to give you notice of the Applicant's statutory consultation on the Scheme, which is running from **30 May 2023** until **23:59 on 11 July 2023** (hereafter referred to as "the consultation period.") and we invite responses on or before the closing date. Details of how this consultation is being carried out can be found in the Statement of Community Consultation (the "SoCC"), which is available at tillbridgesolar.com/documents-library and in hard copy (for reference only) at the local information points and consultation events listed below.

This statutory consultation is an opportunity for you to share your views on our proposals for the Scheme as a whole. By responding you will enable us to take your views into account as we develop and refine our proposals before submitting the Application to PINS.

We have prepared a PEI Report and a PEI Report Non-Technical Summary (NTS) as the Scheme is an Environmental Impact Assessment (EIA) development as defined by the EIA Regulations. These documents will help you to understand the likely significant environmental effects of the Scheme. An Environmental Statement will also be submitted with the Application.

Consultation materials

Consultation materials available on the website (tillbridgesolar.com/documents-library) as part of the consultation comprise:

- Statutory consultation leaflet, which is being posted to all addresses within a defined Primary Consultation Zone (as described in the SoCC). This document provides introductory information about the Scheme, the consultation, and where more detailed information can be found.
- Project information booklet, which provides a more detailed overview of the Scheme, including a summary of some of the potential effects, as explained in the PEI Report.
- Statutory consultation feedback questionnaire, which may be used to provide a response on the Scheme.
- Exhibition banners, which are being displayed in person at the consultation events (as listed below).
- Maps and plans showing the overall location of the Scheme.
- Frequently Asked Questions (FAQ) document.
- Copy of a notice of the Application, which has been publicised in accordance with section 48 of the Act and the requirements set out in Regulation 4 of the APFP Regulations.
- PEI Report and NTS.
- SoCC, which has been publicised in accordance with section 47 of the Act.

As required by Regulation 13 of the EIA Regulations, we also enclose a copy of the formal notice of the Application in accordance with Section 48 of the Act and Regulation 4 of the APFP Regulations. We have also enclosed a copy of the statutory consultation leaflet.

These documents are also available from the start of the consultation period via our website (tillbridgesolar.com/documents-library) or on a USB device. If you would like a USB, please get in touch using the details below and this can be provided free of charge, limited to one device per household. If you have any problems accessing the consultation documents on the Scheme's website from 30 May 2023, please let the Applicant know at your earliest convenience, using the contact details contained within this letter. The consultation materials are provided to help you understand the proposals and inform any comments you have on the Scheme.

If you would like a hard copy of the PEI Report or other consultation documents, a reasonable charge to cover printing and postage costs of £0.35 per page will apply. However, a printed version of the NTS can be provided free of charge and sent you in the post. If you require this information in an alternative format, such as Braille, large print or alternative languages, please do not hesitate to contact us using the details in this letter.

Copies of feedback questionnaires and consultation leaflets can also be collected free of charge from a series of local information points located in the vicinity of the scheme. The consultation materials listed above are also available in printed format for inspection at these locations. The locations and opening times are as follows:

List of local information points

Location	Opening times ¹
West Lindsey District Council, Guildhall Marshall's Yard, Marshalls Yard, 13b Beaumont St, Gainsborough DN21 2NA	Monday to Friday (9am to 5pm)
Lincoln Central Library, Free School Lane, Lincolnshire LN2 1EZ*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 4pm)
Gainsborough Library, Cobden St, Gainsborough DN21 2NG*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 1pm)
Saxilby Library, St Andrews Centre, William St, Saxilby LN1 2LP*	Tuesday (10:30am to 3:30pm), Wednesday (10:30am to 4pm) and Friday (10:30am to 1pm)
Retford Library, Churchgate, Retford, Nottinghamshire DN22 6PE*	Monday to Friday (9am to 6pm) and Saturday (9am to 3:30pm)

*Computer access is also available in these locations.

¹ Opening times are correct at the time of sending out this letter. We recommend that you check with the venue ahead of visiting to check that they are open.

Consultation events and webinars

During the consultation period a series of public information events will be held where you can view the proposals and speak with the Project team, as listed in the enclosed section 48 notice. Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the statutory consultation booklet and feedback questionnaire.

We will also be holding two webinar sessions, where members of the Project team will provide a short presentation, followed by a live question and answer session. You can sign up for a webinar by visiting our website (tillbridgesolar.com) or by emailing (info@tillbridgesolar.com) or calling (0800 046 9643). We kindly ask that you register for the session by 5pm on the day to ensure the relevant joining instructions can be provided on time. You can also request a call back from a member of the Project team (subject to availability) by using these contact details.

In the event of changing Government guidelines due to COVID-19, or other unforeseen circumstances meaning the consultation events must be cancelled, or the display of materials prevented, the Applicant will inform people as early as possible of the cancellation or expected change via the Scheme website and electronic communication with key stakeholders.

The events and webinars being held are as follows:

List of consultation events and webinars

Venue	Date	Times
Online webinar (please visit our website or get in touch to register)	Wednesday 7 June	6:30pm to 8pm
Glentworth Village Hall, Stoney Lane, Glentworth, Lincolnshire, DN21 5DF	Wednesday 14 June	2:30pm to 7pm
Willingham Village Hall, High St, Willingham by Stow, Gainsborough, DN21 5JZ	Saturday 17 June	10am to 2pm
Sturton by Stow Village Hall, High St, Sturton by Stow, Lincoln, LN1 2AE	Thursday 22 June	1:30pm to 5:30pm
Corringham Village Hall, 10 Middle St, Corringham, Gainsborough, DN21 5QR	Friday 30 June	12pm to 4pm
Rampton Village Hall, Manor Grounds, Rampton, Retford, Nottinghamshire DN22 0JU	Saturday 1 July	10am to 2pm
Hemswell and Harpswell Village Hall, Maypole Street, Hemswell, Lincolnshire, DN21 5UL	Thursday 6 July	2:30pm to 6:30pm
Online webinar (please visit our website or get in touch to register)	Monday 10 July 2023	6:30pm to 8pm

Responding to the consultation

Any response or representation in respect of the Application must (i) be received by the Applicant on or before **23:59 on 11 July 2023**, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. Should you wish your comments to remain anonymous, please provide your postcode only.

You can provide your response to this consultation by:

- Completing a hard copy feedback questionnaire, which can be requested from the Project team in electronic or hard copy format free of charge, collected from a consultation event or local information point, or printed at home.
- Completing an online version of the feedback questionnaire, which can be accessed via the Scheme website: tillbridgesolar.com/consultation
- Submitting your own form of response (provided it is in writing).

Any responses to this consultation or other representations in respect of the Scheme should be sent to the following:

- By post: **FREEPOST TILLBRIDGE SOLAR** (please write this in capitals, you do not need a stamp)
- Online: tillbridgesolar.com
- By email: info@tillbridgesolar.com

Enquiries in relation to the consultation documents and/or general queries during the consultation period should also be directed to the Applicant using these details.

Consultation commences on **30 May 2023**. All responses must be received by **23:59 on 11 July 2023**.

Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of the Scheme and, except as noted above, will not be disclosed to any third parties².

Friday 26 May 2023

Dear [insert recipient name],

Tillbridge Solar Project Development Consent Order (the "Order")
Statutory pre-application consultation: 30 May 2023 to 11 July 2023
Section 42 (Duty to consult on a proposed application) of the Planning Act 2008 (the "Act")
(as amended)
The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations
2009 ("APFP Regulations") (as amended)
The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the "EIA
Regulations")
Planning Inspectorate reference: EN010124

We are writing to you regarding the proposed Tillbridge Solar Project (the "Scheme") which is a proposed solar project that will deliver electricity to the national electricity transmission system. This letter is being sent to you as part of a statutory consultation exercise carried out pursuant to Section 42 of the Act. Tillbridge Solar Ltd is consulting you in your capacity as someone with an interest in land that forms part of the Scheme **under Section 42 (1) (d) and for those purposes listed within Section 44 of the Act.**

The Scheme

The Scheme is a new solar project proposal being brought forward by Tillbridge Solar Ltd (company number 12887594) (the "Applicant"), a joint venture partnership between Tribus Clean Energy and Canadian Solar. The Scheme comprises two distinct sections, which are "the Principal Site" and "the Cable Route Corridor".

Tillbridge Solar

The Scheme is proposed to be located approximately five kilometres to the east of Gainsborough and approximately 13 kilometres to the north of Lincoln. The new solar project is to be located the south of Harpswell Lane (A631), to the west of Middle Street (B1398) and largely to the north of Kexby Road and to the east of Springthorpe. This will cover an area of approximately 1,400ha and is located entirely within the administrative area of West Lindsey District Council. The solar project will connect to the national grid via underground cables (the Cable Route Corridor) connecting to the National Grid Cottam Substation located approximately 16 kilometres to the south-west of Principal Site.

The Scheme comprises a generating station of above 50 megawatts and therefore qualifies as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) and 15(2) the Act. The Development Consent Order (DCO) application (the "Application") will be made by the Applicant to the Secretary of State for Energy Security and Net Zero (the Secretary of State) via the Planning Inspectorate (PINS), who will appoint an Examining Authority to examine the application on behalf of the Secretary of State. After examination, the Examining Authority will make its recommendation on the Application to the Secretary of State, who will make the final decision on whether or not to make the Order. We intend to submit the Application towards the end of 2023.

The Scheme comprises the construction, operation (including maintenance) and decommissioning of ground mounted solar photovoltaic (PV) panel arrays to generate electricity, a Battery Energy Storage System (BESS) and infrastructure to export and import electricity to the national electricity transmission network.

The BESS is associated development to ensure that energy can be stored when it is generated and not demanded. The BESS will have a direct relationship with the solar PV panels and it will support the operation of this by storing electricity produced during times of peak capacity until it needs to be released. Details of design of the BESS elements, including their power and energy ratings, and their dimensions and appearance, are currently in development.

Supporting electrical infrastructure on the Principal Site will include up to two substations, operating at a 400 kilovolt (kV)/33 kV voltage. Substations will consist of infrastructure such as transformers and switchgear and equipment to help facilitate the export/import of electricity from/to the Principal Site to/from the National Grid. A 400 kV underground cable circuit will be required within the Principal Site to interconnect the two substations. A security fence will enclose the PV panel areas of the Principal Site and pole mounted CCTV systems are also likely to be deployed around the perimeter of the operational areas of the Scheme.

The Principal Site will have four points of access, three located along the A631 Harpswell Lane and one located on the B1398 Middle Street. A series of internal access tracks are also proposed within the Principal Site to facilitate construction and the operation of the Scheme, including the use of existing farm tracks and upgrading of surfaces as required.

An indicative site layout plan has been produced to provide an initial indication of the location of areas for solar PV panels and green infrastructure, including proposed areas for woodland

planting, ecological enhancement and the provision of new and enhanced hedgerows. There are also areas within the Principal Site where existing woodland and hedgerows will be retained. This plan can be found as part of the Preliminary Environmental Information (PEI) Report, which can be accessed through the Scheme's website (tillbridgesolar.com/documents-library).

The Cable Route Corridor will comprise the underground electrical infrastructure (400 kV cables) to export and import electricity to and from the national electricity transmission network at National Grid's Cottam substation in Nottinghamshire. The length of the cables to connect the Principal Site to the National Grid Cottam Substation is approximately 16 km and crosses the administrative areas of West Lindsey District Council and Bassetlaw District Council, falling within Lincolnshire and Nottinghamshire respectively. The Cable Route Corridor is currently being developed in terms of construction methods and requirements. This includes details of whether the cable will be placed in an open trench (which will be refilled and reinstated following completion of cable placement) or laid using horizontal directional drilling (HDD) to cross existing infrastructure such as roads, rivers and railways, the location of jointing bays, temporary storage compounds and access points.

Why we are writing to you

The Act and Regulation 3 of the APFP Regulations sets out specific requirements with respect to a duty to consult on applications for DCOs at the pre-application stage. **You have been identified as a potential party with an interest in land that forms part of the Scheme under Section 42(1)(d) and Section 44 of the 2008 Act.**

This letter is to give you notice of the Applicant's statutory consultation on the Scheme with this running from **30 May 2023** until **23:59 on 11 July 2023** (hereafter referred to as "the consultation period") and we invite responses on or before the closing date. Details of how this consultation is being carried out can be found in the Statement of Community Consultation (SoCC), which is available at tillbridgesolar.com/documents-library and in hard copy (for reference only) at the local information points and consultation events listed below.

This statutory consultation is an opportunity for you to share your views on our proposals for the Scheme as a whole. By responding you will enable us to take your views into account as we develop and refine our proposals before submitting the Application to PINS.

We have prepared PEI Report and a PEI Report Non-Technical Summary (NTS) as the Scheme is an Environmental Impact Assessment (EIA) development as defined by the EIA Regulations. These documents will help you to understand the likely significant environmental effects of the Scheme. An Environmental Statement will also be submitted with the Application.

Consultation materials

Consultation materials available on the website (tillbridgesolar.com/documents-library) as part of the consultation comprise:

Tillbridge Solar

- Statutory consultation leaflet, which is being posted to all addresses within a defined Primary Consultation Zone (as described in the SoCC). This document provides introductory information about the Scheme, the consultation, and where more detailed information can be found.
- Project information booklet, which provides a more detailed overview of the Scheme, including a summary of the findings of the PEI Report.
- Statutory consultation feedback questionnaire, which may be used to provide a response on the Scheme.
- Exhibition banners, which are being displayed in person at the consultation events (as listed below);
- Maps and plans showing the overall location of the Scheme;
- Frequently Asked Questions (FAQ) document;
- Copy of a notice of the Application, which has been publicised in accordance with section 48 of the Act and the requirements set out in Regulation 4 of the APFP Regulations;
- PEI Report and NTS; and
- SoCC, which has been publicised in accordance with section 47 of the Act.

As required by Regulation 13 of the EIA Regulations, we also enclose a copy of the formal notice of the Application in accordance with Section 48 of the Act and Regulation 4 of the APFP Regulations. We have also enclosed a copy of the statutory consultation leaflet.

These documents are also available from the start of the consultation period via our website (tillbridgesolar.com/documents-library) or on a USB device. If you would like a USB, please get in touch using the details below and this can be provided free of charge. If you have any problems accessing the consultation documents on the Scheme's website from 30 May 2023, please let the Applicant know at your earliest convenience, using the contact details contained within this letter. The consultation materials are provided to help you understand the proposals and inform any comments you have on the Scheme.

If you would like a hard copy of the PEI Report or other consultation document, a reasonable charge to cover printing and postage costs of £0.35 per page will apply. However, a printed version of the NTS can be provided free of charge and sent to you in the post. If you require this information in an alternative format, such as Braille, large print or alternative languages, please do not hesitate to contact us using the details in this letter.

Copies of feedback questionnaires and consultation leaflets can also be collected free of charge from a series of local information points located in the vicinity of the scheme. The consultation materials listed above are also available in printed format for inspection at these locations. The locations and opening times are as follows:

List of local information points

Location	Opening times ²
West Lindsey District Council, Guildhall Marshall's Yard, Marshalls Yard, 13b Beaumont St, Gainsborough DN21 2NA	Monday to Friday (9am to 5pm)
Lincoln Central Library, Free School Lane, Lincolnshire LN2 1EZ.*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 4pm)
Gainsborough Library, Gainsborough Cobden St, Gainsborough DN21 2NG*	Monday to Wednesday and Friday (9am to 5pm), Thursday (9am to 6pm), and Saturday (9am to 1pm)
Saxilby Library, St Andrews Centre, William St, Saxilby LN1 2LP*	Tuesday (10:30am to 3:30pm), Wednesday (10:30am to 4pm) and Friday (10:30am to 1pm)
Retford Library, Churchgate, Retford, Nottinghamshire DN22 6PE*	Monday to Friday (9am to 6pm) and Saturday (9am to 3pm)

*Computer access is also available in these locations.

Consultation events and webinars

During the consultation period a series of public information events will be held where you can view our proposals and speak with the project team, as listed in the enclosed section 48 notice. Printed copies of the consultation materials will be made available at consultation events for attendees to review. Attendees will also be able to take away copies of the statutory consultation booklet and feedback questionnaire.

We will also be holding two webinar sessions, where members of the Project team will be provide a short presentation, followed by a live question and answer session. You can sign up for a webinar by visiting our website (tillbridgesolar.com) or by emailing (info@tillbridgesolar.com) or calling (0800 046 9643) a member of the project team. We kindly ask that you register for the session by 5pm on the day to ensure the relevant joining instructions can be provided on time You can also request a call back from a member of the project team (subject to availability) by using these contact details.

In the event of changing Government guidelines due to COVID-19, or other unforeseen circumstances meaning the consultation events must be cancelled, or the display of materials prevented, the Applicant will inform people as early as possible of the cancellation or expected change via the Scheme website and electronic communication with key stakeholders.

² Opening times are correct at the time of sending out this letter. We recommend that you check with the venue ahead of visiting to check that they are open.

The events and webinars being held are as follows:

List of consultation events and webinars

Venue	Date	Times
Online webinar (registration open from 30 May 2023 via website and getting in touch)	Wednesday 7 June	6:30pm to 8pm
Glentworth Village Hall, Stoney Lane, Glentworth, Lincolnshire, DN21 5DF	Wednesday 14 June	2:30pm to 7pm
Willingham Village Hall, High St, Willingham by Stow, Gainsborough, DN21 5JZ	Saturday 17 June	10am to 2pm
Sturton by Stow Village Hall, High St, Sturton by Stow, Lincoln, LN1 2AE	Thursday 22 June	1:30pm to 5:30pm
Corringham Village Hall, 10 Middle St, Corringham, Gainsborough, DN21 5QR	Friday 30 June	12pm to 4pm
Rampton Village Hall, Manor Grounds, Rampton, Retford, Nottinghamshire DN22 0JU	Saturday 1 July	10am to 2pm
Hemswell and Harpswell Village Hall, Maypole Street, Hemswell, Lincolnshire, DN21 5UL	Thursday 6 July	2:30pm to 6:30pm
Online webinar (registration open from 30 May 2023 via website and getting in touch)	Monday 10 July 2023	6:30pm to 8pm

Responding to the consultation

Any response or representation in respect of the Application must (i) be received by the Applicant on or before **23:59 on 11 July 2023**, (ii) be made in writing, (iii) state the grounds of the response or representation, (iv) indicate who is making the response or representation, and (v) give an address to which correspondence relating to the response or representation may be sent. Should you wish your comments to remain anonymous, please provide your postcode only.

You can provide your response to this consultation by:

- Completing a hard copy feedback questionnaire, which can be requested from the Project team in electronic or hard copy format free of charge, collected from a consultation event or local information point, or printed at home.
- Completing an online version of the feedback questionnaire, which can be accessed via the Scheme website: tillbridgesolar.com/consultation
- Submitting your own form of response (provided it is in writing).

Any responses to this consultation or other representations in respect of the Scheme should be sent to the following:

- By post: **FREEPOST WSP** (please write this in capitals, you do not need a stamp)
- Online: www.tillbridgesolar.com
- By email: uk-tillbridgesolar@wsp.com

Enquiries in relation to the consultation documents and/or general queries during the consultation period should also be directed to the Applicant using these details. Any comments received as part of this consultation will be considered by the Applicant and any of its appointed agents with respect to the further development of the Scheme and Application. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Secretary of State when deciding whether the Application can be accepted for examination. Therefore, in providing any comment, it should be kept in mind that the substance of it may be communicated to others as part of that consultation report.

However, we will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the relevant data protection legislation and will be used solely in connection with the consultation process and the development of the Scheme and, except as noted above, will not be disclosed to any third parties³.

The Development Consent Order process

Information about the Act and DCO's can be found on PINS' National Infrastructure Planning website: <https://infrastructure.planninginspectorate.gov.uk/>

If you have any questions about this letter, the Scheme or consultation, please do not hesitate to contact me on info@tillbridgesolar.com or 0800 046 9643.

Yours sincerely,

Luke Murray
