1. Gazetteer of Archaeological Events

1.1 Introduction

- 1.1.1 This Gazetteer identifies previous archaeological investigations ('Events') within or adjacent to the Order limits and Table 2 details previous archaeological events within the 1km study area. The archaeological events are shown on Figure 5 of **Appendix 8-2: Cultural Heritage Desk-based Assessment** of this ES [EN010142/APP/6.2].
- 1.1.2 Archaeological Events as discussed further in the **Appendix 8-2: Cultural Heritage Desk-based Assessment** of this ES [EN010142/APP/6.2] but are not in themselves heritage assets. They are not therefore assessed in **Chapter 8: Cultural Heritage** of this ES [EN010142/APP/6.1].

List of Abbreviations:

- a. HER: Historic Environment Record (ELI – Lincolnshire, ENT – Nottinghamshire)
- b. EVT: Event Intervention
- c. EVP: Event Interpretation
- d. EVS: Event Survey

1.2 Archaeological Events

Table 1 Archaeological Events within or Adjacent to the Order Limits

HER ID	Record Type	Name	Description	Date	Location
ELI5075	EVT	Watching Brief on the Caenby Corner to Gainsborough Gas Pipeline	An archaeological watching brief was undertaken during the construction phase of a replacement gas main between Caenby Corner and Sturgate Airfield, Lincolnshire.	2003	SK 91287 88890 Within the Principal Site
ELI8643	EVT	Electricity Cable Replacement Works at Springthorpe	A watching brief was undertaken during the installation of new pylons on the Blyton to Harpswell electricity line. A sequence of natural, subsoil and topsoil deposits were revealed and no archaeological finds or features were encountered.	2006	SK 8794 9049 Within the Principal Site
ELI5072	EVS	Magnetic susceptibility survey	A magnetic susceptibility survey was undertaken along a section of the Caenby Corner to Gainsborough Gas pipeline.	2003	SK 91287 88890 Within the Principal Site
ELI5070	EVS	Magnetometry survey of the	A magnetometry survey was undertaken along a section of the Caenby Corner to Gainsborough Gas pipeline.	2003	SK 93084 88715

HER ID	Record Type	Name	Description	Date	Location
		Caenby Corner to Gainsborough Gas Pipeline			Within the Principal Site
ELI2197	EVT	Blyborough to Cottam pipeline	Watching brief along the route of a gas pipeline from Blyborough to Cottam, Notts	1997	SK 9001 8626 Within the Principal Site and Cable Route Corridor
ELI11112	EVS	Site visit to East Farm, Normanby by Stow	A site visit to East Farm, Normanby by Stow was undertaken by the Archaeology department at Lincolnshire County Council. Some of the original farm buildings recorded on the first edition Ordnance Survey map are still in existence.	2012	SK 88238 83089 Within the Cable Route Corridor
ENT3727	EVT	Watching brief on foundations at Cottam Power Station by TPAT	All excavations deeper than 3m were subject to a watching brief, also during the excavation of two parallel cable trenches S of the development site. Excavations along the bank of the River Trent were also inspected. No evidence for either archaeological or palaeoenvironmental deposits were encountered during the watching brief on the areas of deep excavation. Had archaeological features been present in this	1998	SK 8094 7971 Within the Cable Route Corridor

HER ID	Record Type	Name	Description	Date	Location
			area (cable trenches) it seems likely they would have been identified.		
ELI11495	EVS	Poplar Farm, Stow Park Road, Marton	A programme of historic building recording was conducted to inform the proposed demolition and replacement of the farmhouse and farm buildings at Poplar Farm, off Stow Park Road, Marton. Works to demolish the structures had already begun before the recording could commence, and parts of the structures could not be investigated in detail, particularly the main farmhouse. The main buildings on the site are thought to have been constructed together, as part of the late 19th century 'High Farming' movement.	2013	SK 8463 8150 Adjacent to Order Limits
ELI13004	EVS	Magnetometer survey by the Viking Torksey Project	A magnetic gradiometer survey took place in several phases as part of the Viking Torksey Project.	2012	SK 8360 8054
ELI13007	EVS	An Auger Survey by the Viking Torksey Project in 2011	An auger survey took place about 30 cores were taken across the site. The location of a number of buried former sand dunes was recorded.	2012	SK 8368 8037
ELI13008	EVS	An Auger Survey by the Viking Torksey	Four test pits were dug and each excavated test pit measured 1m square. Test pits were dug by hand, stratigraphically. Each test pit was dug to a depth of 1.2m, or to the bottom of any	2012	SK 8359 8040

HER ID	Record Type	Name	Description	Date	Location
		Project in 2012	sand deposits, whichever was encountered first. One pit was dug on one day in July 2012 the other three were dug over two days in November 2012.		Adjacent to Order Limits
ELI13009	EVT	Test pits by the Viking Torksey Project in 2012	Four test pits were dug and each excavated test pit measured 1m square. Test pits were dug by hand, stratigraphically. Each test pit was dug to a depth of 1.2m, or to the bottom of any sand deposits, whichever was encountered first. One pit was dug on one day in July 2012 the other three were dug over two days in November 2012.	2012	SK 8359 8040 Adjacent to Order Limits
ENT2281	EVS	Field Observation at Rampton	Moat at Rampton.	<Null>	SK 8155 7855 Adjacent to Order Limits
ENT4300	EVP	Cottam Wind Farm, Nottinghamshire, Archaeological Desk-based Assessment & Field walkover	This report results from work undertaken by Cambrian Archaeological Projects Ltd (CAP) The work carried out consisted of a desk-based assessment and a field walkover survey in advance of proposed construction of 12 wind turbines at Cottam in Nottinghamshire. The desk-based assessment includes a map regression, photographic evidence site plans and field walk results. A buffer zone an area of 3.5km around the site was taken into consideration.	2007	SK 80398 80979 Adjacent to Order Limits
ENT121	EVT	Excavation at Rampton	Excavations.	1966	SK 8203 7874

HER ID	Record Type	Name	Description	Date	Location
					Adjacent to Order Limits
ENT457	EVT	Excavations at Rampton	A series of cuttings was opened by the Retford Archaeological Group. The excavations produced evidence of stratification, but the small size of the trenches made it difficult to distinguish features clearly.	1992	SK 8203 7874 Adjacent to Order Limits
ENT3736	EVT	Watching brief on pipe supports at Rampton by TPAT	A watching brief on the machine excavation of a series of pits dug to carry supporting anchor blocks for two slurry pipelines. Pipeline A (N-S) called for the machine excavation of six pits for anchor blocks with an additional two larger pits at either end of the pipeline. The six pits measured 2.2 x 1.6m, dug to a depth of 0.3m and cleaned manually by shovel. Pipeline B (W-E) necessitated the machine excavation of ten pits, dug to a depth of 0.6m, these pits measured 0.5 x 1.5m.	1996	SK 8200 7876 Adjacent to Order Limits
ENT3739	EVT	Excavation and watching briefs at Phase 3, Rampton Quarry by TPAT	The topsoil from either side of the pipeline dividing phases 3B and 3C was stripped under archaeological supervision by a 360 degree excavator with a ditching bucket on its back actor and dumpers, with care being taken not to track over sub-ploughsoil layers. Six 4x4m trenches were dug manually in successive 50mm or 100mm spits, to levels at which in situ floors, hearths or other structural remains could be clearly identified. One small 1.5 x 1.5m test pit was also excavated in the alluvial basin to the W of the pipeline corridor. The remainder of the site was stripped mechanically, in a similar manner to the topsoil, to a level at which features could be discerned. It was	1999	SK 820 787 Adjacent to Order Limits

HER ID	Record Type	Name	Description	Date	Location
			decided to remove a further shallow spit (0.1m). 1m wide box trenches were excavated by a tracked mini digger through selected linear features and some pits. A minimum 1m length of most ditches and gullies and the remaining fill of pits was then excavated manually in spits.		
ENT3740	EVT	Trial trenching (Trench 01) at Rampton Quarry by TPAT	Trench 01 was located in field 0867 on the basis of the resistivity survey data. 5m wide and 13.5m long.	1990	SK 8206 7871 Adjacent to Order Limits

Table 2 Events within the 1km Study Area

HER ID	Record Type	Name	Description	Date	Location
ENT3738	EVT	Watching brief at Phase 2 of Rampton Quarry, by TPAT	Stripping of topsoil and subsoil from the area of phase 2 and along a haul road running approximately W - E across phases 2 and 3.	1999	SK 819 785
ENT2498	EVP	Historical report: the manor of Rampton by H Chadwick	Documentary reference to manor house at Rampton.	1920	SK 7997 7858
ENT3741	EVT	Trial trenching (trench 02) at Rampton Quarry by TPAT	Trench 02 was located in field 0048 to examine the interface of alluvium and terrace and to investigate cropmark features. 2.5m wide, total E-W length 45m with a 7m extension to the S at the E end.	1990	SK 8190 7864
ENT3742	EVS	Resistivity survey at Rampton Quarry	The trust's resistivity survey was carried out using a Geoscan RM4 Resistivity Meter coupled with a DL10 Data Logger. Measurements were made at 1m intervals within 20m grid squares.	1990	SK 820 787
ENT3737	EVT	Watching brief on topsoil stripping of Phase 1,	Watching brief during the removal of topsoil and overburden. The topsoiled surface and exposed sections were examined for any evidence of archaeological and / or organic material. The alluvial brown sandy clay covering deposit soon became	1996	SK 8215 7870

HER ID	Record Type	Name	Description	Date	Location
		Rampton Quarry by TPAT	covered in spoil and vehicle tracks which served to restrict examination. No features or finds were observed in the topsoil removal operation. Inspection of the exposed sections revealed a feature in the west facing section.		
ENT3721	EVT	Watching brief at Cottam power station by TPAT	Contractors hand excavated three test pits. The holes were c.3m long, 0.5m wide and 1m deep. No archaeological features or artefacts were recorded. The test pits confirm the sediments in the study area are predominantly 'made ground' deposits, probably associated with construction of the power station.	1996	SK 810 795
ENT4452	EVT	Watching brief along pipe trench, Cottam Power Station, by Wessex	Watching brief along of the line of the pipe trench from Blyborough, Lincs., to Cottam. Two potential sites of interest at the Cottam/Laneham parish boundary and the Seymour drain produced no archaeological features or finds.	1997	SK 81952 79718
ELI2940	EVS	Land at Manor Farm	Metal detecting was undertaken by an amateur enthusiast on a field at this farm (MLI182761).	2001	SK 873 827
ELI4091	EVT	Excavation at Marton Road, Stow	An area 7m by 124m was stripped to topsoil and excavated on an area of archaeological remains identified during a watching brief on a gas pipeline trench.	1997	SK 8723 8294
ELI6746	EVS	Casual finds on land at East Farm,	Small assemblage of early Medieval pottery found to the east of East farm, Normanby by Stow. Picked up by the farm owner. Pottery was identified by an independent specialist and staff from Lincolnshire County Council (MLI89097/98).	1999	SK 88280 83240

HER ID	Record Type	Name	Description	Date	Location
		Normanby by Stow			
ELI13240	EVS	Field Walking at Pottery Farm, Brampton	A programme of field walking was conducted in the area around Pottery Farm, Brampton. The farm had been the location of a short-lived porcelain factory in the early 19th century. Sherds of biscuit porcelain and earthenware were identified in a light scatter around the former factory site (MLI52469).	1968	SK 835 798
ELI13011	EVT	A Trial Trench by the Viking Torksey Project in 2013	A trench was excavated by the Viking Torksey Project to investigate a cluster of magnetometer anomalies in a curvilinear alignment that were interpreted as probable archaeological features. Pottery from the Roman to the post medieval period was found but no archaeological features were identified MLI118779,125067,125072,125073.	2013	SK 83550 79828
ELI13241	EVS	Photographic Record at Pottery Farm, Brampton	A photographic record was made of the buildings at Pottery Farm, Brampton. The farm had been the location of a short-lived porcelain factory in the early 19th century (MLI52469).	1968	SK 8351 7986
ELI13242	EVT	Excavations at Pottery Farm, Brampton	Archaeological excavations were conducted at Pottery Farm, Brampton. The farm had been the location of a short-lived porcelain factory in the early 19th century. The excavations exposed the foundation cut for the former pottery kiln, along with a dense concentration of pottery wasters (MLI52469).	1968	SK 8351 7986

HER ID	Record Type	Name	Description	Date	Location
ENT4450	EVT	Auger survey along section of Pipeline near Cottam power station	Coring by Geodrive Ltd for Wessex Archaeology. A series of 19 points along 1,450m of the pegged line of the pipe trench were cored to a depth of 2.5m. Aims were to assess the sedimentation history, indicate palaeo-environmental potential, predict archaeologically sensitive areas. Base is sand with gravel lenses with an overlying floodplain alluvium. In the north of the site, significant depots of peat and organic debris were encountered at a depth of 1.8m and lower. No palaeochannels indicated. Predominately an alder carr woodland. The peats likely date to the Neolithic and pollen shows that there was a small amount of evidence for land clearance and arable practice.	1997	SK 82411 80159
ELI13010	EVT	A Trial Trench by the Viking Torksey Project	A single trench, 20m by 5m, was excavated to investigate a scatter of fragmentary human bone. Plough disturbance was very extensive and cut into the subsoil natural deposits. There were no traces of any grave cuts and all finds came from the disturbed plough soil.	2012	SK 83336 80395
ELI12847	EVS	Site visit to Hemswell Court	A magnetic gradiometer survey took place in several phases as part of the Viking Torksey Project.	2012	SK 8360 8054
ELI4514	EVT	Land at the former Bishop's Palace, Stow	An archaeological watching brief was undertaken during overhead cable replacement on land at the former Bishop's Palace, Stow. The watching brief monitored the excavation of postholes and supporting trenches. The watching brief identified a sequence of natural, subsoil and topsoil layers; variations in the subsoil thickness across the site appear to be	2003	SK 86581 80975

HER ID	Record Type	Name	Description	Date	Location
			associated with the earthwork remains. The investigation identified no archaeological features.		
ENT3435	EVS	Field walking finds from South Leverton	Roman finds from South Leverton.	<Null>	SK 809 810
ENT3434	EVS	Field walking finds from North Leverton	Roman pottery from north leverton.	<Null>	SK 810 813
ENT1947	EVS	Casual find from North Leverton	Early medieval finds from Coates, North Leverton.	1904	SK 820 814
ELI13206	EVT	Land at Stow Park Road, Stow	A programme of archaeological monitoring and recording was conducted during groundworks for new residential development on land south of Stow Park Road, Stow. No features of archaeological interest were uncovered, although three redeposited sherds of 13th century pottery were recovered from the plough soil.	2018	SK 8801 8186
ELI5860	EVS	Site visit to Wesleyan Chapel, Sturton Road, Stow	A site visit was made to the Wesleyan chapel as part of the compilation of the list of buildings of special architectural or historic interest.	1985	SK 8823 8188

HER ID	Record Type	Name	Description	Date	Location
ELI13210	EVS	Outbuilding Behind 6 Sturton Road, Stow	Photographic recording was conducted prior to the demolition of an outbuilding to the rear of 6 Sturton Road, Stow. The building is a single story brick structure of probable 19th century date, with a pitched roof covered with corrugated asbestos or concrete sheeting.	2018	SK 88218 81882
ELI5549	EVS	Building Recording of former Wesleyan Methodist Chapel, Sturton Road, Stow	Historic building recording was undertaken on the former Methodist Chapel, Sturton Road, Stow, prior to its conversion to a residential dwelling. Mainly a photographic survey linked to a ground plan, with external elevations and features, and internal features and fittings.	2004	SK 88238 81885
ELI5808	EVS	Site visit to former Wesleyan Methodist Chapel, Stow	A site visit was carried out to the former Wesleyan Methodist Chapel in Stow as part of a survey of nonconformist chapels.	2005	SK 88238 81885
ELI4233	EVS	Walk over survey on land at Littleborough Lane, Marton	Walkover survey on land at Littleborough Lane, Marton to assess the potential of the site to contain archaeological remains and features, and to determine the archaeological implications of proposed development at the site. The walk over survey noted Roman pottery and tile, medieval and post-medieval pottery in a modern drainage pipe trench along the southern edge of the westernmost field.	2003	SK 838 819

HER ID	Record Type	Name	Description	Date	Location
ELI4426	EVS	Geophysical survey on land at Littleborough Lane, Marton	A magnetic scanning survey was undertaken on land at Littleborough Lane, Marton in advance of a proposed residential development. The aim of the survey was to gather sufficient information to establish the location and extent of any archaeological features within the development area and, if possible, to characterise the archaeology located.	2003	SK 83798 81939
ELI4427	EVS	Geophysical survey on land at Littleborough Lane, Marton	A systematic magnetometry survey was undertaken on land at Littleborough Lane, Marton in advance of a proposed residential development. The aim of the survey was to gather sufficient information to establish the location and extent of any archaeological features within the development area and, if possible, to characterise the archaeology located.	2003	SK 83806 81959
ELI13370	EVT	Manor Farm, High Street, Marton	An archaeological watching brief was conducted during groundworks for the construction of new housing at Manor Farm, High Street, Marton. No archaeological features, deposits or finds were encountered, although brief notes were made regarding former farm buildings on the site, that were being converted to holiday Accommodation.	1994	SK 8401 8198
ELI12750	EVS	Land off Stow Park Road, Marton	A fluxgate gradiometer survey was conducted to inform proposed residential development on land off Stow Park Road, Marton. Strong magnetic anomalies, clearly associated with modern services and agricultural activity were recorded, along with traces of probable medieval ridge and furrow, and an area of probable quarrying of unknown date. A heritage assessment	2016	SK 8444 8199

HER ID	Record Type	Name	Description	Date	Location
			of the proposed development site was completed prior to the commencement of the geophysical survey (see SLI15568).		
ELI12800	EVT	Land North of Stow Park Road, Marton	Ten trial trenches were excavated to inform proposed residential development on land to the north of Stow Park Road, Marton. The only features identified related to recent agricultural activity, and no archaeologically significant features or deposits were encountered, although a single, redeposited and quite abraded sherd of either Roman or medieval pottery was recovered.	2016	SK 8444 8199
ELI665	EVT	Section across Till Bridge Lane	Section across Till Bridge Lane observed here 15th May 1959 during digging of drain trench. Roman surface encountered 3 feet below present road level (MLI50575).	1959	SK 838 820
ELI4621	EVT	Church End Farm, Stow	An archaeological watching brief was undertaken during the excavation of foundation trenches for an extension to farm buildings at Church End Farm, Stow. No archaeological remains were observed during the watching brief.	2003	SK 88119 82000
ELI7582	EVT	St Mary's Church, Stow	An archaeological watching brief was conducted during groundworks associated with repairs to a blocked drain at St Mary's Church, Stow. The service trenches were contained within ground previously disturbed by the installation of existing services, and no archaeological features, deposits or finds were encountered.	2006	SK 8816 8200

HER ID	Record Type	Name	Description	Date	Location
ELI605	EVT	Excavation at St Mary's Church, Stow	Excavations were carried out on the north side of the nave in advance of building work to extend the vestry to provide a meeting room and kitchen - linked to MLI50262 (SAM 1012976).	1983	SK 8819 8200
ELI13347	EVT	Land at 9A Ingham Road, Stow	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of three new residential dwellings on land at 9A Ingham Road, Stow. No archaeological features, deposits or finds were encountered.	2018	SK 8840 8201
ELI3937	EVT	The Old School House	A watching brief was undertaken during the construction of a two storey extension at the property.	2003	SK 8831 8204
ELI5809	EVS	Site visit to former Sunday School, School Lane, Stow	A site visit was carried out to the former Sunday School on School Lane.	2005	SK 88337 82050
ELI13303	EVT	Charolands Camp Site, Ingham Road, Stow	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of a new residential dwelling on land at the Charolands Camp Site, Ingham Road, Stow. No archaeologically significant features, deposits or finds were encountered, although an extra layer was noted in the stratigraphy on the southern part of the site. It was thought likely that this layer represented the fill of a natural depression or low lying area of land, although a connection to	2019	SK 8854 8206

HER ID	Record Type	Name	Description	Date	Location
			the remains of the shrunken medieval village of Stow could not be entirely discounted.		
ELI5777	EVS	Site visit to Marton Methodist Chapel, Marton	A site visit was carried out to Marton Methodist Chapel as part of a survey of nonconformist chapels.	2005	SK 83978 82082
ELI13043	EVT	9B Ingham Road, Stow	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of a new dwelling on land at 9B Ingham Road, Stow. No archaeological features, deposits or finds were encountered.	2017	SK 8862 8209
ELI13366	EVS	Geophysical Survey at the Romano-British Settlement Site and Fort, Till Bridge Lane	A magnetometry survey was conducted on parts of the Roman fort and Romano-British settlement site to the north-west of Marton, as part of a private research project. The survey recorded large parts of the ditched enclosure surrounding the Roman fort, with clear gaps for the gateways visible. Survey of the interior of the fort was less conclusive, with no clearly defined internal features discernible. The survey also recorded a large number of curvilinear magnetic anomalies across the settlement area, thought to represent the remains of several ditched droveways, and many enclosures, pits and property boundaries.	<Null>	SK 8346 8223

HER ID	Record Type	Name	Description	Date	Location
ELI11216	EVS	Discovery of a Roman Inscription near Marton	A fragment of Roman altar recorded as having been found on the north side of the track that runs from Marton to the River Trent (MLI98578).	2001	SK 8332 8225
ELI11466	EVT	Land at Littleborough Lane	Excavation of land to the north of Littleborough Lane, undertaken as part of a community project to reveal and examine part of a Roman settlement. A sequence of features were identified, mostly dating to the Roman period, including pits and ditched enclosures.	2012	SK 8333 8229
ELI13365	EVS	Field Walking at the Romano-British Settlement Site, Till Bridge Lane	A systematic programme of field walking was conducted on part of the Romano-British settlement site to the north-west of Marton, as part of a private research project. A large quantity of Roman pottery was collected including fragments of Samian pottery from Gaul, wine flagons and amphorae (large pottery vessels for storage), Parisian ware, Dales ware, shell-gritted ware, grey ware and colour-coat wares. Fragments of pottery presses used in cheese making and spindle whorls for weaving were also found. Finds of copper and iron slag indicates that metal-working took place here, but probably not on a large scale. Bronze objects such as cosmetic implements have also been recovered from the fields as well as many brooches and rings.	<Null>	SK 8339 8229
ELI5807	EVS	Site visit to the High Street Methodist	A site visit was carried out to the Methodist Chapel (former Wesleyan) on High Street as part of a survey of nonconformist chapels.	2005	SK 87510 84555

HER ID	Record Type	Name	Description	Date	Location
		Chapel, Willingham			
ELI11023	EVS	Historic Building Survey of Willingham Methodist Church, Willingham by Stow	A Historic Building Survey of Willingham Methodist Church, Willingham by Stow was undertaken by Pre-Construct Archaeological Services in January 2012. The original building was built in 1811 but was replaced in 1885.	2012	SK 87510 84557
ELI5798	EVS	Site visit to former Primitive Methodist Chapel, Willingham	A site visit was carried out to the former Primitive Methodist Chapel as part of a survey of nonconformist chapels.	2005	SK 87702 84613
ELI12761	EVS	Lowfield Farm, Kexby Road, Glentworth	A programme of historic building recording was conducted to inform the proposed conversion to housing of a range of traditional farm buildings at Lowfield Farm, Kexby Road, Glentworth. The surveyed buildings likely date to the mid 19th century, and comprise a single-storey barn or chaff house, a two-storey cart shed with granary above, and parts of what was a former stable block. The buildings have been subject to much alteration, including the blocking of many of the original doors and windows, and the addition of large modern sheds.	2016	SK 9047 8731

HER ID	Record Type	Name	Description	Date	Location
ELI5538	EVS	Site visit to The Old Chapel, former Free United chapel, Glentworth	A site visit was carried out to a former Free United Methodist chapel as part of a survey of nonconformist chapels.	2005	SK 94769 87900
ELI13580	EVT	Plot 1, Land Adjacent to 2 Church Street, Glentworth	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of a new residential dwelling on Plot 1 of land adjacent to 2 Church Street, Glentworth. No archaeological features, deposits or finds were encountered.	2021	SK 9462 8792
ELI13524	EVT	Plot 2, Land Adjacent to 2 Church Street, Glentworth	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of a new residential dwelling on Plot 2 of land adjacent to 2 Church Street, Glentworth. No archaeological features, deposits or finds were encountered.	2021	SK 9463 8793
ELI7897	EVT	Non-archaeological excavation at Glentworth Hall	On the initiative of the then owner, the area of the demolished Tudor wings of the hall was excavated using a mini-digger in order to provide items for him to sell in his antique shop. The excavation was not recorded and it is not know who carried out the work, although a woman connected to the University of York is said to have been involved. The excavated areas were not backfilled.	2001	SK 94357 88199

HER ID	Record Type	Name	Description	Date	Location
ELI7898	EVS	Post excavation survey at Glentworth Hall	Following the non-archaeological excavation (ELI7897) carried out in 2001, a survey of the exposed remains was carried out in 2006.	2006	SK 94358 88199
ELI13484	EVT	Land at 36 Church Street, Glentworth	A programme of archaeological monitoring and recording was conducted during groundworks for the construction of a new dwelling adjacent to 36 Church Street, Glentworth. No archaeological features, deposits or finds were encountered.	2017	SK 9454 8820
ELI7895	EVS	Site visit to Glentworth Hall	A site visit was made to this house as part of the compilation of the list of buildings of special architectural or historic interest. (MLI51101) / LB1063348.	1951	SK 94363 88222
ELI2290	EVT	Land to the rear of The White House, Heapham	A watching brief was undertaken during groundworks for a house and garage.	2001	SK 8760 8825
ELI13589	EVS	Former Smithy Building, St George's Hill, Glentworth	A programme of historic building recording of a former smithy building at St George's Hill, Glentworth, was conducted prior to proposed incorporation of the building as part of a new residential dwelling. Two site visits were undertaken as part of the survey. The former smithy is of at least 19th century origin and possibly earlier. It was marked as a 'Smithy' by a map in the late 19th century, though the building may have been in use as such earlier. There were significant internal 20th century alterations, including the addition of a mezzanine floor and new	2021	SK 9465 8827

			ground floor office or store. By the time of the site visit, there were few original internal features which remained, though the location of the vertical brick chimney breast on the north wall may suggest the presence of a former furnace, replaced by a conventional fireplace. A photographic record was made of the exterior and interior.		
ELI11045	EVS	Photographic Recording of the Wesleyan Chapel, Heapham	A photographic recording of the Wesleyan Chapel and attached outbuildings, Common Lane, Heapham was undertaken in December 2010 by the Developer prior to conversion.	2010	SK 87626 88302
