**LEGEND**

- Order limits
- Land not included in the Order limits
- 10km Buffer from the Order limits
- Modelled Substation Location
- Solar PV Area - 3.5m Height
- No 2m Lidar DTM Coverage

**Zone of Theoretical Visibility**

Most Visible

Least Visible

**NOTES**

Zone of Theoretical Visibility (ZTV) has been generated using Environment Agency 2m Lidar digital terrain model (DTM). Areas where the 2m Lidar data was not available OS Terrain 50 DTM was used. The ZTV is based upon a grid of points at 50m apart within the Solar PV Area at a height of 3.5m and within the Substation Area at a height of 6m. The Observer height was modelled at 1.6m.  
All heights mentioned above are above ground level (AGL) unless otherwise specified.

**ISSUE PURPOSE**  
Environmental Statement
