

The proposed Solar farm will be adjacent to a vulnerable persons home and gardens and within view from all windows of the property. This home is currently a safe, nurturing space both inside and out, providing round the clock activities to promote health and well being thus allowing a sense of freedom and ongoing development. The impact of both the construction and completed project is already causing him a great deal of worry. Without doubt it will most certainly have an impact on his [REDACTED] and overall health.
