## 1.1 Introduction

- 1.1.1 This Schedule of Negotiations and Powers Sought, alongside the Statement of Reasons, demonstrates that the Applicant has complied with the Compulsory Acquisition Guidance (CA Guidance) related to procedures for the compulsory acquisition of land (DCLG, September 2013).
- 1.1.2 The Applicant has been and continues to seek to acquire the relevant freehold interests, new rights and restrictions and temporary use of land by private treaty. However, compulsory acquisition and temporary use powers are being sought in order to ensure the deliverability of the Scheme. Whilst seeking compulsory acquisition powers, the Applicant will continue to seek to reach voluntary agreements wherever possible. This approach of seeing powers of compulsory acquisition in the application for a Development Consent Order (DCO), in parallel, conducting negotiations to acquire land rights by agreement, accords with paragraph 26 of the CA Guidance. Table 1 below sets out the latest position in relation to these voluntary agreements.
- 1.1.3 The CA Guidance states that there must be a clear idea how the land to be acquired is to be used, and Table 1 below summarises the reason that acquisition of land/rights and temporary possession is required to accommodate the Scheme.
- 1.1.4 Table 2 below lists plots within the Order land which comprise part of the public highway network and whilst an explanation is provided on why the land is required to accommodate the Scheme, a summary of negotiations is not provided here as there are no voluntary property rights being sought in relation to the highway other than engaging with the relevant highways authority as part of the DCO process.
- 1.1.5 Table 3 below sets out the position in relation to statutory undertakers who have been identified as having land, rights and/or apparatus within the Order land.
- 1.1.6 Persons with subsoil interest in highway land have not been included in this Schedule of Negotiations and Powers Sought.
- 1.1.7 This Schedule of Negotiations and Powers Sought is one of a number of documents accompanying the application for a DCO. It should be read in conjunction with the following documents:
- a. Land Plans **[EN010143/APP/2.1]**
  - b. Works Plans **[EN010143/APP/2.3]**
  - c. Draft DCO **[EN010143/APP/3.1]**
  - d. Book of Reference **[EN010143/APP/4.3]**
  - e. Statement of Reasons **[EN010143/APP/4.1]**
- 1.1.8 It is envisaged that this Schedule of Negotiations and Powers Sought will be updated at regular intervals throughout Examination.

## 1.4 Table 3. Status of Negotiations with Statutory Undertakers and Other Utility Owners

- 1.4.1 Section 127(2) of the Planning Act 2008 (PA 2008) states that an order granting development consent may only include provision authorising the compulsory acquisition of statutory undertakers' land to the extent that matters set out in section 127(3) are satisfied. Those matters are:
- a. the land can be purchased and not replaced without serious detriment to the carrying on of the undertaking; or
  - b. if purchased, the land can be replaced by other land belonging to or available for acquisition by the undertakers without serious detriment to the carrying on of the undertaking.
- 1.4.2 Section 127(5) of the PA 2008 states that an order granting development consent may only include provision authorising the compulsory acquisition of a right over statutory undertaker's land by the creation of a new right over land to the extent that matters set out in section 127(6) are satisfied. Those matters are:
- a. the right can be purchased without serious detriment to the carrying on of the undertaking; or
  - b. any detriment to the carrying on of the undertaking, in consequence of the acquisition of the right, can be made good by the undertakers by the use of the other land belonging to or available for acquisition by them.
- 1.4.3 Article 31 of the draft DCO gives the Applicant the authority to acquire land and rights from statutory undertakers, and to extinguish or suspend their rights, and to remove or reposition their apparatus, subject to the provisions of Schedule 14 which contains protective provisions for their benefit. The protective provisions provide adequate protection for statutory undertakers' assets. The Applicant therefore considers that the statutory undertakers will not suffer serious detriment to the carrying on of the undertaking as a result of the compulsory acquisition powers sought over the Order land being granted. The tests set out in sections 127(3) and 127(6) of the PA 2008 are therefore satisfied.
- 1.4.4 Section 138 of the PA 2008 applies if a development consent order authorises the acquisition of land (compulsorily or by agreement) and there subsists over the land a 'relevant right', or there is 'relevant apparatus' on, under or over the land. The draft DCO includes provision to authorise the extinguishment of a relevant right, or the removal of relevant apparatus belonging to statutory undertakers, in connection with the delivery of the Scheme. The exercise of such powers will be carried out in accordance with the protective provisions contained in Schedule 14 to the DCO. The protective provisions set out constraints on the exercise of the powers in the draft DCO, with a view to safeguarding the statutory undertakers' interests, whilst enabling the Scheme (i.e. the development authorised by the draft DCO) to proceed. The Applicant therefore considers that the test set out in section 138 of the PA 2008 is satisfied.

- 1.4.5 Various statutory undertakers and owners of apparatus have a right to keep equipment (in connection with their undertaking) on, in or over the Order limits. Statutory undertakers and other apparatus owners that are known to have interest in or equipment on, in or over the Order limits are included in the Book of Reference **[EN010143/APP/4.3]** and set out in Table 3 below.
- 1.4.6 The Applicant is in discussions with the relevant statutory undertakers and owners of apparatus to agree the form of protective provisions and, where required, side agreements and asset protection agreement with the other parties contacted.
- 1.4.7 In any event, Part 1, Part 2 and Part 3 of Schedule 14 to the draft DCO include standard protective provisions for: (1) the protection of electricity, gas, water and sewerage undertakers; (2) the protection of operators of electronic communications code networks; and (3) the protection of drainage authorities respectively, in order to ensure the assets of those parties receive adequate protection.
