

**Application by East Yorkshire Solar Farm Limited for East Yorkshire Solar Farm
The Examining Authority's schedule of proposed changes to the draft Development Consent Order (dDCO).**

Issued on 15 October 2024.

This document sets out the Examining Authority's (ExA) proposed changes to the latest version of the Applicant's dDCO submitted at Deadline 5 of the Examination [REP5-010].

Column 1 of the table sets out the unique reference number for each proposed change. Column 2 sets out the provision in the dDCO to which the proposed change relates. Column 3 describes the recommended change, with proposed deletions shown as ~~strikethrough~~ and proposed additions shown in **red text**. Column 4 provides the ExA's reasoning as to the recommended change and any further commentary.

There may be further changes to the dDCO which the ExA recommends to the Secretary of State to take account of other matters that have been and continue to be examined. This is particularly likely in the event that it is clear that there are fundamental differences between parties on a number of issues. These will need to be reported to the Secretary of State along with the ExA's conclusions when all the evidence has been submitted.

Should the Applicant or any other party wish to make any comments on this schedule of proposed changes then these should be submitted by **Deadline 7 (5 November 2024)**.
