

We moved to Spaldington to enjoy the outdoors in our retirement.

We are in our ■■■ s and enjoy walking. There are no amenities in our village, no shops no church no meeting points.

If the solar farms are approved our local walks will be denied us and we are then confined to our home .

It's too late for us to uproot and move again and we moved home solely to enjoy what was on our doorstep.

We feel nobody cares or is listening and our quality of life has been robbed.
