## 1.1 Introduction

### Overview

1.1.1 This Appendix of the Environmental Statement (ES) has been prepared by RPS on behalf of Photovolt Development Partners GmbH. (PVDP) for the Applicant, SolarFive Ltd. (SolarFive). This Appendix supports Volume 1, Chapter 12: Traffic and transport of the ES.

1.1.2 This Appendix sets out a summary of the public transport network for the Project. The public transport network comprises bus and rail services, and associated bus stops and railway stations that are within potential walking distance for some construction staff to the four main temporary construction compound locations.

1.1.3 A summary of all bus routes, bus stop locations and railway station locations is set out in **Figure 1.1** and has been used to define a baseline transport position as set out in Volume 1, Chapter 12: Traffic and transport of the ES.

1.1.4 The public transport network has been derived from timetable data collected in July 2024 from the following sources:

- Stagecoach Bus
- Oxford Bus Company
- First & Last Mile Community Transport
- Chiltern Railways
- Great Western Railway
- Trainline

1.1.5 The extent of the public transport network has been determined based upon the location of the four main temporary construction compounds for the Project.
