- Work No. 7B Secondary Temporary Construction Compounds
- Work No. 8 Highway Works
- Work No. 9 Green Infrastructure

- NOTES:**
1. Ordnance Survey (OS) MasterMap data adopted as the drawing base map.
 2. The location of features shown are indicative only. Exact locations to be confirmed on site.
 3. Additional features may be present on site that have not been identified on the OS MasterMap data.
 4. The Works Plans show the spatial extent of the authorised development, which are described in Schedule 1 (Authorised Development) to the draft Development Consent Order. The Works Plans should be read in conjunction with the draft Development Consent Order and other plans and documents to be certified by it.
 4. The Works Plans are drawn to OS MasterMap data and Land Registry boundaries. In some locations the Land Registry boundaries differ from the OS MasterMap data which results in Limits of Deviation and/or the Order Limits not aligning with the line work shown on the base map.
 5. The Works Plans show some works taking place in combination with each other on the same area of land. Within the combined Limits of Deviation for these works the Applicant seeks authorisation for any combination of those Work Nos. shown within that Limit of Deviation (including on insets).
 6. Where the Order Limits overlap with works, it is assumed that the spatial extent of works extends to the outer edge of the Order Limits.
