1. Introduction

1.1. Purpose of this Document

- 1.1.1 This document provides a guide to Springwell Energyfarm Limited (the ‘Applicant’) application for a Development Consent Order (DCO) for Springwell Solar Farm made to the Secretary of State for Energy Security and Net Zero (the ‘Secretary of State’) pursuant to the Planning Act 2008 (PA 2008).
- 1.1.2 The Proposed Development is a new solar farm with battery storage at land north of Sleaford, close to the settlements of Blankney, Scopwick, Kirkby Green and Ashby de la Launde (the “Site”), within the administrative boundaries of North Kesteven District Council (“NKDC”) and Lincolnshire County Council (“LCC”) (the “host authorities”).
- 1.1.3 The Proposed Development has a grid connection agreement with National Grid allowing the export and import of 800 MW of electricity through a proposed new substation, owned and operated by National Grid (“National Grid Navenby Substation”).
- 1.1.4 The Proposed Development meets the criteria to be considered as a Nationally Significant Infrastructure Project (“NSIP”) under section 15(2) of the PA 2008 as it is a proposed generating station which would be within England, does not generate electricity from wind, would not be offshore and would have a total generating capacity of more than 50 MW.
- 1.1.5 A full description of the Proposed Development is provided in Environmental Statement **Volume 1, Chapter 3: Proposed Development Description [EN010149/APP/6.1]**.
- 1.1.6 This Guide aims to help the Examining Authority (ExA) and interested parties understand the DCO Application through signposting to the documents that make up the Application. This Guide provides an overview of the documents that have been submitted in order to satisfy the APFP Regulations, the EIA Regulations and section 37 of the PA 2008.
- 1.1.7 The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) (APFP Regulations) were updated in April 2024, but it should be noted that at this stage the pre-application process of the Proposed Development was underway. Therefore, the updated APFP Regulations have been complied with where possible.
- 1.1.8 Regulation 5 of the APFP Regulations sets out the documents that all DCO applications must include. The APFP Regulations also provide at Regulation 5(2)(q) for the submission of “any other documents considered necessary to support the application” as well as at Regulation 5(2)(o) for “any other plans, drawings and sections necessary to describe the proposals”.
- 1.1.9 Regulation 6 of the APFP Regulations sets out the specific documentation required in support of draft DCO applications for particular types of development, including generating stations and grid connections.
- 1.1.10 The Proposed Development constitutes an Environmental Impact Assessment (EIA) development, and therefore the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the EIA Regulations) and requirements contained therein apply.

1.2 The Applicant

- 1.2.1 The Applicant is Springwell Energyfarm Limited, a joint venture between EDF Renewables UK and Luminous Energy.
- 1.2.2 EDF Renewables UK, a subsidiary of EDF's Group, is one of the world's largest low-carbon electricity companies. EDF Renewables UK has an operating portfolio of 38 renewable energy sites, including solar, battery, onshore and offshore wind and is providing much-needed affordable and low-carbon electricity. EDF's Renewables UK investment and innovation are reducing costs for customers and bringing significant benefits to communities. EDF Renewables UK invests in projects and the communities where they operate for the long term. EDF Renewables UK remains involved in projects over its lifetime, from development, construction, and operation all the way through to decommissioning.
- 1.2.3 Luminous Energy, founded in 2013, is an established UK-based renewable energy developer with projects in the UK, US, Chile, and Australia. Luminous Energy is now regarded as a leading player in the market, having delivered 1GW of projects globally, and the company's core values of providing people around the world with affordable, renewable energy remain firmly at the heart of the business.

1.3 Structure of this document

- 1.3.1 The structure of this Guide to the Application is as follows:
- Section Two provides an overview of the Proposed Development;
 - Section Three issues an overview of the documents that form part of the Application for Development Consent. It specifically discusses the numbering conventions used and the control documents;
 - Section Four sets out the requirements of part one for a DCO application, including the application form, etc.;
 - Section Five discusses the key plans, drawings and sections provided for the DCO Application;
 - Section Six explains the draft Development Consent Order, and the proposed articles associated with this;
 - Section Seven summarises the compulsory acquisition information submitted alongside the DCO Application;
 - Section Eight briefly explains the key reports and statements for the Application, including the Consultation Report and associated appendices;
 - Section Nine sets out the approach taken for the Environmental Statement and references the relevant appendices and figures submitted alongside the main statement;
 - Section 10 sets out the other documents that have been submitted alongside the Application; and
 - Appendix 1 includes a document schedule of all documents submitted with the Application.

2 The Proposed Development

2.1 Proposed Development Description

- 2.1.1 Springwell Solar Farm is a proposed solar farm that will generate energy for export to the National Grid (the 'Proposed Development').
- 2.1.2 The Proposed Development comprises the construction, operation and maintenance, and decommissioning of a solar PV array electricity generating facility with a total capacity exceeding 50MW in approximately 1280 ha of land within Lincolnshire. **Chapter 3 of the Environmental Statement [EN010149/APP/6.1]** contains a full description of the Proposed Development.
- 2.1.3 The main objective of the Proposed Development is to generate low-carbon renewable energy that can contribute to addressing the urgent need to decarbonise the UK's energy supply. The **Statement of Need [EN010149/APP/7.1]** provides further details.

2.2 The Order Limits

- 2.2.1 The Order limits are shown on the **Location, Order Limits and Grid Coordinate Plans [EN010149/APP/2.1]**, **Land Plans [EN010149/APP/2.2]** and **Works Plans [EN010149/APP/2.3]** which accompany this Application.
- 2.2.2 The Proposed Development comprises approximately 1280 ha of land that is located within the administrative areas of North Kesteven District Council (NKDC) and Lincolnshire County Council (LCC).

3 Overview of Application Documents

- 3.1.1 The documents submitted as part of the Application have been grouped into the below document parts noted within Table 3.1 to accord with the Planning Inspectorate's (PINS) Nationally Significant Infrastructure projects: Advice on the Preparation and Submission of Application Documents published in August 2024.

Table 3.1 - Guide to the Parts of the Application

Document Part	Context
Part 1 – Application Forms	Contains the completed application form, the Application cover letter, this Guide, the electronic application index, and the section 55 checklist completed by the Applicant demonstrating the Application can be accepted pursuant to section 55 of the PA 2008.
Part 2 – Plans, Drawings and Sections	Contains relevant plans for the Proposed Development, as required by the APFP Regulations and other plans provided to support the Application.
Part 3 – Draft Development Consent Order (DCO)	Contains the draft Statutory Instrument containing the legal powers the Applicant is seeking, together with the Explanatory Memorandum and Other Consents and Licenses document explaining the provisions of the DCO and how other required consents will be obtained.
Part 4 – Compulsory Acquisition Information	Provides evidence for why legal powers of compulsory acquisition are sought, as well as information on how the Proposed Development is to be funded and details of the land interests that are required for the Proposed Development.
Part 5 – Reports and Statements	Contains the consultation report and its supporting appendices relating to the pre-application consultation undertaken on the Proposed Development and how consultation feedback has been taken into account.
Part 6 – Environmental Statement	Provides environmental information and an assessment of the likely significant effects of the Proposed Development, as well as a description of proposed mitigation measures.
Part 7 – Additional prescribed information for specific types of projects	Contains additional documents pertaining to the Proposed Development, required by Regulation 6 of the APFP Regulations and considered by the Applicant to be required to support the application in accordance with Regulation 5(2)(q) of the APFP Regulations.

- 3.1.2 The remainder of this Guide (sections 4 to 10) provides a summary of the purpose of the documents and plans included within each part described in Table 3.1 above.
- 3.1.3 In addition, Appendix 1 of this Guide provides a document schedule, which is a live document that will be updated during subsequent stages of the application should additional documents be required or updates be made to documents.

- 3.1.4 A copy of all of the application submission documents will be available on the PINS website following acceptance from the Secretary of State.

3.2 Document Numbering

- 3.2.1 Documents are numbered in sequence within the respective parts (as outlined in Appendix A of this Guide), with the part number being the first digit of a document number. This is followed, where relevant, by the document number, the chapter and/or Appendix number.

3.3 Control Documents

- 3.3.1 The DCO Application contains a number of Control Documents which establish the parameters, consenting envelope and secure the mitigation for the Proposed Development. These are proposed to be secured by the Development Consent Order and are as follows:

- Works Plans [EN010149/APP/2.3];
- Street, Rights of Way and Access Plans [EN010149/APP/2.4.2];
- Illustrative Layout Plans and Sections [EN010149/APP/2.5.2];
- Traffic Regulations Plans [EN010149/APP/2.6];
- Design Commitments [EN010149/APP/7.4];
- Outline Construction Environmental Management Plan [EN010149/APP/7.7];
- Outline Construction Traffic Management Plan [EN010149/APP/7.8];
- Outline Landscape and Ecology Management Plan [EN010149/APP/7.9];
- Outline Operational Environmental Management Plan [EN010149/APP/7.10];
- Outline Soil Management Plan [EN010149/APP/7.11];
- Outline Public Rights of Way and Permissive Paths Management Plan [EN010149/APP/7.12];
- Outline Decommissioning Management Plan [EN010149/APP/7.13];
- Outline Battery Safety Management Plan [EN010149/APP/7.14];
- Outline Written Scheme of Investigation [EN010149/APP/7.15] and
- Outline Skills, Supply Chain and Employment Plan [EN010149/APP/7.20].

- 3.3.2 The list above forms part of the list of Certified Documents set out at Schedule 13 of the **Draft DCO [EN010149/APP/3.1]**, which includes other documents such as the **Land Plans [EN010149/APP/2.2]** that form the overarching legal controls for the Proposed Development.

- 3.3.3 Some Control Documents are Compliance Documents and must be complied with when certain activities are carried out. These are:

- Works Plans [EN010149/APP/2.3];
- Street, Rights of Way and Access Plans [EN010149/APP/2.4.2];
- Illustrative Layout Plans and Sections [EN010149/APP/2.5.2];

- Traffic Regulations Plans [EN010149/APP/2.6];
- Design Commitments [EN010149/APP/7.4];

3.3.3. The remaining Control Documents provide a framework for the production of more detailed strategies, as set out in Section 3.4 below.

3.4 Management Plans

- 3.4.1 The outline Management Plans included within Part 7: Additional prescribed information for specific types of projects provide the framework and overarching principles for mitigation during both the construction, operation (and maintenance), and decommissioning phases of the Proposed Development.
- 3.4.2 The **Draft DCO [EN010149/APP/3.1]** includes Requirements that secure further detailed management plans where necessary. These detailed management plans are required to be submitted to and approved by an identified statutory body. Table 3.2 below sets out to which phases of the Proposed Development each outline management plan applies.

Table 3.2 – Outline Management Plans and Applicable Project Phases

Document	Construction	Operation	Decommissioning
Outline Construction Environmental Management Plan [EN010149/APP/7.7]	X		
Outline Construction Traffic Management Plan [EN010149/APP/7.8]	X		
Outline Landscape and Ecology Management Plan [EN010149/APP/7.9]	X	X	X
Outline Operational Environmental Management Plan [EN010149/APP/7.10]		X	
Outline Soil Management Plan [EN010149/APP/7.11]	X	X	X
Outline Public Rights of Way and Permissive Paths Management Plan [EN010149/APP/7.12]	X	X	X
Outline Decommissioning Management Plan [EN010149/APP/7.13]			X
Outline Battery Safety Management Plan [EN010149/APP/7.14]	X	X	X
Outline Written Scheme of Investigation [EN010149/APP/7.15]	X		
Outline Skills, Supply Chain and Employment Plan [EN010149/APP/7.20]	X	X	X

4 Part 1 – Application Form

- 4.1.1 The **Application Cover Letter [EN010149/APP/1.1]** provides a brief description of the Proposed Development, its location, and a general introduction to the Application.
- 4.1.2 The purpose of this **Guide to the Application [EN010149/APP/1.2.2]** is referred to above in section 1.1.
- 4.1.3 The **Application Form [EN010149/APP/1.3]** is the standard application form required by Section 37(3)(b) of the PA 2008 to be submitted with the application. It provides a high-level summary of the Proposed Development and the documents that have been submitted for the Applicant's DCO Application.
- 4.1.4 A **Section 55 Checklist [EN010149/APP/1.4]** is included to demonstrate how the Application fulfils the conditions for acceptance by the Inspectorate under Section 55 of the PA 2008.
- 4.1.5 The **Electronic Application Index [EN010149/APP/1.5]** is the ordered list of all documents and information submitted with the Application. It provides a plain English description of the information contained in each document, electronic file names, reference numbers for each document, and the relevant regulation reference.

5 Part 2 – Plans, Drawings and Sections

- 5.1.1 In addition to the **Location, Order Limits and Grid Coordinate Plan [EN010149/APP/2.1]**, six additional plans are submitted as part of the Application. In accordance with Regulation 5(4) of the APFP Regulations, where there are three or more separate drawing sheets, a key plan is provided to enable the reader to understand the relationship between the different sheets.
- 5.1.2 The **Land Plans [EN010149/APP/2.2.2]** illustrate the land required for or affected by the Proposed Development. This includes (a) land over which it is proposed to exercise powers of compulsory acquisition or any right to use land (b) land in which it is proposed to extinguish easements, servitudes, and other private rights and (c) land over which temporary possession is sought. These plans correspond to the **Book of Reference [EN010149/APP/4.3]**.
- 5.1.3 The **Works Plans [EN010149/APP/2.3]** demonstrate the relationship between the proposed location of the Proposed Development and the limits of deviation within which the development and works may be carried out. The areas on the Works Plans are numbered, and these correspond to the numbered works set out in Schedule 1 of the **Draft DCO [EN010149/APP/3.1]** which are proposed to be authorised by the DCO.
- 5.1.4 The **Streets, Rights of Way and Access Plans [EN010149/APP/2.4.2]** illustrate any new or altered means of access, permanent and temporary alteration of streets, street works and authorisation of use of motor vehicles over public rights of way.
- 5.1.5 **Illustrative Layout Plans and Sections [EN010149/APP/2.5.2]** are provided to demonstrate the anticipated design and layout of the Proposed Development.
- 5.1.6 The **Traffic Regulations Plans [EN010149/APP/2.6]** (two sets: road closures, temporary measures) show details of temporary speed changes, temporary traffic signals, temporary road closures and public rights of way closures required for the Proposed Development.
- 5.1.7 **Crown Land Plans [EN010149/APP/2.7]** are provided to demonstrate the land within the Order Limits which belongs to the Ministry of Defence, who are a Crown Body.
- 5.1.8 Other plans/drawings illustrating the Proposed Development are provided within the **Environmental Statement [EN010149/APP/6.1, 6.2, 6.3 & 6.4]**.

6 Part 3 – Draft Development Consent Order

6.1.1 The **Draft Development Consent Order [EN010149/APP/3.1]** is the draft statutory instrument which contains the legal powers that the Applicant is seeking to enable it to construct, operate (including maintenance), and decommission the Proposed Development, should consent to be granted. It sets out the parameters for what development would be permitted. It is comprised of 44 articles and 16 schedules. The Schedules are outlined below:

- **Schedule 1 (Authorised development)** – lists the works that would be authorised by the grant of development consent, which are shown on the **Works Plans [EN010149/APP/2.3]** and to which the Schedule refers;
- **Schedule 2 (Requirements)** – sets out the conditions that the Applicant would be required to accord with when implementing the development authorised by the DCO;
- **Schedule 3 (Legislation to be disapplied)** – lists the historic legislation that the Applicant is seeking to disapply for the purposes of the Proposed Development.
- **Schedule 4 (Streets subject to street works)** – sets out the streets that would be subject to street works in connection with the development that would be authorised by the DCO;
- **Schedule 5 (Alteration of streets)** – is split into three sections, including the following:
 - Part 1 – Permanent Alteration of layout and maintained by the Highway Authority;
 - Part 2 – Permanent Alteration of layout and maintained by the street authority; and
 - Part 3 – Temporary alteration of layout
- **Schedule 6 (Streets and Public Rights of Way)** – is split into four sections, including the following:
 - Part 1 – Status of public rights of way created or improved;
 - Part 2 – Temporary prohibition or restriction of the use of streets;
 - Part 3 – Temporary prohibition or restriction of public rights of way; and
 - Part 4 – Temporary management of public rights of way.
- **Schedule 7 (Access to Works)** – is split into two parts, containing details of the permanent access, and the other for temporary access that would be created as a result of the Proposed Development.
- **Schedule 8 (Traffic Regulation Measures)** – sets out areas where traffic regulation measures are proposed and is split into four parts, including the following:
 - Part 1 – Temporary Speed Limits;

- Part 2 – Temporary Road Closures;
- Part 3 – Temporary Traffic Signals; and
- Part 4 – Permanent Speed Limits.
- **Schedule 9 (Land in which only new rights etc. may be acquired)** – sets out the land over which the Applicant is seeking to acquire new land rights only rather than acquiring the entire freehold interest in that land. This Schedule should be read in conjunction with the **Land Plans [EN010149/APP/2.2]**;
- **Schedule 10 (Modification of compensation and compulsory purchase enactments for the creation of new rights and imposition of new restrictive covenants)** – amends relevant compulsory purchase legislation to ensure that it can apply to the DCO (particularly in connection with land and rights compulsorily acquired under the DCO);
- **Schedule 11 (Land of which temporary possession may be taken)** – sets out the land of which only temporary possession may be taken, pursuant to Article 28 (Temporary use of land for constructing the authorised development).
- **Schedule 12 (Hedgerows to be removed)** – sets out details of hedgerows to be removed in two parts, including:
 - Part 1 – Removal of hedgerows; and
 - Part 2 – Removal of important hedgerows.
- **Schedule 13 (Documents and Plans to be Certified)** - contains a list of documents that would be ‘certified’ if the DCO is made by the Secretary of State.
- **Schedule 14 (Arbitration Rules)** – sets out the arbitration process for how any differences under any provision of the DCO will be resolved.
- **Schedule 15 (Protective Provisions)** – sets out protective provisions for the benefit of statutory undertakers whose equipment may be affected by the authorised development. This is set out in three parts, including:
 - Part 1 – For the protection of electricity, gas, water and sewerage undertakers;
 - Part 2 – For the protection of operators of electronic communications code networks; and
 - Part 3 – For the protection of drainage authorities.
- **Schedule 16 (Procedure for discharge of requirements)** – provides a bespoke procedure for dealing with an application made to the relevant authority (as defined in the Schedule) for any consent, agreement or approval required or contemplated by the provisions of the DCO. It sets out time periods within which decisions must be made and provides for deemed approval of the applications in certain circumstances. It also makes provision for appeals to be made in the event of a refusal of an application or if the relevant authority requires further information to be provided in relation to that application.

6.1.2 The **Explanatory Memorandum [EN010149/APP/3.2]** to the draft DCO explains the purpose and effect of each provision in the draft DCO including why it is considered

necessary. It also identifies examples of precedents from other DCOs where applicable.

- 6.1.3 The Applicant requires a range of consents and agreements to construct and operate the Proposed Development. As explained in the Explanatory Memorandum to the **Draft Development Consent Order [EN010149/APP/3.1]**, some of these are included in the Order. However, there are other consents from different regulatory organisations that will be required separately from the Order. The need for such consents and how they are to be obtained is explained in the list of **Schedule of Other Consents and Licences [EN010149/APP/3.3]** required under other legislation.

7 Part 4 – Compulsory Acquisition Information

- 7.1.1 Part 4 provides the evidence to justify the legal powers sought for compulsory acquisition as well as information on how the Proposed Development is to be funded. The **Statement of Reasons [EN010149/APP/4.1]** explains that there is a compelling case in the public interest which would justify the Applicant's exercise of powers of compulsory acquisition in order to acquire land and rights permanently and to use land temporarily to enable it to construct, operate (including maintenance) and decommission the Proposed Development. The **Schedule of Negotiations and Powers Sought [EN010149/APP/4.4]** should be read alongside the Statement of Reasons, which sets out the status of negotiations with landowners and the powers sought over the Order land.
- 7.1.2 The **Funding Statement [EN010149/APP/4.2]** details how the Proposed Development, including any compulsory purchase acquisition, would be funded.
- 7.1.3 The **Book of Reference [EN010149/APP/4.3.2]** identifies all the parties who own or occupy land and/or have an interest in or right over the land affected by the Proposed Development and/or who may be entitled to make a 'relevant claim' as defined in Section 57 of the 2008 Planning Act. It is structured in four parts in accordance with the regulatory requirements:
- Part 1: Categories 1 & 2: Owners, Lessees, Tenants, Occupiers, Other Interest, Power to Convey or Release Land;
 - Part 2: Category 3: Section 10 Land Compensation Act 1965 and Part 1 Land Compensation Act 1973;
 - Part 3: Easements or other private rights proposed to be interfered with, suspended or extinguished; and
 - Part 4: Crown Interests.

8 Part 5 – Reports and Statements

8.1.1 Part 5 includes the **Consultation Report [EN010149/APP/5.1]** and its supporting **appendices [EN010149/APP/5.2]**. The Consultation Report explains how the Applicant has complied with the consultation requirements set out in the PA 2008; the APFP Regulations and the EIA Regulations. The report also accords with the guidance set out in 'Planning Act 2008: guidance on the pre-application process' published by the Department for Levelling-Up, Housing and Communities in March 2015 and the Planning Inspectorate's Advice Note Fourteen: Compiling the Consultation Report. However, it should be noted that this guidance is now out of date, and the consultation report has also been in accordance with the Nationally Significant Infrastructure Projects: Advice on the Consultation Report published in August 2024, and the Nationally Significant Infrastructure Projects: 2024 Pre-Application prospectus where relevant.

8.1.2 The **Consultation Report [EN010149/APP/5.1]** is structured as follows:

- Chapter 1 – Introduction
- Chapter 2 – Phase one consultation 2023
- Chapter 3 – Stakeholder and community engagement
- Chapter 4 – Approach to statutory consultation and development of the SoCC
- Chapter 5 – Phase two consultation 2024
- Chapter 6 – Responses to phase two consultation
- Chapter 7 – Additional targeted consultation
- Chapter 8 – Conclusion

8.1.3 **Appendices of the Consultation Report [EN010149/APP/5.2]** are included within the report as follows:

- Appendix A-1 to A-4
- Appendix B-1 to B-3
- Appendix C-1 to C-4
- Appendix D-1 to D-4
- Appendix E-1 to F-1
- Appendix G-1 to G-3
- Appendix H-1
- Appendix I-1
- Appendix J-1 to J-2
- Appendix K-1 to K-3
- Appendix L-1
- Appendix M-1 to M-2

9 Part 6 – Environmental Statement

- 9.1.1 The Applicant has conducted an Environmental Impact Assessment for the Proposed Development to consider what significant effects the Proposed Development is likely to have on the surrounding environment.
- 9.1.2 Part 6 reports the findings of the EIA within the **Environmental Statement (ES) [EN010149/APP/6.1]** and its supporting **figures [EN010149/APP/6.2]** and **appendices [EN010149/APP/6.3]**. A non-technical summary of the ES has also been submitted as a stand-alone document **[EN010149/APP/6.5]**.
- 9.1.3 Volume 1 of the **Environmental Statement [EN010149/APP/6.1]** is formed of the following chapters:

Chapters of the Environmental Statement

Chapter 00 – Glossary

Chapter 1 – Background and Context

Chapter 2 – Location of the Proposed Development

Chapter 3 – Proposed Development Description

Chapter 4 – Reasonable Alternatives Considered

Chapter 5 – Approach to the EIA

Chapter 6 – Air Quality

Chapter 7 – Biodiversity

Chapter 8 – Climate

Chapter 9 – Cultural Heritage

Chapter 10 – Landscape and Visual

Chapter 11 – Land, Soil and Groundwater

Chapter 12 – Noise and Vibration

Chapter 13 - Population

Chapter 14 - Traffic and Transport

Chapter 15 - Water

Chapter 16 – Cumulative Effects

Chapter 17 – Mitigation Schedule

9.1.4 Volume 2 of the **Environmental Statement [EN010149/APP/6.2]** includes the relevant figures which support the findings discussed within the Environmental Statement. All relevant figures for each topic specific chapter have been grouped for the submission. However, the exhaustive list of figures is as follows:

Figures of the Environmental Statement	Grouped for submission
Figure 1.1 - Location Plan	Background and Context Figures
Figure 1.2 - Order Limits	
Figure 2.1 - Environmental Considerations	Location of the Proposed Development Figures
Figure 2.2 - Existing Public Rights of Way	
Figure 3.1 - Zonal Masterplan	Proposed Development Description Figures

9.1.5 Volume 3 of the **Environmental Statement [EN010149/APP/6.3]** includes the relevant Appendices which support the findings discussed within the Environmental Statement. Some of the Appendices have been grouped together and these are set out below. However, the exhaustive list of Appendices is as follows:

Appendices of the Environmental Statement	Grouped for submission
Appendix 1.1 - Statement of Competence	n/a
Appendix 3.1 - Project Parameters	n/a
Appendix 5.1 - Scoping Report	n/a
Appendix 5.2 - Scoping Opinion	n/a
Appendix 5.3 - Scoping Opinion Response Matrix	Scoping Opinion Response Matrix
Appendix 5.3a - Scoping Opinion Response Matrix PINS	
Appendix 5.3b - Scoping Opinion Response Matrix Statutory Consultees	
Appendix 5.4 - Glint and Glare Study	n/a
Appendix 5.5 – High-Level Electromagnetic Field Assessment	n/a
Appendix 6.1 - Air Quality Stakeholder Engagement Activities	n/a
Appendix 6.2 - Air quality Assessment	n/a
Appendix 7.1 - Preliminary Ecological Appraisal	n/a

Appendix 7.2 - Breeding Bird Survey Report	n/a
Appendix 7.3 - Wintering Bird Survey Report	n/a
Appendix 7.4 - Barn Owl Survey - Confidential	n/a
Appendix 7.5 - Bat Activity Survey Report	n/a
Appendix 7.6 – Bat Activity Survey Addendum	n/a
Appendix 7.7 - Riparian Mammal and Aquatic Habitat Assessment	n/a
Appendix 7.8 – Notable Arable Flora Survey	n/a
Appendix 7.9 - Local Wildlife Site Verges Survey	n/a
Appendix 7.10 - Badger Survey - Confidential	n/a
Appendix 7.11 - Important Hedgerow Survey Report	n/a
Appendix 7.12 - Arboricultural Impact Assessment	n/a
Appendix 7.13 - Further Targeted Bat Activity Surveys	n/a
Appendix 7.14 - Biodiversity Net Gain Assessment	n/a
Appendix 8.1 - Raw Data and Emission Factors	n/a
Appendix 9.1 - Archaeological Desk-Based Assessment and Stage 1 Setting Assessment	n/a
Appendix 9.2 - Geoarchaeological Deposit Modelling Report	n/a
Appendix 9.3 - Aerial Investigation Report	n/a
Appendix 9.4 - Geophysical Survey Report	n/a
Appendix 9.5 - Archaeological Trial Trenching Report	n/a
Appendix 10.1 - Landscape and Visual Methodology and Assessment Criteria	n/a
Appendix 10.2 - Baseline Landscape Character Appraisal	n/a
Appendix 10.3 - Landscape Sensitivity Appraisal	n/a
Appendix 10.4 - Viewpoint Analysis	n/a
Appendix 10.5 - Residential Visual Amenity Assessment	n/a
Appendix 11.1a - Springwell West Agricultural Land Classification	n/a

Appendix 11.1b - Springwell East Agricultural Land Classification	n/a
Appendix 11.1c - Springwell Central Agricultural Land Classification	n/a
Appendix 11.2 - Preliminary Risk Appraisal	n/a
Appendix 11.3 - Detailed UXO Risk Assessment	n/a
Appendix 12.1 - Baseline Noise Survey Results	n/a
Appendix 12.2 - Construction Noise Plant Tables and Results	n/a
Appendix 12.3 - Operational Equipment Details	n/a
Appendix 14.1 - Transport Assessment	Transport Assessment
Appendix 14.1a – Transport Assessment Annex 1 – Bus Timetables	
Appendix 14.1b – Transport Assessment Annex 2 – Traffic Flow Diagrams	
Appendix 14.1c – Transport Assessment Annex 3 – J10 Outputs	
Appendix 14.1d – Transport Assessment Annex 4 – NHRR Plan	
Appendix 14.1e – Transport Assessment Annex 5 – Signalised Junction Report	
Appendix 15.1 - WFD Waterbodies Stage 1 Screening Technical Note	n/a
Appendix 15.2- WFD Engagement	n/a
Appendix 16.1 - Long List of Other Approved and or Existing Developments	n/a

- 9.1.6 Volume 4 of the **Environmental Statement [EN010149/APP/6.4]** includes the landscape visualisations which support the Environmental Statement.
- 9.1.7 Finally, Volume 5 of the **Environmental Statement [EN010149/APP/6.5]** includes the Non-Technical summary.
- 9.1.8 **Appendix 7.14: Biodiversity Net Gain Assessment of the Environmental Statement [EN010149/APP/6.1]** is a Biodiversity Net Gain Assessment which presents the predicted biodiversity net gain that could be delivered by the Proposed Development.
- 9.1.9 **Appendix 14.1: Transport Assessment of the Environmental Statement [EN010149/APP/6.1]** provides a Transport Assessment of the Proposed Development.
- 9.1.10 Other documents within Part 6 of the application include **Chapter 17: Mitigation Schedule [EN010149/APP/6.1]**.

10 Part 7 – Other Documents

- 10.1.1 Part 7 provides other documents which the Applicant has submitted to adhere to the APFP Regulations and/or which are considered by the Applicant to be required to support the Application.
- 10.1.2 The **Statement of Need [EN010149/APP/7.1]** explains the need for the Proposed Development and extends the case made in the National Policy Statements relevant to energy infrastructure for low carbon energy generation which is of critical national priority. It draws upon established and emerging primary analysis and opinion by respected third parties, to support the case that the Proposed Development is required to ensure that the UK remains on track to meet its legally binding carbon emissions reduction targets while enhancing national security of supply, and at a cost which, in relation to other electricity generation infrastructure developments, provides value for money for end-use consumers.
- 10.1.3 The **Planning Statement [EN010149/APP/7.2.2]** details the Proposed Development compliance with the relevant planning policy framework at national and local levels and other matters which the Applicant considers are important and relevant to the Secretary of State's decision. As part of the Planning Statement, there are five appendices including a Site Selection Report, Mineral Safeguarding Assessment, Policy Compliance Assessment Tables, Planning History and Heritage Harm Statement.
- 10.1.4 The **Design Approach Document [EN010149/APP/7.3]** provides information regarding the context of the Proposed Development's location and context, the design approach and evolution, the green infrastructure strategy, and the detailed design process.
- 10.1.5 The **Design Commitments [EN010149/APP/7.4]** document provides information of the detailed design of the Proposed Development. Commitments are required to secure elements of the design that are not covered within the control documents listed above. The commitments will be secured via a requirement of the draft DCO.
- 10.1.6 The **Statutory Nuisance Statement [EN010149/APP/7.5]** identifies the matters set out in Section 79 of the Environmental Protection Act 1990 in respect of statutory nuisances and considers whether the Proposed Development would engage one or more of those matters, as required by Regulation 5(2)(f) of the APFP Regulations. Where any matters may be potentially engaged, this statement sets out its proposals for mitigating or limiting them.
- 10.1.7 The **Grid Connection Statement [EN010149/APP/7.6]** has been submitted in accordance with Regulation 6(1)(a)(i) of the APFP Regulations. It outlines the details for connecting the solar PV arrays to the National Grid.
- 10.1.8 The **Outline Construction Environmental Management Plan [EN010149/APP/7.7]** sets out the measures that will be included in a detailed Construction Environmental Management Plan to control potential environmental and amenity impacts of construction. In addition, the management plan provides a framework for construction environmental controls. Finally, appended to the management plan is the Outline Waste Management Plan, Cabling and Grid Connection Method and the HDD Fluid Breakout Plan.
- 10.1.9 The **Outline Construction Traffic Management Plan [EN010149/APP/7.8]** sets out the measures that will be provided in a detailed Construction Traffic Management Plan

for the traffic generated during the Proposed Development's construction phase. Appended to this management plan will be an Outline Travel Plan.

- 10.1.10 The **Outline Landscape and Ecology Management Plan [EN010149/APP/7.9]** provides a framework for delivering the Green Infrastructure elements of the Proposed Development for the pre-construction and operational phase of the development including the successful establishment and future management of the proposed landscape and ecological works for the duration of its operation. Appended to this management plan includes the Green Infrastructure Parameters, Vegetation Removal Parameters, Management Programme Schedule, and the Indicative Seed Mixes.
- 10.1.11 The **Outline Operational Environmental Management Plan [EN010149/APP/7.10]** sets out the measures that will be included in a detailed Operational Environmental Management Plan to control potential environmental and amenity impacts of the operation of the Proposed Development. In addition, the management plan provides a framework for operational environmental controls.
- 10.1.12 The **Outline Soil Management Plan [EN010149/APP/7.11]** sets out the principal construction and decommissioning activities that will be included in a detailed Soil Management Plan (including Excavated Materials Management Plan) and the measures that will be followed during these stages. This will be a live document, and where necessary, modifications can be made as construction and decommissioning phases are carried out.
- 10.1.13 The **Outline Public Rights of Way and Permissive Paths Management Plan [EN010149/APP/7.12]** sets out the measures that will be included in a detailed Public Rights of Way and Permissive Paths Management Plan required during the construction and operation phases of the Proposed Development to adequately protect water resources.
- 10.1.14 The **Outline Decommissioning Environmental Management Plan [EN010149/APP/7.13]** sets out the measures that will be included in a detailed Decommissioning Environmental Management Plan to control potential environmental and amenity impacts of decommissioning. In addition, the management plan provides a framework for decommissioning environmental controls.
- 10.1.15 The **Outline Battery Safety Management Plan [EN010149/APP/7.14]** sets out the risks associated with BESS fires and sets out the commitments/measures proposed to minimise the impact of such an incident during construction, operation and decommissioning of the scheme.
- 10.1.16 The **Outline Written Scheme of Investigation [EN010149/APP/7.15]** sets out the outline scope of a proposed programme of further trial trenching evaluation for the Scheme to inform the detailed design and which will be secured as a DCO Requirement.
- 10.1.17 The **Flood Risk Assessment [EN010149/APP/7.16.2]** sets out the flood risk associated with the Proposed Development and sets out any suitable mitigation being proposed. Appended to this assessment is the Outline Drainage Strategy.
- 10.1.18 The **HRA No Significant Effects Report (NSER) [EN010149/APP/7.17]** identifies any internationally designed nature conservation sites within the potential zone of influence of the Proposed Development and to determine whether any potential impact pathways between the Proposed Development and any of these internationally designated sites exist.

- 10.1.19 The **Equality Impact Assessment [EN010149/APP/7.18]** considers the potential equality impacts related to the application for the construction, operation (including maintenance) and decommissioning of the Proposed Development.
- 10.1.20 The **BESS Plume Assessment [EN010149/APP/7.19]** provides an assessment of the potential credible worst case air quality impacts of a fire incident at the proposed BESS Compound.
- 10.1.21 The **Outline Skills, Supply Chain and Employment Plan [EN010149/APP/7.20]** outlines how the Applicant would promote the delivery of economic benefits generated by the Proposed Development to people and businesses across Greater Lincolnshire.

Appendix 1 – Draft DCO Application Document Schedule

Part	Application Document Reference	APFP Regulation	Document	Grouped Document	Version	Latest doc ref. (if different from submission ref.)	Submission Date
