Dear Sirs

I attach a copy of a letter from Mr Peter Bryant of National Grid sent in tonight’s post to Mr Morrell of Nailsea Town Council which I should be grateful if you would kindly put before the Examining Authority. This was promised at the ISH last week.

Thank you.

Yours faithfully

Nick Brown

27 May 2015  

Dear Mr Morrell  

Re. Hinkley Point C Connection Project ("the Project")  
Plots 652 and 653 as set out in Section D of the Book of Reference being agricultural land adjacent to highway known as Engine Lane, Nailsea ("the Property")  

As promised at the hearing on 20 May 2015, we are responding to your letter dated 14 May 2015.  

At the outset I would like to confirm that we did indeed undertake the work agreed at our meeting on 23 March 2015. It is now clear that our letter to you dated 7 May 2015 did not communicate this plainly, for which I apologise.  

Following the meeting held on 23 March 2015, we used all reasonable endeavours to see whether the 132kV cables could be placed in Engine Lane. The details of the work undertaken and the difficulties encountered have been discussed at the Issues Specific Hearing and subsequently with Colin Chandler at North Somerset Council. We understand you would like the paper detailing these issues to be sent to North Somerset Council for their comments. Once we have received comments from North Somerset Council which I am sure they will share with you, we will forward a copy of the paper to you. If you would like a copy of the paper now please do let me know.  

We will be asking PINS to place this letter before the Examination.  

Yours sincerely
