APPENDIX H1: Section 47 Notice

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
BRAMFORD TO TWINSTEAD
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA, has now published a Statement of Community Consultation for the Bramford to Twinstead project in accordance with section 47 of the Planning Act 2008 (as amended).

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To

facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

The project will include:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East,

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
BRAMFORD TO TWINSTEAD**

NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

Dedham Vale West, Stour Valley East and Stour Valley West).

- iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler’s Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks;
- d) Removal of approximately 2.5 km of existing 400 kV overhead line;
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access 0220 and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.

- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

Under section 47 of the Planning Act 2008, NGET has a duty to consult the community on its proposals. The Statement of Community Consultation explains how NGET will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

The consultation will take place between 25 January 2022 and 21 March 2022.

Between those dates the Statement of Community Consultation is available to view free of charge on the project website at:

Reference copies of the Statement of Community Consultation and all other consultation materials will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following locations in the vicinity of the project:

Location	Opening hours*

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
BRAMFORD TO TWINSTEAD
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY
CONSULTATION**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA, has now published a Statement of Community Consultation for the Bramford to Twinstead project in accordance with section 47 of the Planning Act 2008 (as amended).

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

The project will include:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks;
- d) Removal of approximately 2.5 km of existing 400 kV overhead line;
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

Under section 47 of the Planning Act 2008, NGET has a duty to consult the community on its proposals. The Statement of Community Consultation explains how NGET will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

The consultation will take place between 25 January 2022 and 21 March 2022.

Between those dates the Statement of Community Consultation is available to view free of charge on the project website at: www.nationalgrid.com/bramford-twinstead

Reference copies of the Statement of Community Consultation and all other consultation materials will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following locations in the vicinity of the project:

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING
(APPLICATIONS: PRESCRIBED FORMS AND PROCEDURES) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER
FOR THE BRAMFORD TO TWINSTEAD PROJECT**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-twinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library , 29 High St, Hadleigh, Ipswich IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm Thursday – 9am-6pm • Saturday – 9:30am-5pm Sunday – 10am-4pm
Sible Hedingham Library , 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday – 9am to 5pm • Tuesday – 9am to 7:30pm Wednesday – 9am to 5pm • Thursday – 9am to 5pm Friday – 9am to 5pm • Saturday – 9am to 5pm • Sunday – Closed
Sudbury Library , Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday – 9am-5pm Tuesday – 9am-7:30pm • Sunday – 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £220 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- completing a feedback form online via the consultation website www.nationalgrid.com/bramford-twinstead
- completing a paper feedback form or a free text response and posting to Freepost B TO T REINFORCEMENT
- emailing us a copy of your completed feedback form or free text response to contact@bramford-twinstead.nationalgrid.com
- scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-twinstead.nationalgrid.com

National Grid must receive all responses by 23:59 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

National Grid may be required to make copies of representations available to the Secretary of State. However, National Grid will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the Data Protection Act 2018 and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

- AND OTHER APPLICATIONS:**
- 01/FUL** - rear security fence, 39 High Street Haverhill (LB)
15/FUL - one building for storage and production, Two Courtyard 1 To 3 Falconer Road, Haverhill (PROW)
20/FUL - removal of internal lobby and installation of new internal lobby, Bury St Edmunds (LC)
61/FUL - Planning application - two dwellings, The Swarwell (PROW)(SLB)(C)
87/FUL - a. retractable canopy over rear garden area b. inset front lightwell c. opening hours to be Monday - Friday (C) 09:00 - 01:30 and Sunday/Bank Holidays 09:00 - 00:30, 17 St Edmunds, Suffolk (LC)
89/ADV - a. replacement non-illuminated over door glazing internally illuminated menu box c. internally illuminated bbbeygate Street Bury St Edmunds, Suffolk (LC)
95/FUL & DC/21/2496/LB - a. porch extension; b. open up garden area to incorporate ground floor WC and removal of fire secure glazing with clear glass; c. remove wall between office and garden to create larger living area; d. re-render gable and line porch and second floor, 18A Hatter Street Bury St Edmunds (LB)
00/FUL - a. conversion of existing former police station into 17 self contained flats and one detached dwelling b. access road, Police Station Vicarage Road, Newmarket (M)
03/OUT - Outline planning application (means of access to buildings with vehicular and pedestrian access, Land At Barton Road, Brandon (TPO)
04/FUL - a. change of use of barn for holiday let; b. external glazing, Depden (SLB)
25/FUL - a. bay window at number 10; b. install pitched roof numbers 10 and 11, 10 Brittons Crescent Barrow (PROW)
APPEAL APPLICATIONS:
of an appeal against refusal of planning permission for which is dealt with on the basis of written representations made will be sent to the Secretary of State and there will be a public hearing on the appeal stage.
97/HH - two storey side and front extensions, 3 Colbeck Row (PROW)
09/HH - single storey rear extension, Hill View Euston Road, 17/HH - single storey rear and side extension, 17 West 1st Street (C)
01/HH - replacement front entrance gates, The Old Stable at Barton (CLB)

Council, West Suffolk House, Western Way, Bury St. Edmunds and associated documentation can be viewed via <https://planning.westsuffolk.gov.uk/online-applications/>. Representations should be submitted within 21 days of the date of this notice by using our online website, by e-mail to planning.technical@westsuffolk.gov.uk or by post to Planning & Growth, West Suffolk House, Western Way, Bury St. Edmunds.

Representations received will be published on our website where they are relevant and copying will be used in connection with the determination of the application including an appeal. If you have any questions about the project or the consultation, please get in touch:

Director (Planning & Growth)

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
BRAMFORD TO TWINSTEAD

NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY CONSULTATION

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA, has now published a Statement of Community Consultation for the Bramford to Twinstead project in accordance with section 47 of the Planning Act 2008 (as amended).

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

The project will include:

- The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - Modifications to, and realignment of sections of the existing 400 kV overhead line.
- Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks;
- Removal of approximately 2.5 km of existing 400 kV overhead line;
- Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- Diversion of third-party assets and land drainage for the construction and operational footprint.

Under section 47 of the Planning Act 2008, NGET has a duty to consult the community on its proposals. The Statement of Community Consultation explains how NGET will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

The consultation will take place between 25 January 2022 and 21 March 2022.

Between those dates the Statement of Community Consultation is available to view free of charge on the project website at: www.nationalgrid.com/bramford-twinstead

Reference copies of the Statement of Community Consultation and all other consultation materials will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following locations in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High Street Hadleigh, IP7 5AG	Tuesday, Wednesday, Friday - 9am-5pm Thursday - 9am-6pm Saturday - 9:30am-5pm Sunday - 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday - 9am-1pm Thursday - 2pm-7pm Saturday - 9am-5pm
Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday - 9am-5pm Tuesday - 9am-7:30pm Sunday - 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

SUFFOLK COUNTY COUNCIL
ROAD TRAFFIC REGULATION ACT 1984: SECTION 14

TEMPORARY CLOSURE OF PART OF THE C426 STATION ROAD, BENTLEY

Suffolk County Council has made an order closing the C426 Station Road, Bentley from 20 metres west of the railway crossing to 20 metres east of the railway crossing to facilitate new electrical connections. Other co-ordinated works may also take place during this period. Access will be open for pedestrians and cyclists. The diversion route will be the A137, Church Road and vice versa. It is intended that the closure will operate from 22/01/2022 - 23/01/2022 but if necessary, the order may remain in force for 18 months (or longer if extended by the Minister). Enquiries should be made to TMO Highways Limited. Tel: (01379) 676462.

TEMPORARY CLOSURE OF PART OF THE U4623 CAPTAINS LANE, WETHERDEN

Suffolk County Council has made an order closing the U4623 Captains Lane, Wetherden from the railway line for 20 metres southbound and 20 metres northbound to facilitate railway bridge survey. Other co-ordinated works may also take place during this period. Access will be open for pedestrians and cyclists. The diversion route will be Captains Lane, Emswell Road, Church Street, Base Green, Plashwood Road, Duke Street, Green Road, Haughtley Green, Bacton Green, Rectory Road, The Street, Wyverstone Road, Church Hill, Rectory Road, The Street, Badwell Road, Wyverstone Road, Long Thurlow, Long Thurlow Road, Daisy Green, Wetherden Road, Upper Town and vice versa.

It is intended that the closure will operate from 10pm on 22/01/2022 until 6am on 23/01/2022 but, if necessary, the order may remain in force for 18 months (or longer if extended by the Minister). Enquiries should be made to Centurion Site Services. Tel: (01132) 776360.

TEMPORARY CLOSURE OF PART OF THE U7337 PARK LANE, GLEMESFORD

Suffolk County Council intends to make an order closing the U7337 Park Lane, Glemesford from Court Farm Cottage for 240 metres northbound to facilitate renewal of a telecommunications pole. Other co-ordinated works may also take place during this period. Access will be open for pedestrians and cyclists. The diversion route will be the A1032, Hobbs Lane and vice versa. It is intended that the closure will operate on 02/02/2022 from 9.30am - 3.30pm but, if necessary, the order may remain in force for 18 months (or longer if extended by the Minister). Enquiries should be made to Sunbelt Rentals. Tel: 0370 050 0792. Email: surveys@sunbeltrentals.co.uk

TEMPORARY CLOSURE OF PART OF FOOTPATH 5, BRAMFIELD
Suffolk County Council intends to make an order closing Footpath 5, Bramfield from Edwards Lane to Bridge Street for safety reasons to facilitate level crossing works. Other co-ordinated works may also take place during this period. Access will be open for pedestrians and cyclists. It is intended that the closure will operate from 11.30pm on 02/02/2022 to 5.30am on 03/02/2022 but, if necessary, the order may remain in force for 6 months (or longer if extended by the Minister). Enquiries should be made to Adele Duncan at Centurion Traffic. Tel: 01132 775380. Email: adele.duncan@centuriontraffic.com

Date: 21/01/2022
Nigel Inness, Head of Legal Services, Suffolk County Council, Constantine House, 5 Constantine Road, Ipswich IP1 2DH

GOODS VEHICLE OPERATOR'S LICENCE

Daffodil Spedition Limited of 74 Sebert Road, Sury St Edmunds, Suffolk IP32 7EG is applying to change an existing licence as follows:

To add an operating centre to keep 10 goods vehicles and 10 trailers at AGGMAX Transport Ltd, Lavn Farm Quarry, Wetherden, Stowmarket IP14 3JU.

Owners or occupiers of land (including buildings) near the operating centre(s) who believe that their use or enjoyment of that land would be affected, should make written representations to the Traffic Commissioner at Hillcrest House, 386 Harehills Lane, Leeds, LS9 6NF, stating their reasons, within 21 days of this notice. Representors must at the same time send a copy of their representations to the applicant at the address given at the top of this notice. A Guide to Making Representations is available from the Traffic Commissioner's office.

KATHLEEN DOROTHY MEDLER (DECEASED)

Pursuant to the Trustee Act 1925 any persons having a claim against or an interest in the Estate of the above named, late of St Michael's Court, St Michael's Avenue, Ayrisham, Norwich NR11 6YA and Beauchamp House, Chedgrave, Norfolk, NR14 6HN, who died on 07/09/2021, are required to send written particulars thereof to the undersigned on or before 22/03/2022, after which date the Estate will be distributed having regard only to the claims and interests of which they have had notice.

APPENDIX H3: Section 48 Notice

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)**

**REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT**

g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.

h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on [REDACTED]

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High Street, Hadleigh, IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm Thursday – 9am-6pm Saturday – 9.30am-5pm Sunday – 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday – 9am-1pm Thursday – 2pm-7pm Saturday – 9am-5pm

Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday – 9am-5pm Tuesday – 9am-7.30pm Sunday – 10am-4pm
---	---

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £220 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- *completing a feedback form online via the consultation website*
[REDACTED]
- *completing a paper feedback form or a free text response and posting to **Freepost B TO T REINFORCEMENT***
- *emailing us a copy of your completed feedback form or free text response to contact@bramford-twinstead.nationalgrid.com*
- *scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-twinstead.nationalgrid.com*

National Grid must receive all responses by 2359 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 47 OF THE PLANNING ACT 2008 (AS AMENDED)
BRAMFORD TO TWINSTEAD
NOTICE OF PUBLICATION OF A STATEMENT OF COMMUNITY
CONSULTATION**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA, has now published a Statement of Community Consultation for the Bramford to Twinstead project in accordance with section 47 of the Planning Act 2008 (as amended).

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

The project will include:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks;
- d) Removal of approximately 2.5 km of existing 400 kV overhead line;
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

Under section 47 of the Planning Act 2008, NGET has a duty to consult the community on its proposals. The Statement of Community Consultation explains how NGET will undertake the consultation, where the consultation documents can be viewed, where public events will be held and how people can comment on the proposals and provide responses to the consultation.

The consultation will take place between 25 January 2022 and 21 March 2022.

Between those dates the Statement of Community Consultation is available to view free of charge on the project website at: www.nationalgrid.com/bramford-twinstead

Reference copies of the Statement of Community Consultation and all other consultation materials will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following locations in the vicinity of the project:

Location	Opening hours*
Hadleigh Library 29 High St, Hadleigh, Ipswich IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm Thursday – 9am-6pm Saturday – 9:30am-5pm Sunday – 10am-4pm

SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING
(APPLICATIONS: PRESCRIBED FORMS AND PROCEDURES) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER
FOR THE BRAMFORD TO TWINSTEAD PROJECT**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400 kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-twinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

NATIONAL GRID ELECTRICITY TRANSMISSION PLC SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - Modifications to, and realignment of sections of the existing 400 kV overhead line.
- Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- Removal of approximately 2.5 km of existing 400kV overhead line.
- Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-twinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High Street, Hadleigh, IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm Thursday – 9am-6pm Saturday – 9.30am-5pm Sunday – 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday – 9am-1pm Thursday – 2pm-7pm Saturday – 9am-5pm
Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday – 9am-5pm Tuesday – 9am-7.30pm Sunday – 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £20 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- completing a feedback form online via the consultation website www.nationalgrid.com/bramford-twinstead
- completing a paper feedback form or a free text response and posting to **Freepost B TO T REINFORCEMENT**
- emailing us a copy of your completed feedback form or free text response to contact@bramford-twinstead.nationalgrid.com
- scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-twinstead.nationalgrid.com

National Grid must receive all responses by 2359 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

National Grid may be required to make copies of representations available to the Secretary of State. However, National Grid will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the Data Protection Act 2018 and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

**NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING
(APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER
FOR THE BRAMFORD TO TWINSTEAD PROJECT**

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West)
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-twinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High St, Hadleigh, Ipswich IP7 5AG	Tuesday, Wednesday, Friday - 9am-5pm Thursday - 9am-6pm • Saturday - 9.30am-5pm Sunday - 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3FX	Monday - 9am to 5pm • Tuesday - 9am to 7.30pm Wednesday - 9am to 5pm • Thursday - 9am to 5pm Friday - 9am to 5pm • Saturday - 9am to 5pm • Sunday - Closed
Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday - 9am-5pm Tuesday - 9am-7.30pm • Sunday - 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £20 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- completing a feedback form online via the consultation website www.nationalgrid.com/bramford-twinstead
- completing a paper feedback form or a free text response and posting to Freepost B TO T REINFORCEMENT
- emailing us a copy of your completed feedback form or free text response to contact@bramford-twinstead.nationalgrid.com
- scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-twinstead.nationalgrid.com

National Grid must receive all responses by 23:59 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

National Grid may be required to make copies of representations available to the Secretary of State. However, National Grid will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the Data Protection Act 2018 and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

NATIONAL GRID ELECTRICITY TRANSMISSION PLC SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED) REGULATION 4, THE INFRASTRUCTURE PLANNING REGULATIONS 2017 (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.

- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on [REDACTED]

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

ENVIRONMENTAL PROTECTION

HIGHWAYS ENGLAND

NOTICE OF DETERMINATION M621 J1 TO J7 JUNCTION IMPROVEMENTS

ENVIRONMENTAL IMPACT ASSESSMENT

DETERMINATION UNDER SECTION 105AB (1)(B) OF THE HIGHWAYS ACT 1980 (AS AMENDED)

Highways England gives notice that it has been determined that the M621 J1 to J7 junction improvements proposal which is a relevant project within the meaning of section 105ZA (2) of the Highways Act 1980 (as amended) is subject to environmental impact assessment in accordance with Part 105A of the Highways Act 1980 (as amended).

This is due to the fact that there are no likely significant effects on the environment when taking into account the characteristics and location of the development, and the type and characteristics of the potential impacts.

Further information on the project and about this notice may be obtained from

James Finnigan, National Highways, City Walk, Leeds LS11 9AT. Tel No: 0300 123 5000 or M621J1to7@highwaysengland.co.uk.

TRANSPORT

HIGH SPEED RAIL (LONDON – WEST MIDLANDS) ACT 2017 COMPULSORY PURCHASE (VESTING DECLARATIONS) ACT 1981 TO: PERSONS HAVING A RELEVANT INTEREST IN THE LAND DESCRIBED IN THE SCHEDULE HERETO

1. The High Speed Rail (London – West Midlands) Act 2017 (“the High Speed Rail Act”) received Royal Assent on 23 February 2017.

2. The Secretary of State for Transport (the “Acquiring Authority”) is authorised under section 4 of the High Speed Rail Act to exercise powers under section 4(1) of the High Speed Rail Act to acquire compulsorily so much of the land within the limits of the High Speed Rail Act as may be required for Phase One purposes¹.

3. By virtue of section 4(4) of the High Speed Rail Act, the Compulsory Purchase (Vesting Declarations) Act 1981 (“the 1981 Act”) applies as if the High Speed Rail Act were a compulsory purchase order.

4. Pursuant to section 3A of the 1981 Act² before making a general vesting declaration (“GVD”) under section 4 of the 1981 Act the Acquiring Authority must, in a notice which is (a) given to every person with a relevant interest in the land with respect to which a GVD is to be made (other than a mortgagee who is not in possession); and (b) published in the London Gazette, include the particulars in section 3A(3) of the 1981 Act³.

5. Notice is hereby given pursuant to section 3A of the 1981 Act⁴.

6. Pursuant to section 3A(3) of the 1981 Act, a Statement of the Effect of Parts 2 and 3 of the 1981 Act is contained in Part 1 of Schedule 2 to this notice, which provides an explanation of the process for and the effect of a GVD in respect of the land described in Schedule 1 hereto. Part 1 of Schedule 2 to this notice also invites any person who would be entitled to claim compensation if a GVD were executed under section 4 of the 1981 Act to give the Acquiring Authority information about the person’s name, address and interest in the land using the form set out in Part 2 of Schedule 2.

SCHEDULE 1

METROPOLITAN BOROUGH OF SOLIHULL

(1) Plot No.	(2) Description
55965	All interests in 3,365.17 square metres, or thereabouts, of private roads, roundabout and verges (The National Exhibition Centre) (Pendigo Way and East Way)
55967	All interests in 1,835.13 square metres, or thereabouts, of pavilion, yard, footways and grassed area (The National Exhibition Centre) (Pendigo Way)
56145	All interests in 66.6 square metres, or thereabouts, of hardstanding (The National Exhibition Centre) (Pendigo Way)

SCHEDULE 2

PART 1

STATEMENT OF EFFECT OF PARTS 2 AND 3 OF THE COMPULSORY PURCHASE (VESTING DECLARATIONS) ACT 1981 POWER TO EXECUTE A GENERAL VESTING DECLARATION

1. The Acquiring Authority may acquire any of the land described in Schedule 1 above by executing a general vesting declaration under section 4 of the Compulsory Purchase (Vesting Declarations) Act 1981 (“the 1981 Act”). This has the effect, subject to paragraphs 3 and 5 below, of vesting the land in the Acquiring Authority at the end of the period mentioned in paragraph 2 below.

NOTICES CONCERNING GENERAL VESTING DECLARATION

2. As soon as may be after the Acquiring Authority executes a general vesting declaration, they must serve notice of it on every occupier of any of the land specified in the declaration (except land where there is one of the tenancies described in paragraph 4) and on every person who gives them information relating to the land in pursuance of the invitation contained in any notice. When the service of notices of the general vesting declaration is completed, a period specified in the declaration, of not less than three months, will begin to run. On the first day after the end of this period the land described in the declaration will, subject to what is said in paragraphs 3 and 5, vest in the Acquiring Authority together with the right to enter on the land and take possession of it. Every person on whom the Acquiring Authority could have served a notice to treat in respect of his interest in the land (other than a tenant under one of the tenancies described in paragraph 4) will be entitled to claim compensation for the acquisition of his interest in the land, with interest on the compensation from the vesting date.

3. The “vesting date” for any land specified in a declaration will be the first day after the end of the period mentioned in paragraph 2 above, unless a counter-notice is served under Schedule A1 to the 1981 Act⁵ within that period. In such circumstances, the vesting date for the land which is the subject of the counter-notice will be determined in accordance with Schedule A1.

MODIFICATIONS WITH RESPECT TO CERTAIN TENANCIES

4. In the case of certain tenancies, the position stated above is subject to modifications. The modifications apply where the tenancy is either a “minor tenancy”, i.e. a tenancy for a year or a yearly tenancy or a lesser interest, or “a long tenancy which is about to expire”. The latter expression means a tenancy granted for an interest greater than a minor tenancy but having on the vesting date a period still to run which is not more than the period specified in the declaration for this purpose (which must be more than a year). In calculating how long a tenancy has still to run, where any option to renew or to terminate it is available to either party, it shall be assumed that the landlord will take every opportunity open to him to terminate the tenancy while the tenant will use every opportunity to retain or renew his interest.

WHO needs 'paradigm shift' in future funding, says director general

Peter Beaumont

The head of the World Health Organization has warned member countries that the UN's global health body is being "set up to fail" and needs a "paradigm shift" in the way that it is funded and supported.

In stark language delivered to the WHO's executive board yesterday, its director general, Dr Tedros Adhanom Ghebreyesus, said that the coronavirus pandemic, which has claimed more than 5.6 million lives, had underlined the need to strengthen health systems as well as pandemic preparedness plans.

Tedros also cautioned that conditions remained ideal for more Covid variants to emerge. "There are different scenarios for how the pandemic could play out and how the acute phase could end," he said.

"But it's dangerous to assume that Omicron will be the last variant

or that we are in the endgame," he added. "On the contrary, globally, the conditions are ideal for more variants to emerge."

He insisted, however, that "we can end Covid-19 as a global health emergency, and we can do it this year", by reaching goals such as the WHO's target of vaccinating 70% of the population of each country by the middle of this year, with a focus on people who are at the highest risk.

"It's true that we will be living with Covid for the foreseeable future and that we will need to learn to manage it through a sustained and integrated system for acute respiratory diseases" to help prepare for future pandemics, he said. "But learning to live with Covid cannot mean that we give this virus a free ride. It cannot mean that we accept almost 50,000 deaths a week from a preventable and treatable disease."

Tedros told members: "Covid-19 has proven that health is not just a national issue; it's an international

▲ Tedros Adhanom Ghebreyesus, the director general of the World Health Organization, in October last year

PHOTOGRAPH: FABRICE COFFRINI/REUTERS

issue. The scale of challenges we face is immense, and is reflected by the breadth of your agenda this week."

Supporters of Tedros's plans say the WHO's reliance on voluntary funding from member states and charities forces it to focus on priorities set by funders, and makes it less able to criticise members when things go wrong. A proposal by the WHO's working group on sustainable financing calls for members' mandatory contributions to rise gradually to account for half the agency's \$2bn core budget by 2028, from less than 20% now.

"For far too long, health has been compartmentalised and

deprioritised, nationally and internationally. It's time to recognise that if we fail to invest in health, we fail to invest in the future," Tedros said.

Addressing long-term concerns over the performance of the organisation, Tedros said that members were within their rights to expect higher standards, including "enhanced governance, efficiency, accountability and transparency", saying that included "zero tolerance for sexual exploitation, abuse and harassment".

This appears to be a reference to a damning report last year that found 21 employees working for the UN global health body were among the perpetrators of serious sexual abuses during the Ebola crisis in the Democratic Republic of the Congo.

The comments appeared directed at concerns - some politically motivated and levelled in particular by the Trump administration, which withdrew from the WHO - around the agency's initial response to the pandemic and research into its origins.

Underlining the continuing scale of the pandemic, Tedros said: "This Sunday marks two years since I declared a public health emergency of international concern - the highest level of alarm under international law - over the spread of Covid-19."

He added: "As it stands, 86 member states across all regions have not been able to reach last year's target of vaccinating 40% of their populations."

'Learning to live with Covid cannot mean that we give this virus a free ride, or accept 50,000 deaths a week'

Tedros Adhanom Ghebreyesus

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).
Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.
It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers. The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-twinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High St, Hadleigh, Ipswich IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm, Thursday – 9am-6pm, Saturday – 9.30am-5pm, Sunday – 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday – 9am-1pm, Thursday – 2pm-7pm, Saturday – 9am-5pm
Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday – 9am-5pm, Tuesday – 9am-7.30pm, Sunday – 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues. Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £20 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- completing a feedback form online via the consultation website www.nationalgrid.com/bramford-twinstead
- completing a paper feedback form or a free text response and posting to **Freepost B TO T REINFORCEMENT**
- emailing us a copy of your completed feedback form or free text response to contact@bramford-twinstead.nationalgrid.com
- scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-twinstead.nationalgrid.com

National Grid must receive all responses by 23:59 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

National Grid may be required to make copies of representations available to the Secretary of State. However, National Grid will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the Data Protection Act 2018 and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

Legal and Public Notices

NATIONAL GRID ELECTRICITY TRANSMISSION PLC
SECTION 48 OF THE PLANNING ACT 2008 (AS AMENDED)
REGULATION 4, THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR THE BRAMFORD TO TWINSTEAD PROJECT

Notice is hereby given that National Grid Electricity Transmission plc (NGET) of National Grid House, Warwick Technology Park, Gallows Hill, Warwick, CV34 6DA intends to apply to the Secretary of State for Business, Energy and Industrial Strategy for a Development Consent Order (DCO) under Section 37 of the Planning Act 2008 (as amended) (the Act) to authorise the construction of the Bramford to Twinstead project.

NGET proposes to reinforce the transmission network between the existing Bramford Substation in Suffolk, and Twinstead Tee in Essex. This would be achieved by the construction and operation of a new 400 kilovolt (kV) electricity transmission line over a distance of approximately 29 km.

The reinforcement would comprise approximately 19 km of overhead line (consisting of approximately 55 new pylons and conductors) and 10 km of underground cable system (consisting of 20 cables with associated joint bays and above ground link pillars).

Four Cable Sealing End Compounds would be required to facilitate the transition between the overhead line and underground cable technology.

It is proposed that approximately 27.5 km of existing overhead line and associated pylons would be removed as part of the proposals (25 km of existing 132 kV overhead line between Burstall Bridge and Twinstead Tee, and 2.5 km of the existing 400 kV overhead line to the south of Twinstead Tee). To facilitate the overhead line removal, a new grid supply point substation is required at Butler's Wood, east of Wickham St Paul, in Essex.

Two options are proposed for the new 400 kV overhead line in the vicinity of Hintlesham Woods. Option 1 would utilise the alignment and pylons of the existing 400 kV overhead line through the woods, whilst the existing 400 kV overhead line would be re-routed to the north and west of Hintlesham Woods. Option 2 would parallel the existing 400 kV overhead line to the south, with pylons located outside of the woodland and the conductors crossing the woods.

Proposed development

The proposed development is comprised of the following principal elements:

- a) The construction of approximately 29 km (Option 1) of 400 kV electricity transmission line from Bramford Substation in Suffolk to Twinstead Tee in Essex (approximately 28 km for Option 2), comprising of:
 - i) Installation of approximately 19 km of 400 kV overhead lines (approximately 18 km in Option 2)
 - ii) Installation of approximately 10 km of 400 kV underground cable, of which approximately 6.3 km would be within the Dedham Vale Area of Outstanding Natural Beauty and the Stour Valley Project Area
 - iii) Construction of four Cable Sealing End Compounds along the route (Dedham Vale East, Dedham Vale West, Stour Valley East and Stour Valley West).
 - iv) Modifications to, and realignment of sections of the existing 400 kV overhead line.
- b) Construction and operation of a new 400 kV/132 kV grid supply point substation and single circuit Cable Sealing End Compound at Butler's Wood east of Wickham St Paul in Essex. The grid supply point substation, alongside accompanying works, including a single circuit cable sealing end compound, replacement pylons and underground cables to tie the substation into the existing 400 kV and 132 kV networks.
- c) Removal of approximately 25 km of existing 132 kV overhead line operated by UK Power Networks.
- d) Removal of approximately 2.5 km of existing 400kV overhead line.
- e) Land for environmental mitigation, compensation and enhancement including Biodiversity Net Gain.
- f) Temporary land use to facilitate construction activities including (but not limited to) working areas for construction equipment and machinery, site offices, welfare, storage and access.
- g) Temporary infrastructure to facilitate construction activities such as amendments to the highway including bellmouths for site access and construction access tracks/ haul roads, pylons and overhead line diversions, scaffolding to safeguard existing crossings, watercourse crossings and diversions of Public Rights of Way.
- h) Diversion of third-party assets and land drainage from the construction and operational footprint.

The proposed application will seek authorisation for the compulsory acquisition of land and interests in and rights over land, overriding easements and other rights, the temporary use of land, and other ancillary powers.

The proposed project is an Environmental Impact Assessment (EIA) development, as defined by The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. An Environmental Statement will therefore be submitted as part of the proposed application, which will contain information about the environmental effects of the proposed project.

The documents, plans and maps showing the nature and location of the proposed application, including the preliminary environmental information, will be available to download free of charge from 25 January 2022 until 21 March 2022 on www.nationalgrid.com/bramford-tinstead

Reference copies will also be available to view free of charge from 25 January 2022 for the duration of the consultation at the following deposit points in the vicinity of the project:

Location	Opening hours*
Hadleigh Library, 29 High Street, Hadleigh, IP7 5AG	Tuesday, Wednesday, Friday – 9am-5pm Thursday – 9am-6pm Saturday – 9.30am-5pm Sunday – 10am-4pm
Sible Hedingham Library, 169 Swan Lane, Sible Hedingham, Halstead, CO9 3PX	Monday – 9am-1pm Thursday – 2pm-7pm Saturday – 9am-5pm
Sudbury Library, Market Hill, Sudbury, CO10 2EN	Monday, Wednesday, Thursday, Friday, Saturday – 9am-5pm Tuesday – 9am-7.30pm Sunday – 10am-4pm

*Subject to any change in coronavirus restrictions that might impact the opening of these venues.

Printed copies of the documents, plans and maps can also be provided on request by contacting the project team on the details at the bottom of this notice. A reasonable copying charge will apply (up to a maximum of £220 for the full suite of documents). The documents can also be obtained free of charge on digital media by contacting the project team.

How to respond to the consultation

The consultation is running between 25 January 2022 and 23:59 on 21 March 2022. Paper feedback forms have been sent to all properties within one kilometre of the outer limits of the land currently proposed for the project. Additional copies are available at deposit points and can be requested by contacting the project team using the details below.

Responses to the consultation can be submitted by:

- completing a feedback form online via the consultation website www.nationalgrid.com/bramford-tinstead
- completing a paper feedback form or a free text response and posting to **Freepost B TO T REINFORCEMENT**
- emailing us a copy of your completed feedback form or free text response to contact@bramford-tinstead.nationalgrid.com
- scanning a paper copy of the response form or submitting a free text response via email at contact@bramford-tinstead.nationalgrid.com

National Grid must receive all responses by 23:59 on 21 March 2022 to ensure their consideration.

When deciding on the final form of the proposed application for a development consent order for the proposed project, National Grid will take into account any response to this publicity or the consultation that is received before the specified deadline.

National Grid may be required to make copies of representations available to the Secretary of State. However, National Grid will request that personal details are not placed on the public record. Personal details will be held securely in accordance with the Data Protection Act 2018 and will be used solely in connection with the consultation process and the development of this project and, except as noted above, will not be disclosed to any third parties.

APPENDIX H5: Locations of Section 48 Notices on Site

Location of S48 Notices on Site

This appendix shows the locations of S48 notices placed on site, blue triangles are placed on or near a land parcel with an unknown interest. Green triangles are notices placed approximately every 5km not associated with a specific land parcel.

The land parcel colours are different only to show clearly the boundary between adjacent land.
