Appendix A Details of Purpose for Which Compulsory Acquisition and Temporary Possession Powers are Sought

1.1 The specific purposes for which each plot of land subject to compulsory acquisition or temporary possession powers is required are set out in the tables in this appendix. The first column of each table identifies the plot number (as shown on the Land Plans and used in the Book of Reference). Plots are grouped in each row to the extent that they are located on the same Land Plan Sheet. Furthermore, they are grouped into tables depending on the Class of Rights (purpose) in the fourth column and further split between National Grid tables labelled (i) and UK Power Networks (UKPN) tables labelled (ii).

Table 1 - Land acquisition powers sought

| Colour of plot on Land Plans | Land use power sought | Principal relevant DCO article |
|------------------------------|---|--------------------------------|
| Brown | Class 1 - Compulsory Acquisition of land | Article 23 |
| Green | Class 2 – Compulsory Acquisition of Rights– Overhead Line | Article 24 |
| Orange | Class 3 - Compulsory Acquisition of Rights– Underground Cable | Article 24 |
| Blue | Class 4 - Compulsory Acquisition of Rights of Access | Article 24 |
| Dark Green | Class 5 - Compulsory Acquisition of Rights for Biodiversity Net Gain | Article 24 |
| Pink | Class 6 – Temporary use for Construction, Mitigation, Maintenance and Dismantling of Redundant Infrastructure | Article 26,27,28, 29 |
| Yellow | Class 7 – Temporary use for Access | Article 26,27,28, 29 |
| Uncoloured | Class 8 – Land that is not subject to powers of acquisition | N/A |

1.2 The second column in each of the tables below, sets out the corresponding principle DCO Work Numbers as shown on the Works Plans (**application document 2.5**), Schedule 1 of the draft DCO (**application document 3.1**) and the DCO explanatory memorandum (**application document 3.2**) which sets out the proposed use of the land required for the proposed development. The third column of each table sets out in broad terms the description for which the plot in question is required.

1.3 There are no cross overs between classes as a rule with the exception of Class 5 pertaining to BNG land. As BNG may be required in addition to Class of Rights 1, 2, 3, 4, 6 and 7 this is reflected on the Land Plans (**application document 2.3**) to ensure that this is made clear on the Land Plans (**application document 2.3**), where a plot is solely Class 5 then it is shown in dark green, but where a plot is to be subject to both Class 5 and another class, then the Class 5 dark green colour is shown hatched, so that it is clear what other class also applies.

Table 2 - DCO Work Numbers

| DCO Work Numbers | Description |
|------------------|--|
| 1 | Bramford Substation line entries and Route 4YL |
| 2 | Overhead transmission electric lines from Bramford Substation to the Dedham Vale East Cable Sealing End Compound |
| 3 | Underground transmission electric cable from the Dedham Vale East Cable Sealing End Compound to the Dedham Vale West Cable Sealing End Compound |
| 4 | Overhead transmission electric line from Dedham Vale West Cable Sealing End Compound to the Stour Valley East Cable Sealing End Compound |
| 5 | Underground transmission electric cable from the Stour Valley East Cable Sealing End Compound to the Stour Valley West Cable Sealing End Compound |
| 6 | Overhead transmission electric line from the Stour Valley West Cable Sealing End Compound to the existing 4YLA overhead transmission electric line (Route 4YLA) southwest of Alphamstone |
| 7 | Removal of existing overhead transmission electric line (Route 4YLA) between the Twinstead Tee and a point to the southwest of Alphamstone |
| 8 | Removal of existing overhead distribution electric line (Route PCB) between Burstall Bridge and the Twinstead Tee |
| 9 | Grid Supply Point Substation to the east of Wickham St. Paul |
| 10 | Modifications to the transmission electric line and connection to the Grid Supply Point Substation |
| 11 | Modifications to the distribution electric line and connection to the Grid Supply Point Substation |
| 12 | Temporary Site Compounds |

1.4 As stated in Section 3.4 of this Statement, powers of temporary possession are being sought over an area greater than that proposed for permanent acquisition, which can be identified in the Land Plans (**application document 2.3**). Table A.4

sets out those parts of the land where only temporary possession powers are being sought.

1.5 The tables in this appendix should be read in conjunction with and by reference to the following:

- Land Plans (**application document 2.3**)
- Works Plans (**application document 2.5**)
- Draft DCO (**application document 3.1**)
- DCO explanatory memorandum (**application document 3.2**)
- Book of Reference (**application document 4.3**)
