Date: 31 October 2023 13:16:01

This is my answer re MG 1.0.33 and in answering I am ensuring I am within the deadline of 11:59p.m 31-10-23.

The wood which I am referring to in my representation is the wood where the existing pylons run through. I.e, I am referring to creating a line parallel to the existing pylons rather than going the other side of Ramsey wood and past my house. Saving a huge amount of money and causing comparative minimal disruption.
