nationalgrid

TITLE: **Document 7.8.2
LEMP Appendix B -
Vegetation Reinstatement Plan**

CIRCUIT / SITE: **Bramford – Pelham & Bramford
– Braitree – Bulls Lodge**

ORIGINATOR DRAWING NO. **A1**

NG DRAWING No. **BT-NG-020621-545-0146**

SHEET NO. **01** NO. OF SHEETS **30** ISSUE: **A**

SCALE: **1:2,500**

1. These plans are indicative and are based on the Proposed Alignment, as shown on the General Arrangement Plan (application document 2.10).
2. These plans should be read alongside the Landscape and Ecological Management Plan (LEMP) (application document 7.8) and the species mixes proposed in Appendix C of the LEMP.
3. These plans may not show all measures agreed as part of the European Protected Species (EPS) licences. Therefore, the EPS licences should be read alongside these plans.
4. No trees would be planted over the underground cable sections or within the safety clearances required for overhead lines.
5. These plans should be read alongside the Construction Environmental Management Plan (application document 7.5), which contains embodied and good practice measures including around reinstatement of existing features such as walls and boundary features.

NG DRAWING No. BT-NG-020621-545-0146	SHEET NO. 09	NO. OF SHEETS 30
SCALE: 1:2,500		ISSUE: A

1. These plans are indicative and are based on the Proposed Alignment, as shown on the General Arrangement Plan (application document 2.10).
2. These plans should be read alongside the Landscape and Ecological Management Plan (LEMP)(application document 7.8) and the species mixes proposed in Appendix C of the LEMP.
3. These plans may not show all measures agreed as part of the European Protected Species (EPS) licences. Therefore, the EPS licences should be read alongside these plans.
4. No trees would be planted over the underground cable sections or within the safety clearances required for overhead lines.
5. These plans should be read alongside the Construction Environmental Management Plan (a document 7.5), which contains embodied and good practice measures including around reinstatement of existing features such as walls and boundary features.

A	03/31/2023	Rev A for DCO application	JT	DD	CW

1. These plans are indicative and are based on the Proposed Alignment, as shown on the General Arrangement Plan (application document 2.10).
2. These plans should be read alongside the Landscape and Ecological Management Plan (LEMP) (application document 7.8) and the species mixes proposed in Appendix C of the LEMP.
3. These plans may not show all measures agreed as part of the European Protected Species (EPS) licences. Therefore, the EPS licences should be read alongside these plans.
4. No trees would be planted over the underground cable sections or within the safety clearances required for overhead lines.
5. These plans should be read alongside the Construction Environmental Management Plan (application document 7.5), which contains embodied and good practice measures including around reinstatement of existing features such as walls and boundary features.

EM-H02: Landscape planting has been proposed to the east and west of the GSP substation. This will be maintained for the life of the GSP substation.

EM05-W1 Mixed Broadleaved Native Woodland planting

EM05- G1 Species Rich Grass Seed Mix planting

EM-H04: Low mounds are proposed to the west of the A131 and to the west of the proposed GSP substation. These will be planted to help filter views of the GSP substation from the A131 and from Wickham St Paul. The western mound would be approximately 2.5m high while the eastern mound would be approximately 1.5m high.

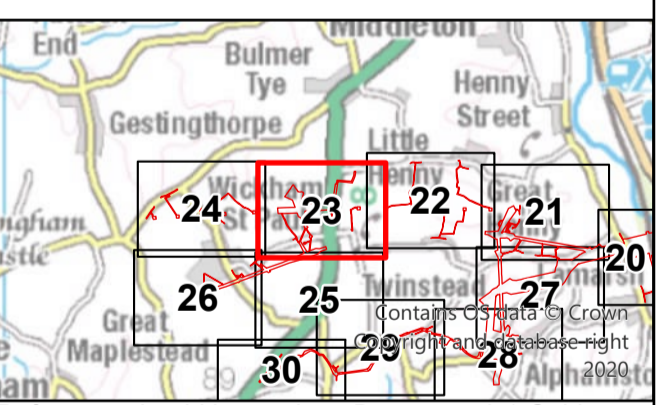

EM05- S1 Scrub Mix planting

EM05- H1 Hedgerow mix planting

EM05- H1 Hedgerow mix planting

1. These plans are indicative and are based on the Proposed Alignment, as shown on the General Arrangement Plan (application document 2.10).

PROJECT: **Bramford to Twinstead Reinforcement**

nationalgrid		Document 7.8.2 LEMP Appendix B - Vegetation Reinstatement Plan	
CIRCUIT / SITE: Bramford – Pelham & Bramford – Braintree – Bulls Lodge		GIS	
ORIGINATOR DRAWING NO. A1_AAA_BT_LEMP_Reinstatement_Scheme_Rev01		A1	
NG DRAWING No. BT-NG-020621-545-0146	SHEET NO. 27	NO. OF SHEETS 30	ISSUE: A
SCALE: 1:2,500			

1. These plans are indicative and are based on the Proposed Alignment, as shown on the General Arrangement Plan (application document 2.10).
2. These plans should be read alongside the Landscape and Ecological Management Plan (LEMP) (application document 7.8) and the species mixes proposed in Appendix C of the LEMP.
3. These plans may not show all measures agreed as part of the European Protected Species (EPS) licences. Therefore, the EPS licences should be read alongside these plans.
4. No trees would be planted over the underground cable sections or within the safety clearances required for overhead lines.
5. These plans should be read alongside the Construction Environmental Management Plan (a document 7.5), which contains embodied and good practice measures including around reinstatement of existing features such as walls and boundary features.

EM04-W1 Mixed Broadleaved Native Woodland planting

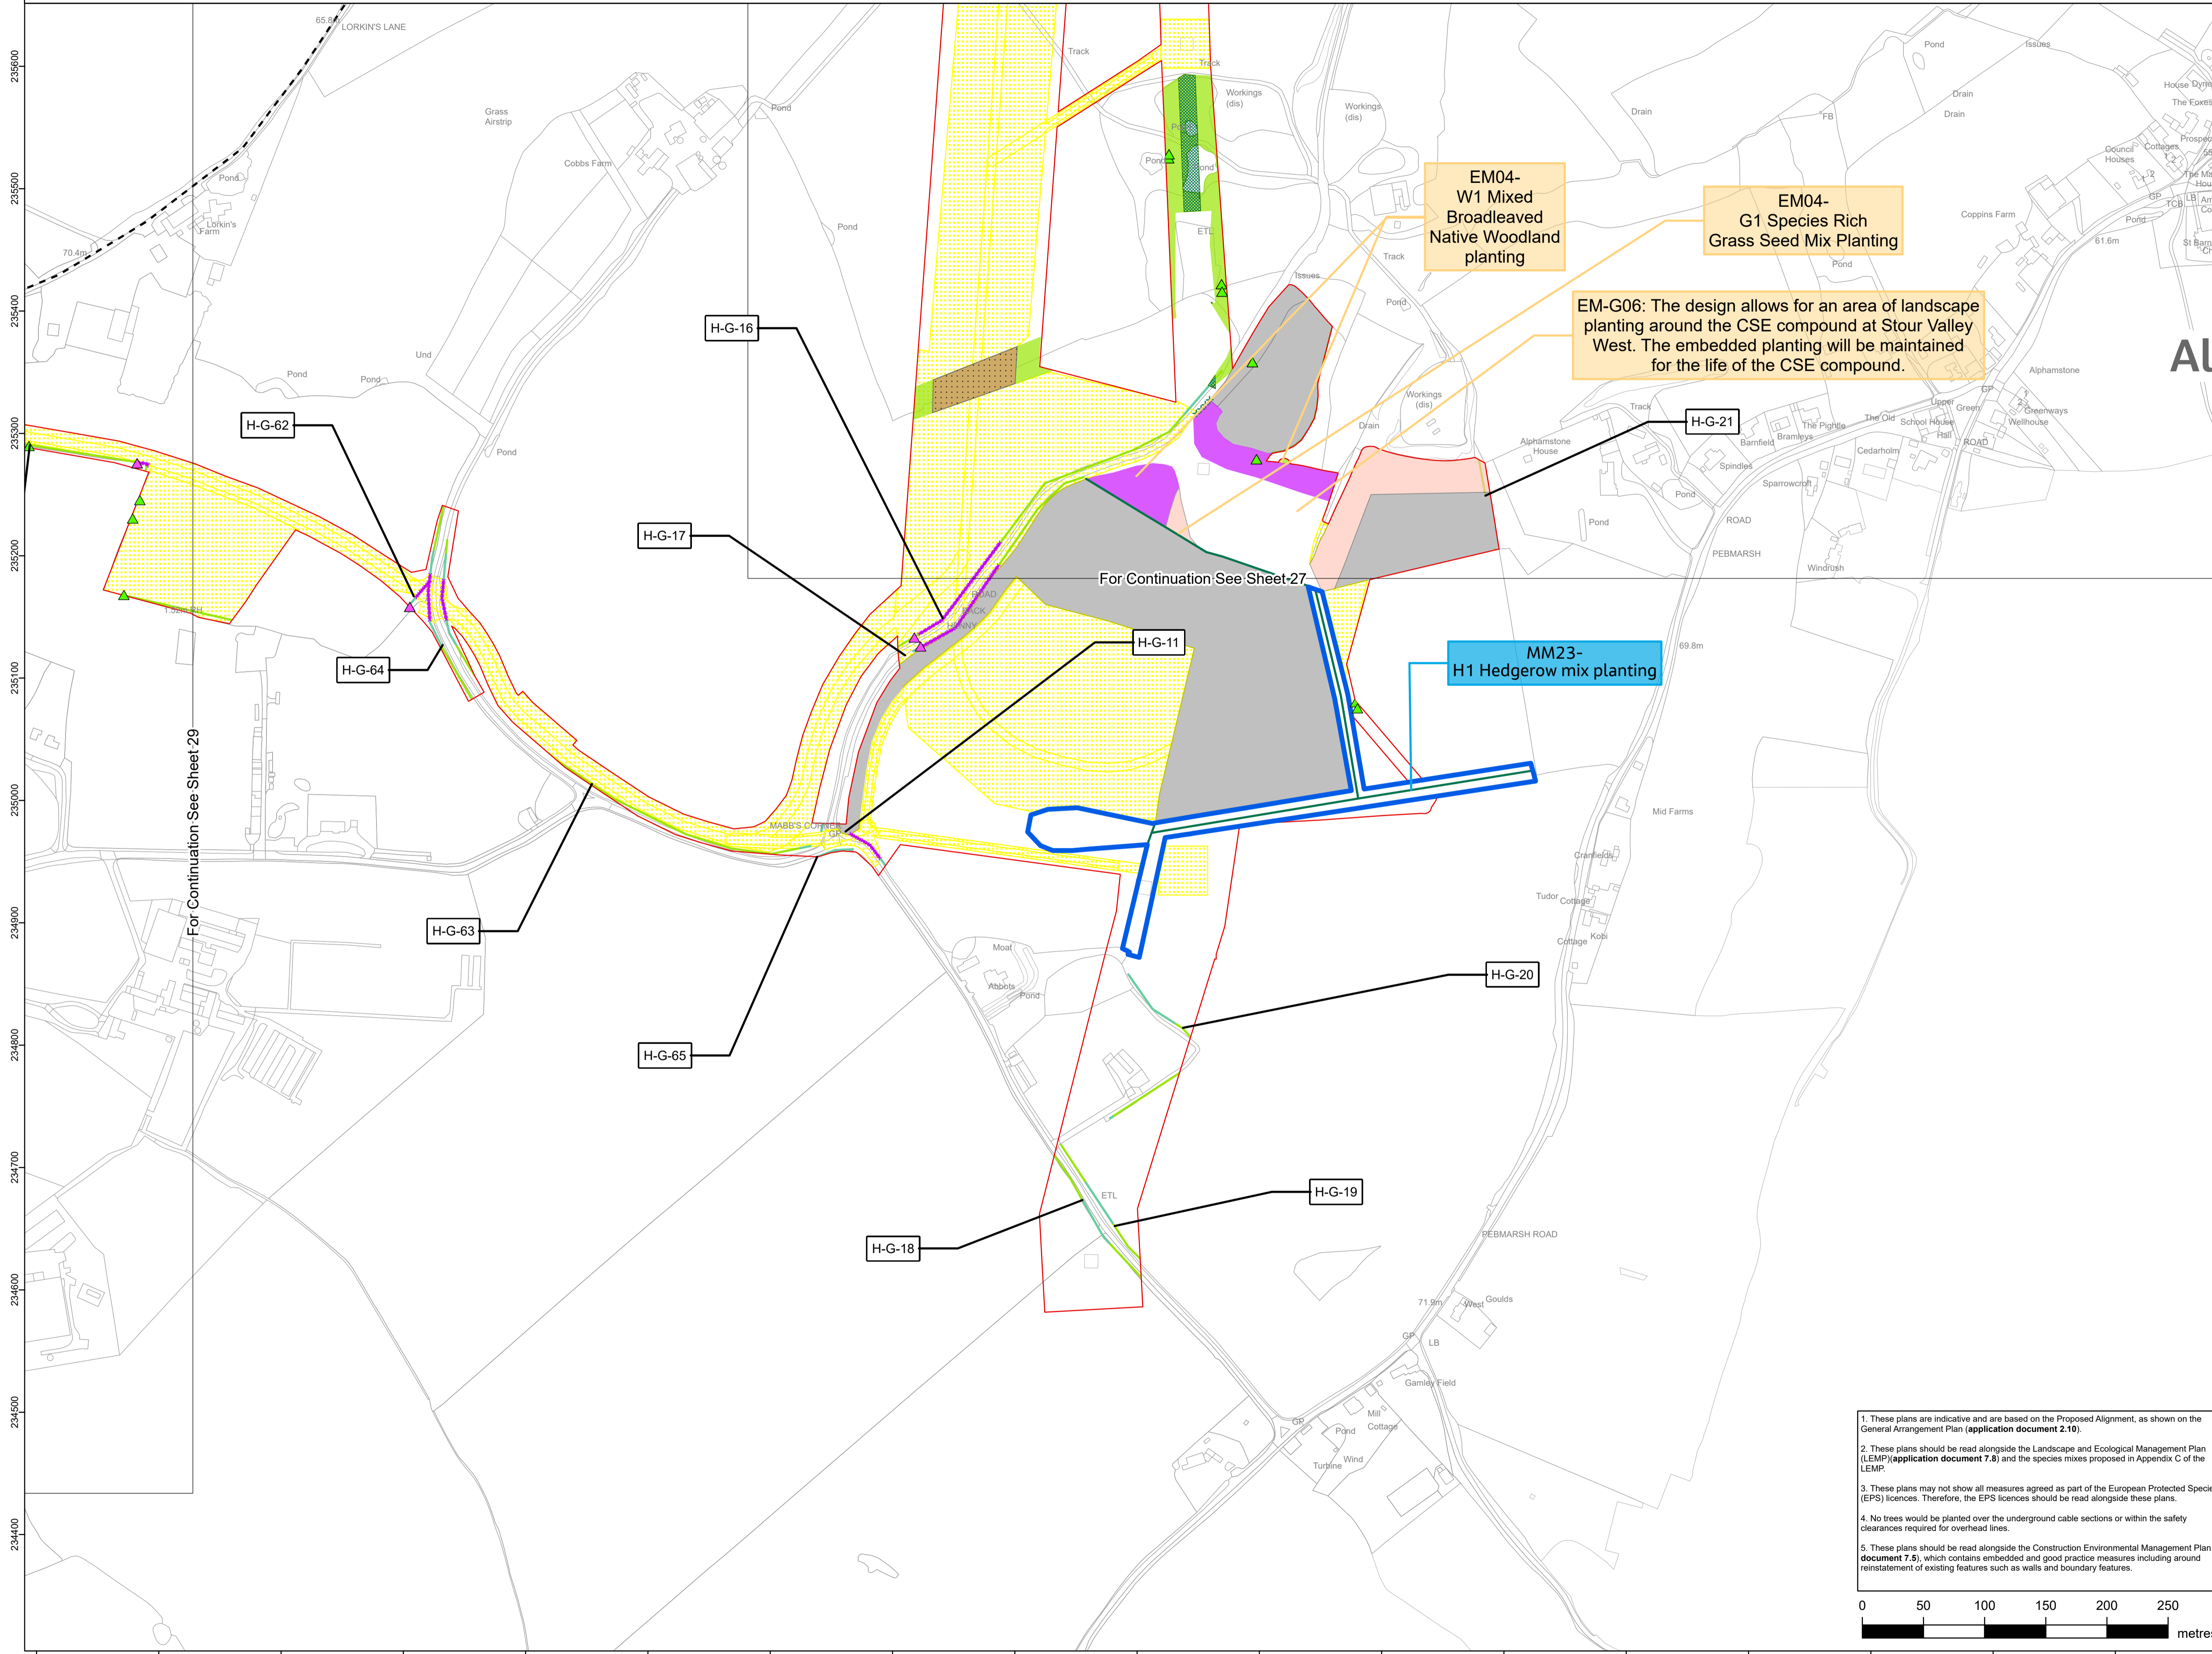

EM04-G1 Species Rich Grass Seed Mix Planting

EM-G06: The design allows for an area of landscape planting around the CSE compound at Stour Valley West. The embedded planting will be maintained for the life of the CSE compound.

- Section boundaries
- Order Limits
- Soil stripped land to be reinstated in accordance with GG07
- Existing vegetation to be retained**
- Tree
- Existing retained hedgerow or line of trees
- Hedgerow / line of trees crossing schedule label
- Existing retained woodland
- Individual Tree Preservation Order
- Group of trees under preservation order
- Habitat reinstatement and creation**
- Proposed areas for net gain (further details can be found in the Environmental Gain Report (application document 7.4))
- Proposed natural regeneration of woodland
- W1 Woodland mixed native broadleaved woodland planting
- W2 Woodland edge planting
- Natural regrowth of pruned tree
- Natural regrowth of coppiced tree
- T1 Individual tree planting
- H1 Hedgerow mix planting as replacement for removed hedgerow
- H1 Hedgerow planting for new hedgerow
- H2 Hedgerow planting with trees
- Hedgerow reinforcement
- Natural regeneration of coppiced hedgerows
- S1 Scrub planting
- S2 Scrub planting (low growing scrub mix)
- G1 Species rich grass seed mix
- G4 Marshy grass seed mix
- Additional mitigation
- Landscape and visual softening

EM-G06: The design allows for an area of landscape planting around the CSE compound at Stour Valley West. The embedded planting will be maintained for the life of the CSE compound.
