# 1. Introduction

## 1.1 This Document

- 1.1.1 This document accompanies National Grid Electricity Transmission plc's (here on referred to as National Grid) application for development consent to reinforce the transmission network between Bramford Substation in Suffolk, and Twinstead Tee in Essex. The Bramford to Twinstead Reinforcement ('the project') would be achieved by the construction and operation of a new electricity transmission line over a distance of approximately 29km comprising of overhead lines, underground cables and grid supply point substation. It also includes the removal of 25km of the existing distribution network and various ancillary works.
- 1.1.2 For a full description of the project reference should be made to Chapter 4 of the Environmental Statement: Project Description (**application document 6.2.4**).
- 1.1.3 This Book of Reference relates to an application by National Grid under the Planning Act 2008 ("the Act") for The National Grid (Bramford to Twinstead Reinforcement) Development Consent Order ("DCO"). If made, the DCO would grant consent for the Applicant to undertake the project.
- 1.1.4 This Book of Reference has been prepared and submitted in compliance with Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the "APFP Regulations"), as amended, and in accordance with the Department for Communities and Local Government guidance 'Planning Act 2008: Guidance related to procedures for compulsory acquisition' (September 2013) ("CA Guidance"). It has also been prepared in accordance with Regulation 7 of the APFP Regulations.
- 1.1.5 The Book of Reference is to be read in conjunction with the Land Plans (**application document 2.3**) submitted under Regulation 5(2)(i) of the APFP Regulations. The Land Plans identify:
- a. all of the land within the Order limits required for and directly affected by the authorised development;
  - b. land which may be acquired permanently under the compulsory acquisition powers within the Order limits;
  - c. land that will be subject to compulsory acquisition powers to acquire permanent rights;
  - d. land where temporary use powers may be exercised; and
  - e. land in relation to which it is proposed to extinguish, suspend or interfere with any existing easements, servitudes and other private rights.
- 1.1.6 This Book of Reference forms part of a suite of documents accompanying the application submitted in accordance with section 55 of the Act and the APFP Regulations and should be read alongside the other DCO Application Documents that relate to the compulsory acquisition and temporary possession powers sought by National Grid and the need for the project, including:
- a. Navigation Document (**application document 1.4**);

- b. Development Consent Order (**application document 3.1**);
- c. Land Plans (**application document 2.3**);
- d. Works Plans (**application document 2.5**);
- e. Special Category Land Plans (**application document 2.4**); and
- f. Statement of Reasons (**application document 4.2**).

1.1.7 This Book of Reference is divided into five parts as prescribed by Regulation 7(1) of the APFP Regulations and the Order land is identified by numbered entries, with each entry relating to a coloured plot on the Land Plans (**application document 2.3**). The five parts are:

- a. Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in section 57 (categories for purposes of section 56(2)(d)) of the Act in respect of any land which it is proposed shall be subject to powers of compulsory acquisition, rights to use land, including the right to attach brackets or other equipment to buildings; or rights to carry out protective works to buildings;
- b. Part 2 contains the names and addresses for service of each person within Category 3 as set out in section 57 of the Act;
- c. Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with;
- d. Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made (of which none has been identified); and
- e. Part 5 specifies land the acquisition of which is subject to special parliamentary procedure; which is “special category land” for the purposes of sections 131 and 132 of the Act; and which is replacement land.

1.1.8 Each plot is numbered uniquely so that the prefix of the plot number relates to the Land Plan sheet number on which the plot appears. For example, plot number 1-03 is on sheet 1.

1.1.9 All plot area measurements in this Book of Reference are approximate, as these measurements are given in square metres, and each measurement is rounded to the nearest whole square metre (no decimal place).

1.1.10 The Land Plans (**application document 2.3**) show the Order land and the numbered plots within the Order limits that are listed in the sections of the Book of Reference. Each plot is coloured. The colouring serves to differentiate the type of rights or powers sought for each given plot within the Order limits which corresponds to the respective interest, right or power to be acquired or used. There are instances where a plot may have more than one type of interest, right or powers sought. Where two types of interest, rights or powers are sought over a given plot (such as temporary use during construction, as well as permanent rights to operate and maintain the works), the plot is coloured according to the more extensive power required.

1.1.11 The only exception to this is in the instance of class 5 (Compulsory Acquisition of Rights - Biodiversity Net Gain (BNG)). In these cases if there is another class of rights on the same plot, both colours are shown with the class 5 dark green shown as hatched. For example plot 3-05 is shown as both yellow with green hatch signifying the land is required

for class 7 Temporary Use For Access and also class 5 Compulsory Acquisition of Rights - Biodiversity Net Gain (BNG). See class of rights table below.

## 2. Description of the Book of Reference Parts

### 2.1 Introduction to the Book of Reference Parts

2.1.1 This chapter describes each of the five Parts of the Book of Reference in more detail, together with a brief commentary on how the requirements in the APFP Regulations and the related definitions in the Act have been interpreted and applied to the collation of each Part of this Book of Reference. The tables containing the detail of each Part follow.

### 2.2 Part 1 of the Book of Reference

2.2.1 Part 1 of this Book of Reference lists all the plot numbers within the Order land which are shown on the Land Plans (**application document 2.3**). Part 1 contains names and addresses for every person who is known, after making diligent inquiry, to be an owner, lessee, tenant or occupier of the plot (known as Category 1 owners) or, is interested in or, has the power to sell, convey or release the land (known as Category 2 owners).

2.2.2 A person is within Category 1 if the applicant, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period) or occupier of land; see section 57(1) of the Act.

2.2.3 A person is in Category 2 if the applicant, after making diligent inquiry, knows that the person –

- a. Is interested in the land
- b. Has power –
  - i. To sell or convey the land
  - ii. To release the land;(see section 57 (2) of the Act

2.2.4 This includes mortgagees and beneficiaries that may have an interest in the land to which the application for development consent relates.

2.2.5 The land identified is comprehensively described and, as required by Regulation 7(1)(a) of the APFP Regulations, includes all the land identified in the Order that is proposed to be subject to:

- a. powers of compulsory acquisition;
- b. rights to use / occupy land, including the right to attach brackets or other equipment, including to buildings; or
- c. rights to carry out protective works, including to buildings.

2.2.6 National Grid has taken the approach of seeking powers of compulsory acquisition (or acquisition of rights) in respect of all plots of land required permanently for the project, even where it already holds an interest or presumes it holds an interest in the land. This

approach has been taken to ensure that it has the right to acquire the appropriate interests it needs within the Order limits even if an unidentified owner later asserts an interest in land which National Grid believes it holds an interest.

- 2.2.7 By virtue of articles 37 (extinguishment and suspension of private rights), 38 (power to override easement and other rights) and 39 statutory authority to override easements and other rights, of the Order, all or any rights exercisable over or in respect of the Order Land will be extinguished or overridden insofar as they may interfere with the construction or use of the authorised project. These are subject to article 40 (extinguishment of private rights and restrictive covenants relating to apparatus belonging to National Grid or UKPN removed from land subject to temporary possession) in respect of apparatus belonging to National Grid or UKPN which is removed.

## 2.3 Part 2 of the Book of Reference

- 2.3.1 Part 2 of the Book of Reference is required by Regulation 7(1)(b) of the APFP Regulations to contain "the names and addresses for service of each person within Category 3 as set out in section 57 (of the Planning Act 2008)". A person is within Category 3 if, National Grid thinks, having made diligent inquiry, that they would or might be entitled to make a relevant claim as a result of implementing the Order, or as a result of the Order having been implemented, or as a result of the use of the land once the Order has been implemented. A relevant claim is defined in the section 57(6) of the Act. This means:

- a. a claim under Section 10 of the Compulsory Purchase Act 1965 (compensation where satisfaction is not made for the taking or injurious affection of land subject to compulsory purchase); or
- b. a claim under Part 1 of the Land Compensation Act 1973 (compensation for depreciation of land value by physical factors caused by the use of public works); or
- c. a claim under Section 152 (3) of the Act where land is injuriously affected by the carrying out of the authorised works.

- 2.3.2 Where a person has an interest under Category 3 (i.e. those that would or might have a relevant claim) within the Order land (and therefore within a plot) the person is included and listed with the relevant plot number. Where a person has an interest outside the Order land, but it is National Grid's opinion that they should be included in Part 2 (as potentially being entitled to make relevant claim as above), the person is listed against the relevant work number from which the claim may emanate.

## 2.4 Part 3 of the Book of Reference

- 2.4.1 In accordance with Regulation 7(1)(c) of the APFP Regulations, Part 3 lists the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed may be extinguished, suspended or interfered with as a consequence of the authorised development. This will include some interests listed in Part 2.

## 2.5 Part 4 of the Book of Reference

- 2.5.1 In accordance with Regulation 7(1)(d) of the APFP Regulations, Part 4 of the Book of Reference specifies the owner of any Crown interest in the Order land which is proposed to be used for the purpose of the Order for which application is being made, and which

includes land belonging to the Government departments. “Crown land” is defined in section 227 of the Act and includes interests belonging to Government departments among other Crown interests.

- 2.5.2 No Crown interests have been identified, but an empty Part 4 has been included for completeness with the note “No interests were identified which should appear in this Part”.

## 2.6 Part 5 of the Book of Reference

- 2.6.1 In accordance with Regulation 7(1)(e) of the APFP Regulations, this states;

*‘Part 5 specifies land –*

- (i) the acquisition of which is subject to Special Parliamentary Procedure;*
- (ii) which is special category land;*
- (iii) which is replacement land*

*and for each plot of such land within which it is intended that all or part of the proposed development and works shall be carried out, the area in square metres of that plot.’*

- 2.6.2 Land required for the project which is subject to special parliamentary procedure, is special category land or replacement land is listed in part 5 of the Book of Reference and shown on the Special Category Land Plans (**application document 2.4**). The Statement of Reasons (**application document 4.2**) sets out further details in respect of special category land.

## 2.7 Book of Reference Notes

- 2.7.1 Part 1 of this Book of Reference provides the area in square metres of each plot of land included in the Order Limits of the DCO.

- 2.7.2 The term ‘approximately’ is not used before all plot area measurements because the draft DCO (Article 2(4)) requires all areas described in square metres in the Book of Reference to be read as being approximated. This is because these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre.

## 2.8 Classification of Interests, Rights and Powers

- 2.8.1 The powers conferred by the Order to acquire interests and rights and to use land will be exercisable by National Grid in respect of the authorised development and UK Power Networks (“UKPN”) in respect of UKPN works (the terms “National Grid”, “authorised development”, “UKPN” and “UKPN works” are defined in the Order). Accordingly, each part of the Book of Reference sets out the respective interest, right or power to be acquired, extinguished, or used, by National Grid and UKPN in relation to each parcel of land. The interests, rights or powers are described by reference to the classes in the table below. Some of the classes of interests, rights or powers include other classes as set out in the table so, for instance, if National Grid may acquire Class 2 powers over a parcel of land (Compulsory Acquisition of Rights– Overhead Line), it may exercise Class 6 powers (Temporary use for Construction, Mitigation, Maintenance, and Dismantling of redundant infrastructure) as well. This gives National Grid the ability to acquire or exercise a lesser right or power where appropriate.

- 2.8.2 National Grid’s interest, right or power is set out first in column 2 of the Book of Reference with UKPN’s interest, right or power set out second. For example, a reference “1/6” means that National Grid may exercise the Class 1 powers (Compulsory Acquisition of land) and UKPN may exercise the Class 6 powers (Temporary use for Construction, Mitigation, Maintenance, and Dismantling of redundant infrastructure) over the relevant parcel. Where a zero is entered this means that either National Grid or UKPN, as the case may be, will have no right of compulsory acquisition or use over that parcel of land. For example, a reference 2/0 means that National Grid may exercise the Class 2 powers (and any subordinate powers) but UKPN will have no land powers over that parcel of land (as their class is listed second and reads 0). Where plots are required for class 5 in addition to another class the dual requirement is set out in brackets. For example, plot 3-05 which is shown on the Land Plans as being yellow with dark green hatched is listed in column 2 of the Book of Reference with 7(5)/0. This means that National Grid require class 7 (Temporary Use For Access) and class 5 (Compulsory Acquisition of Rights - Biodiversity Net Gain (BNG)) and UKPN will have no land powers over that parcel of land.
- 2.8.3 Government guidance in relation to the compulsory acquisition of land under the Act states, at paragraph 10 of annex D, “the book of reference should also cross-refer to the relevant articles in the development consent order”.
- 2.8.4 For the purpose of this Book of Reference the relevant articles contained in the draft Development Consent Order have been set against the acquisition of various interests and rights and the power to use land temporarily as shown in the table below, thereby informing the reader as to the relevant articles engaged in the Development Consent Order.
- 2.8.5 For the purposes of this Book of Reference the acquisition of various interests and rights and the power to use land temporarily for various purposes has been classified as follows:

Table 2.1 – Classification of acquisition and temporary use of land and rights

| <b>Class</b>   | <b>Relevant article in Order</b> | <b>Colour on Plan</b> | <b>Description of Class</b>   | <b>Subordinate Class</b> |
|--|----------------------------------|-----------------------|---|--------------------------|
