Dear Ms Duffy,

North Wales Wind Farms Connection Project - EN020014
SP Manweb Plc

Statement of Common Ground between SP Manweb and the Local Health Board for North Wales (Betsi Cadwaladr University Health Board)

I refer to SP Manweb PLC's ("**SP Manweb**") application to the Secretary of State for an order granting development consent ("**Application**") for an approximately 17 kilometre 132kV Overhead Line together with required pedestrian and vehicular accesses, temporary construction compound, construction laydown areas, mitigation planting and other integral works ("**Proposed Development**"). The Secretary of State accepted the Application on 17 April 2015.

SP Manweb and the Local Health Board for North Wales (Betsi Cadwaladr University Health Board) ("**Local Health Board**") have agreed to enter into this Statement of Common Ground ("**SOCG**") in respect of the impact the Proposed Development is expected to have upon public health. The Local Health Board's remit is public health, and therefore the Local Health Board does not offer any comment on any other aspect of the Proposed Development.

The Local Health Board has considered the documents that accompanied the Application. It is satisfied with the EIA methodology adopted in the Environmental Statement ("**ES**") and with the conclusions of the ES that the Proposed Development will not give rise to a significant effect on public health (including noise and vibration and aerial emissions).

With specific reference to the issue of impacts upon health from Electro Magnetic Fields, the Local Health Board for North Wales has considered Chapter 14 of the ES. It is satisfied:

1. that the methodology adopted in the ES is compliant with DECC's Code of Practice 'Power Lines: Demonstrating Compliance with Public Exposure Guidelines'; and
2. with the conclusion of the ES that the Proposed Development will not give rise to exposure to EMFs above the maximum levels set out in DECC's Code of Practice 'Power Lines: Demonstrating Compliance with Public Exposure Guidelines'

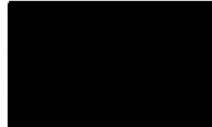

The Local Health Board has no objection or points of disagreement with SP Manweb in relation to the Application.

On behalf of SP Manweb:

Claire Duffy
