To whom it may concern

I write in support of those communities who do not wish to see pylons across the landscape but would like to see all power cables buried underground. The route planned is through Cefn Meiriadog in the Elwy Valley and will be affecting the communities of Cefn Meiriadog and Henllan. It would seem to me to be a sensible proposal to place these cables underground so as to preserve the landscape.

I fully support the communities of Henllan & Cefn Meiriadog in the opposition to having pylons across the landscape.

Yours sincerely
