PROFILE

Ellie joined RSK in 2014 as an assistant landscape architect with three years' experience in undertaking and supporting landscape design and masterplanning, detailed planting design and construction, landscape and visual impact assessments, urban design and graphic design.

Ellie provides a support role in the landscape team based in RSK's Manchester office, assisting in every aspect of the delivery of the landscape and visual impact assessments and associated work. She is responsible for desktop and baseline studies, consultations, field and photographic surveys, analysis and assessment, the preparation of reports, and landscape mitigation plans and strategies.

Ellie has specialist skills in the following areas:

- landscape design proposals from sketch scheme design through to construction drawings and preparation of construction information
- accomplished operation of specialist computer software packages AutoCAD 2D, Keyscape, Adobe Creative Suite (Photoshop, InDesign and Illustrator) and SketchUp
- preparing landscape and visual impact assessments including desktop and baseline studies, field and photographic surveys, and mitigation plans and strategies
- landscape design proposals from sketch scheme design through to construction drawings and preparation of construction information.

Key project experience

RSK

Brechfa Forest connection scoping report – Carmarthenshire, Wales, 2014

Ellie assisted in the collation of baseline landscape character information forming part of the scoping report.

Triton Knoll offshore wind farm and onshore intermediate compound– Lincolnshire, 2014

Ellie carried out site survey work to inform the routing of underground cabling as part of the embedded landscape mitigation proposals within the project's Landscape and Visual Impact Assessment.

Broadlands Business Park, 2014

Ellie was responsible for the design of a new amenity area within the business park that provided seating set within a native, naturalistic planting scheme and incorporated surplus fill material into integrated landform.

PRE-RSK EXPERIENCE

Landscape and visual impact appraisal for Breadsall Hilltop residential scheme – Derby, 2013

Ellie assisted in the production of a landscape and visual impact appraisal for a residential scheme located within a green wedge, in close proximity to the Darley Abbey Mills World Heritage Site. Ellie was responsible for desk-based and site survey work, liaising with the local authority regarding the selection of viewpoints. Ellie assisted in the production of the written report and provided graphical illustrations and viewpoint photography. In addition to this Ellie assisted in the development of a masterplan for the site incorporating landscape mitigation measures as part of an iterative design process.

Landscape and visual impact review of supermarket distribution centre – Buntingford, 2011

Ellie assisted in the production of the landscape and visual impact review including desk-based and site survey work along with viewpoint photography and report write up.
