

Brechna Forest Connection

To the inspector of Land Rights Team
I write to inform you that I would
prefer the single and double pole
(H pole) and stays to be erected either
on the hedge or very close to the
hedge. Looking at the plan it
seems that they are a little way
out in the field, a minor adjustment
to your plan would make farming
the land easier ^{and more} convenient in
future years.

Also the compensation offered
is very low and disappointing and
I have not been invited to
negotiate the sum offered,
Yours Sincerely
