Dear Mrs King,

**Western Power Distribution - Brechfa Forest Connection (Ref EN020016)
Alternative option B – extending underground section between pole 84 and 86**

We ask this letter be taken into consideration by Mr Martin Broderick the Examining Authority as part of his review of the above proposed scheme.

I have recently received documentation from you and a letter from WPD (ref: BFC/AH/115) dated 7 January 2016 in relation to the proposed 'Option B' for undergrounding an additional section.

I write as the freehold landowner affected by the majority of the proposed extended route, and wish to express my wholehearted support to this proposal of undergrounding the section between poles 84 and 86.

I have made it clear from the outset to WPD and their representatives that I have continuously asked for no overhead equipment to be in view of my homestead and business, and my letter to you dated 18th December 2015 made the same remarks.

I fully support Natural Resources Wales and Carmarthenshire County Council in their request for extending the underground section on my land which would remove pole 84 and 86 from my land, and will fully cooperate with future dealings on this basis.

Thank you for your time in considering this matter.

Yours faithfully,

Mr HV Jones & Mrs E Jones
