Subject: Revised HoTs

Dear Kathryn,
Please could you forward this to the Inspector and may we take this opportunity of thanking you for all you have done for us.
Peter Morris & family

Dear Mr. Broderick,
We have received our revised HoTs and are still concerned. Yet again, it seems to have been written by merely referring to maps in an office. At no point have we as a working family dairy farm been consulted or indeed considered. A km length of the line is cutting through valuable grazing and silage fields. Fields we have spent years improving by investing in essential drains, because of their close proximity to the farm yard.
Again too large an area is being shaded in as easement area. Why does a field adjacent to one containing the proposed line need to be part of the easement area?
Again our request to move the line East to the hedge in order to avoid the oil pipeline and land drains seems to have fallen on deaf ears.
A covering letter with the revised HoTs says that "specific issues" have not been provided. Our concerns and observations were pointed out to WPD over eighteen months ago. We are still waiting for a response. WPD seem to have failed to communicate our concerns to BK also.
Again we would like to point out our frustration at being taken for granted. Indeed, the feeling we have as a family, is that we are of little or no importance. No one comes to talk to us.
Finally we ask, is it right and fair that a large company like WPD be allowed to walk all over us and behave as a dictatorship? No consultation or negotiation has taken place.
Thank you again for taking the time to read our correspondence.
Peter Morris and family.
