Subject: Re: Fw: Richborough Connection Project - Adequacy of Consultation Request (Reference number: 20115)

Dear Steven,

Thank you for your email dated 15 January and the attached letter. Our Contact Centre forwarded these to to me for reply. I responded on 28 January but I have received the chaser email below via our Contact Centre - so it seems that my reply may not have reached you. My response was:

"We note that the project is remote from Surrey and the County Council would not wish to comment on the merits of this project. We can find no record of being consulted but this may be as a result of the project location. We have no reason to believe that the consultation process has been inadequate."

Kind Regards

Maureen Prescott
