Subject: Preliminary Meeting - FAO Chris White
Date: 24 May 2016 09:43:48

Hello Chris

I would like to confirm that I wish to attend the Preliminary Meeting and wish to speak on Agenda Items

- Annex B:

Socio-Economic Effects – I would like to know whether there is any value in us carrying out a survey of our current and former customers to inform the Inspectorate of their views. To date we have said nothing in order to safeguard the business in the next two years.

Flood Risk – we have seen nothing from the National Grid regarding the potential flood risk either to the pylons or two our land. We would want to seek more clarification from them with specific regard to our land

Dates reserved for Accompanied Site Inspections – we would want the Inspectorate to visit our campsite when it is full of campers (weekends/summer holidays) and if possible in the evening as well, to gauge the quietness of the surrounding area after twilight. We are concerned with both visual and audio impact of the pylons and we want the Inspectorate to appreciate the full impact of the pylons on our business.

Would my husband also be able to attend?

Best wishes

Christine
