Your reference EN020019

5 October 2015

Dear Ms. King

Triton Knoll Electrical System (Application Reference: EN020019)

We write further to the preliminary meeting and our letter of 1 September 2015.

We can confirm that technical representatives of WPD and Triton Knoll Offshore Wind Farm Limited (TKOWFL) met on 11 September 2015.

Further technical and legal meetings are in the process of being arranged with TKOWFL which will inform the drafting of WPD's Protective Provisions.

WPD is aware that Deadline 1 of the Examination is Monday 5 October.

Please accept this letter as a holding response to Deadline 1. As soon as WPD is able, it will advise the ExA of the need for WPD to attend a compulsory acquisition hearing and of any specific locations to be inspected on the site visit.

If inspection of any specific locations is required, WPD would ask that their technical advisor attends to assist the ExA in identifying WPD electrical lines or apparatus.

Yours sincerely

John Webster
