TRITON KNOLL OFFSHORE WIND FARM LIMITED

Dear Sirs,

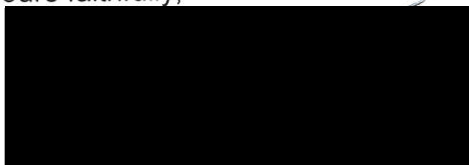

Proposed Pipeline Crossing and Associated Crossing Agreement

Perenco hereby confirms:

- Perenco is aware of RWE Npower Renewables Ltd (RWE NRL) plans to develop the Triton Knoll Wind Farm.
- Perenco understands the development of the Triton Knoll Wind Farm is ongoing and plans are subject to change.
- Perenco is the operator of the Pickerill A to Theddlethorpe Gas and Methanol pipeline that will need to be crossed by the export cables of the Triton Knoll Wind Farm.

Perenco hereby confirms that it has no objection to the Development Consent Order application for the Triton Knoll Wind Farm and agrees that as more detailed information becomes available, it will continue discussions with RWE NRL concerning the conclusion of a suitable agreement between the entities to govern the proposed crossings and the relative rights and obligations of both the crossed and crossing party. We anticipate that the agreement will follow the industry model form Pipeline Crossing Agreement published by Oil & Gas UK.

Yours faithfully,

Brian James – General Manager - Perenco (UK) Limited
