1. SUMMARY

- 1.1 On 30 July 2015, the Examining Authority (ExA) for the Triton Knoll Electrical System application issued a letter in accordance with Rule 6 of the Infrastructure Planning (Examination Procedure) Rules 2010.
- 1.2 Annex G (5) of the Rule 6 letter requested Triton Knoll Offshore Wind Farm Ltd. (the Applicant) prepare Statements of Common Ground (SoCGs) with certain Interested Parties.
- 1.3 The ExA later issued a Rule 17 letter on 13 October 2015 requesting that the Applicant also prepare a SoCG with the Land Interest Group.
- 1.4 The aim of the SoCGs is to identify areas of agreement and disagreement between the parties at an early stage of the examination process, and to provide a focus on the matters that need further discussion.
- 1.5 The Applicant has sought to progress engagement on SoCGs (or, where applicable, a letter of agreement) with the Interested Parties requested in the Rule 6 letter.
- 1.6 In addition, the Applicant has sought SoCGs with other Interested Parties that it felt would be useful for the purpose of identifying agreements and disagreements early in the examination.
- 1.7 This document provides the ExA with an update to the SoCGs Summary and Index provided as Appendix 14 to the Applicant's response to Deadline 2 (submitted on 27 October 2015).
