Subject: 160108 EN020019 Lincolnshire County Council - Answer to ExA QDCO2.3 - Late submission

Dear Sirs

It has come to our attention that Lincolnshire County Council have regrettably failed to respond to one of the questions posed to it by the Examining Authority, we apologise for this oversight and would seek to respond now to that question.

Question DCO2.31- required Lincolnshire County Council to comment upon whether it accepted the amended wording to Condition 8(1) regarding the timescales for the provisions of reports to OASIS and notification to Lincolnshire County Council.

The County Council accept the amended time scales but would suggest a slight amendment so that the Lincolnshire County Council is removed and " the relevant Historic Environment Records " be inserted.

8.—(1) Any archaeological reports produced in accordance with condition 7(g)(iii) are to be agreed with the HBMCE.

(2) The undertaker must ensure that a copy of any agreed archaeological report is deposited with the National [Monuments Record of the Historic Environment \(NRHE\)](#), by submitting an [English Heritage Historic England OASIS form](#) with a digital copy of the report. [within 6 months of the completion of construction of the authorised scheme](#). If the report relates to the [foreshore intertidal area](#) the undertaker must notify [the MMO and Lincolnshire County the relevant Historic Environment Records Council](#) that the OASIS report has been submitted to the [National Monuments Record NRHE](#) [within two weeks of the submission](#).

Yours faithfully
