Subject: Witham 4th response to Third Written Questions

Dear Sirs,

Response to Third Written Questions:

CA 3.6 – the Board has no objection to the amended wording subject to such activity not interfering with the normal operations of the Board or that such activities by the Applicant to be subject to prior notification and agreement.

CA 3.8 – ExA comments noted. The Board is working towards such a conclusion. In respect to “land arrangements” please note that the Book of Reference incorrectly identified 4 parcels of land (or parts thereof) that belong to Board as belonging to other parties (Number on Plan 26/09, 30/15, 32/03, 32/09). The Board is endeavouring to resolve these discrepancies but is unlikely to have all issues resolved by Deadline 7 due to the complexities of working with the other parties and the Land Registry.

Regards,

Andy Carrott
