Your reference EN020019

24 February 2016

Dear Ms. King

Triton Knoll Electrical System (Application Reference: EN020019)

This letter serves to update the Examining Authority concerning Protective Provisions for the benefit of WPD (the "Protective Provisions") which will form part of the Applicant's Development Consent Order submission today.

The Protective Provisions are close to agreement, however are provided strictly subject to a legal agreement which is currently being negotiated between both WPD and the Applicant. This legal agreement is intended to be settled prior to the close of the examination.

In terms of the Protective Provisions themselves one commercial point remains between the Applicant and WPD which is also currently being negotiated.

If this legal agreement is not settled between the parties by the close of the examination, WPD will make a further submission regarding the acceptability of the Protective Provisions to the Examining Authority.

Yours sincerely

John Webster

Senior Associate
