29 February 2016

Dear Mr MacDonald,

Application by Triton Knoll Offshore Wind Farm Limited for an Order granting Development Consent for the Triton Knoll Electrical System – deadline 8

Thank you for your letter dated 23rd February setting out the Examining Authority's request for further information. Please find enclosed a response on behalf of Anglian Water.

Question Gen 1.1: Provide comment on matters raised in the Deadline 6 responses and the material that was provided for Deadline 6 as well as that due to be submitted for Deadline 7, 24 February 2016.

Anglian Water has no comments relating to the documents which were submitted by the applicant and interested parties for deadlines 6 and 7.

Question DCO4.1: The SoCG [REP6-022] between the Applicant and Anglian Water states that:

'the parties do not expect their positions in respect of the drafting of Article 12 to change during the examination.'

The ExA note that Article 12 in the draft Development Consent Order (DCO) draws upon Article 14 in The Infrastructure Planning (Model Provisions (England and Wales) Order 2009.

a) State whether discussions are continuing on this issue and, if so, comment on the prospect of any agreement before the close of the Examination on 3 March 2016;

The wording of the SoCG was correct at the time of submission. Following submission of the SoCG there has not been any further discussions with the applicant regarding the drafting of Article 12 of the DCO.

b) The ExA invites both parties to make any final submissions on the reasoning behind their respective positions on this Article.

Anglian Water has reviewed our position in respond to the comments made by the Examining Panel and considers it is not longer necessary to maintain our objection to article 12 (8) of the draft DCO. Therefore Anglian Water's previous objection to article 12 (8) of the DCO pursuant to Section 127 of the Planning Act can be treated as withdrawn.

Should you have any queries relating to this response please let me know.

Yours sincerely
