27th June 2019

Dear Madam

**Reinforcement to the North Shropshire Electricity Distribution Network - EN020021
Planning Act 2008
SP Manweb Plc**

In response to the Deadline 5 requirements as set out in the Examining Authority's Rule 8 letter dated 27th March and the Rule 17 letter dated 18th June, I enclose the following documents:

- SP Manweb's Draft DCO Version 4;
- Plan showing the Overhead Line Profile at the Montgomery Canal Crossing;
- SP Manweb's Response to Submissions made at Deadline 4
- Schedule of Changes to Book of Reference
- Revised Construction Environmental Management Plan (Clean and Tracked Changes versions);

SP Manweb has not provided a Position Statement on the Statements of Common Ground at this deadline as there is no progress to report on the two outstanding SoCGs with Natural England and Severn Trent Water.

In response to the Examining Authority's comment in the Rule 17 letter on the CEMP, SPM can confirm that the final version of the CEMP at the close of the Examination will be referred to as the 'Construction Environmental Management Plan' and this document will be the certified version. The subsequent update as referred to in Requirement 9, to be approved by Shropshire Council will be referred to as the 'Detailed Construction Environmental Management Plan'. The

wording of Requirement 9 and Schedule 9 of the draft DCO have been amended to reflect this.

Text has also been added to the draft CEMP (version 4) to clarify that it is the intention to produce a single CEMP. Reference to 'stages' has also been removed from Requirement 9.

Should you have any queries please do not hesitate to contact me. I would be grateful if you could confirm receipt of these documents.

Yours faithfully

Steven Edwards
