1st July 2019

Dear Madam

**Reinforcement to the North Shropshire Electricity Distribution Network - EN020021
Planning Act 2008
SP Manweb Plc**

Further to SP Manweb's submission regarding Deadline 5 on 27th June, SP Manweb has continued discussions with the Canal & River Trust, and this has resulted in very minor changes to the Construction Environmental Management Plan included in last week's submission and a signed Statement of Common Ground. I would be grateful if you can accept the following documents as late submissions.

- Revised Construction Environmental Management Plan (Clean and Tracked Changes versions; see changes to Paragraph 1.20.16) as agreed with Canal & River Trust; and
- Signed Statement of Common Ground with Canal & River Trust

SP Manweb considers the above latest submissions and those of interested parties in preceding deadlines demonstrate the very good progress made in resolving various outstanding matters raised in the DCO Examination. SP Manweb is continuing this good progress in reaching agreement with Interested Parties and anticipates further agreed positions in July.

In response to the Examining Authority's Rule 17 and Rule 13 letter sent on 12th June, I can therefore confirm that SP Manweb is in agreement with the Examining Authority's proposal to close the Examination earlier than the published timetable shortly after Deadline 7 on 31st July.

Should you have any queries please do not hesitate to contact me. I would be grateful if you could confirm receipt of these documents.

Yours faithfully

Steven Edwards
Land & Planning
SP Energy Networks, for and on behalf of SP Manweb
