APPENDIX 19.4 GROUNDWATER CUMULATIVE EFFECT ASSESSMENT MATRIX (STAGE 1 & 2)

1.1. INTRODUCTION

- 1.1.1.1. This document should be read in conjunction with Chapter 29 (Cumulative Effects) of the Environmental Statement ('ES') (document reference 6.1.29), Chapter 19 (Groundwater) of the ES Volume 1 (document reference 6.1.19) and Appendix 19.5 (Groundwater Cumulative Effects Assessment (Stage 3 & 4)) of the ES Volume 3 (document reference 6.3.19.5).
- 1.1.1.2. The Cumulative Effects Assessment ('CEA') for the Proposed Development follows the recommended approach as detailed by the Planning Inspectorate ('PINS') in PINS Advice Note Seventeen (Planning Inspectorate, 2015). This document summarises the first stages of the CEA approach which include:
- Stage 1 – Establish a Zone of Influence ('ZOI') for each environmental discipline and identify long list of 'other developments'; and
 - Stage 2 – Identify a shortlist of 'other developments'.
- 1.1.1.3. In order to screen projects for the cumulative effects assessment ('CEA') relating to groundwater, the following threshold criteria has been applied:
- The Zone of Influence for other developments has been identified as up to 1 km from the Order Limits.
 - For groundwater the ZOI for other developments is taken as the area directly above the proposed cable route, unless the other developments include for below ground structures i.e. basements, sheet piling, etc. Assumes no below ground structures exist if not included in the planning description.
 - The scale and nature of other developments: projects greater than 0.5 ha, used as a threshold for likely significant effects in Schedule 2 of the EIA Regulations. However, it is also acknowledged that some projects under this threshold may give rise to cumulative effects, so projects within 100 m of the Order Limits are included due to their proximity to the Proposed Development.
 - Temporal scope: construction would need to fall within 1 year with AQUIND construction for cumulative construction effects to be applied.

- 1.1.1.4. Table 1 lists the long and short list of developments for consideration as part of the CEA for the Proposed Development.
