Again, I am objecting to your plans of work and mass disruption throughout portsmouth, through our allotments and past my home. I objected the first time, and understand covid has caused issue with face to face, but i am shocked at how complicated you are making the process for average people who's life you are actually going to disturb, and this does not seem to be taken into consideration. With us now getting a green zone, the Eastern road will become a much busier road to avoid charges. That along with this will cause Portsmouth to come to a standstill.

We need this to be worked out with all the leaders and residents effected in portsmouth ASAP

Trudy
